Standard Catalog of V-8 Engines 1906-2002 John Gunnell, 2003-07-15 The V 8 engine is likely the single most important automotive development since internal combustion. All V 8s are not created equal and never before has there been a complete reference for every American built V 8 engine. Now auto collectors and restorers have one comprehensive catalog that covers thousands of domestic V 8s from the early 20th century to today's compact powerhouses. V 8 engines are alphabetically listed by make of car and then by model year with engine serial number codes and specifications such as bore and stroke, cubic inch displacement and horsepower. Additional details are supplied on carburetors. All domestic automobile and light truck models are included. Various sidebars throughout the book identify correct engine colors and list decals available for specific engines. Numerous photos are interspersed within the listings to clarify details important to restorers. **Focus On: 100 Most**

Wrenick, 2016-10-07 This comprehensive look at the heyday of automobile manufacturing in Ohio chronicles the region's early prominence in an industry that was inventing itself. More than 550 Ohio manufacturers are covered from Abbott to Zent. There are familiar marques such as Jordan Baker, Peerless and White of Cleveland along with Packard, Stutz, Crosley and Willys. Less well known and forgotten automotive ventures such as Auto Bug, Darling and Ben Hur are documented although many never got beyond the concept stage. Attention is given to the various ancillary industries, services and organizations which nurtured, developed with and in many cases survived the decline of Cleveland's automotive industry.
