

AMBULATORY CARE STANDARDS, 3rd EDITION FIELD REVIEW

This document includes only those standards addressed in the Ambulatory Care Standards, 3rd Edition Field Review. The following provides a summary of the overall changes made to the Ambulatory Care Standards.

SUMMARY OF CHANGES TO STANDARDS

The majority of revisions to the Ambulatory Care Standards are based on changes that were made to the 5th Edition Hospital Standards and include

- Rewording and additional text and examples provided in standard text, intents, and measurable elements (MEs) to clarify requirements;
- Consistency in terminology with the 5th Edition Hospital Standards (“health care practitioners,” “department/service leaders,” etc.);
- Use of the policy symbol[®] to indicate when a written policy or procedure is required; and
- Change in location of several standards from the *Improvement in Quality and Patient Safety (IQS)* chapter to the *Governance and Leadership (G/L)* chapter to emphasize the responsibilities of organization leadership for the oversight of the quality and patient safety program.

Number of MEs

Many standards in the 2nd Edition of the Ambulatory Care Standards had only two MEs and some had seven or more. The number of MEs for each standard is now more consistent, with no less than three and no more than six.

Chapters Taken from 5th Edition Hospital Standards

Three chapters—IPSG, ASC, and PFE—have been taken directly from the 5th Edition Hospital Standards to replace IPSG, PAS, and PFE respectively, in the revised Ambulatory Care Standards, with edits made to make them relevant for the ambulatory care setting.

Chapter Titles

Chapter titles and acronyms in the 3rd Edition of the Ambulatory Care Standards will be made the same as those used in the 5th Edition Hospital Standards. For example, *Patient Record and Information Flow (PRI)* will be changed to *Management of Information (MOI)*.

Note: For the purposes of this field review, some of the chapter names and standard labels used are from the 2nd Edition of the Ambulatory Care Standards.
