**St. Augustine on Marriage and Sexuality** Saint Augustine (of Hippo), 1996 Augustine of Hippo b A D 354 is considered the single most influential theologian in the history of the Church in the West Among his many contributions Augustine developed a sexual ethic that became decisive for all later teachings in the Christian West on issues of marriage reproduction and sexuality Some of the most significant and representative passages on marriage and sexuality from his works are presented here They recount Augustine s own struggle with sexuality and stress the important role it played in his conversion to Christianity as well as its influence on his theological principles later in life The passages in this collection are divided into four chapters which document the chronological development of Augustine s sexual ethic The first chapter includes passages that pertain to Augustine s own life and illustrate some of his positive and negative models of marital relation The second chapter recounts Augustine s responses to the Manichean teachings on the body reproduction and marriage mostly from his early years as a Christian The third chapter contains passages marking Augustine s reaction to the ascetic debates within late fourth century Latin Christianity And finally the fourth chapter illustrates Augustine s mature sexual and marital ethic which he elaborated in the midst of and in reaction to arguments with Pelagian writers In a separate introduction Elizabeth Clark sets the development of Augustine s thought within the context of his own intellectual biography and views it against the background of related issues and movements in the late fourth and early fifth centuries such as Manichaeism Jovinianism and Pelagianism The selections she presents here offer a comprehensive and uncommonly well balanced picture of Augustine and his work St Augustine on Marriage and Sexuality is the first in a projected series of volumes on various themes found in the writings of the church fathers ABOUT THE EDITOR Elizabeth Clark is John Carlisle Kilgo Professor of Religion at Duke University She is a past president of the American Academy of Religion and the North American Patristic Society and a member of the editorial board of the Fathers of the Church series **The Works of Saint Augustine: v. 1. Ferraro, Frederik Pedersen, 2021-11-18 Marriage in Europe became a central pillar of society during the medieval period Theologians lawyers and secular and church leaders agreed on a unique outline of the institution and its legal framework the essential features of which remained in force until the 1980s The medieval Western European definition of marriage was unique before the legal consequences of marriage came into being the parties had to promise to engage in sexual union only with one partner and to remain in the marriage until one of the parties died This requirement had profound implications for inheritance rules and for the organization of the family economy it was explained and justified in a multitude of theological discussions and legal decisions across all faiths on the European continent Normative texts built on the foundations of the scriptures of several religious traditions provided an impressive intellectual framework around marriage In addition developments in iconography including sculpture and painting projected the dominant model of marriage while social demographic and cultural changes encouraged its adoption This volume traces the medieval discussion of marriage in practice law theology and iconography It provides an examination of the wider political and economic context of marriage and offers an overview of the ebb and flow of society's ideas about how expressions of human sexuality fit within the confines of a clearly defined social structure and ideology A Cultural History of Marriage in the Medieval Age presents an overview of the period with essays on Courtship and Ritual Religion State and Law Kinship and Social Networks the Family Economy Love and Sex the Breaking of Vows and Representations of Marriage Anglo-Saxon England: Volume 29 Michael Lapidge, Malcolm Godden, Simon Keynes, 2001-02-08 The editorial policy of Anglo Saxon England has been to encourage an interdisciplinary approach to the study of all aspects of Anglo Saxon culture This approach is pursued in exemplary fashion by many of the essays in this volume Fresh light is thrown on the dating and form of Cynewulf's poem The Fates of the Apostles through a comprehensive study of the historical martyrologies of the Carolingian period on which Cynewulf is presumed to have drawn The literary form of Ifric's Preface to his translation of Genesis is illustrated through a wide ranging study of the rhetorical genre of preface writing in the early Middle Ages the genre which subsequently was known as the *ars dictaminis* and the problems which Ifric faced and solved in composing a Life of St thelthryth are illustrated through detailed comparison of the sources which he utilized The usual comprehensive bibliography of the previous year's publications in all branches of Anglo Saxon studies rounds off the book **Sight and Embodiment in the Middle Ages S.** Biernoff, 2002-07-01 This book breaks new ground by bringing postmodern writings on vision and embodiment into dialogue with medieval texts and images an interdisciplinary strategy that illuminates and complicates both cultures This is an invaluable reference work for anyone interested in the history and theory of visibility and it is essential reading for scholars of art science or spirituality in the medieval period *Soul, Body, and Gender in Late Antiquity* Stanimir Panayotov, Andra

Jugănaru, Anastasia Theologou, István Perczel, 2023-12-05 Including both traditional and underrepresented accounts and geographies of soul body gender and sexuality in late antique history philosophy and theology this volume offers substantial readings of these and related concepts through theories of dis embodiment Bringing together gender studies late antique philosophy patristics history of asceticism and history of Indian philosophy this interdisciplinary volume examines the notions of dis embodiment and im materiality in late antique and early Christian culture and thought The book s geographical scope extends beyond the ancient Mediterranean providing comparative perspectives from Late Antiquity in the Near East and South Asia It offers critical interpretations of late antique scholarly objects of inquiry exploring close readings of soul body gender and sexuality in their historical context These fascinating studies engage scholars from different fields and research traditions with one another and reveal both change and continuity in the perception and social role of gender sexuality body and soul in this period Soul Body and Gender in Late Antiquity is a valuable resource for students and scholars of Classics Gender and Sexuality Studies as well as those working on late antique and early Christian history philosophy and theology

**Jesus, Mary, and Joseph** Christopher A. Frilingos, 2017-09-05 When Jesus was five he killed a boy or so reports the Infancy Gospel of Thomas A little boy had run into Jesus by accident bumping him on the shoulder and Jesus took offense Jesus was angry and said to him You shall go no further on your way and instantly the boy fell down and died A second story recounts how Jesus transformed mud into living birds while yet another has Joseph telling Mary to keep Jesus in the house so that no one else gets hurt What was life really like in the household of Joseph Mary and little Jesus The canon of the New Testament provides few details but ancient Christians wanting to know more would turn to the texts we know as the Infancy Gospels The Infancy Gospel of Thomas is a collection of stories from the mid second century C E describing events in the life of Jesus between the ages of five and twelve The Proto gospel of James also dating from the second century focuses on Mary and likewise includes episodes from her childhood These gospels are often cast aside as marginal character sketches designed to assure the faithful that signs of divine grace cropped up in the early years of both Mary and Jesus Christopher A Frilingos contends instead that the accounts are best viewed as meditations on family Both gospels offer rich portrayals of household relationships at a time when ancient Christians were locked in a fierce debate about family not only on the question of what a Christian family ought to look like but also on whether Christians should pursue family life at all Describing the conflicts of family life the gospels present Jesus Mary and Joseph in moments of weakness and strength reminding early Christians of the canyon separating human ignorance and divine knowledge According to Frilingos the depicted acts of love and courage performed in the face of great uncertainty taught early Christian readers the worth of human relationships

*The Catholic Church on Marital Intercourse* Robert Obach, 2008-12-16 The Catholic Church on Marital Intercourse traces the development of the Church s theology of marital sexuality from New Testament times to the present day The early ecclesial leaders promoted a theology of sexuality based on Stoicism s biological perception that sexual

activity was solely for the purpose of reproduction Only in the early twentieth century did a few theologians begin to move beyond discussing the purposes of marital intercourse to discussing the meaning that the marital act might have for the spouses themselves With the Second Vatican Council 1962 1965 a new and positive view of marital sexuality emerged recognizing the Pauline view that the couple s marital acts express their love for each other along the lines of Christ s love for his church Ephesians 5 In sum The Catholic Church on Marital Intercourse treats the way in which the Catholic Church has moved away from an attitude of conditional acceptance of marital intercourse on the basis of its utility to recognition that the dynamics of sexual union are both good and holy not only because that is the way children are conceived but also because the marital act enhances the love of husband and wife for each other The Wife of Jesus Anthony Le Donne,2013-11-01 The idea that Jesus was married continues to incite fierce debate But most who address the topic either dismiss the possibility or propound conspiracy theories Amid the storm of controversy Le Donne provides a haven of clarity and sense Approaching the subject from a fresh historical perspective Le Donne places Jesus firmly within a socio cultural context and by investigating gender and marriage norms provocatively argues that Jesus could well have been married although not to Mary Magdalene Blessed Are the Peacemakers Lisa Sowle Cahill,2019-03-02 This book is a contribution to the Christian ethics of war and peace It advances peacebuilding as a needed challenge to and expansion of the traditional framework of just war theory and pacifism It builds on a critical reading of historical landmarks from the Bible through Augustine Aquinas the Reformers Christian peace movements and key modern figures like Dietrich Bonhoeffer Reinhold Niebuhr and recent popes Similar to just war theory peacebuilding is committed to social change and social justice but includes some theorists and practitioners who accept the use of force in extreme cases of self defense or humanitarian intervention Unlike just war theorists they do not see the justification of war as part of the Christian mission Unlike traditional pacifists they do see social change as necessary and possible and as such requiring Christian participation in public efforts Cahill argues that transformative Christian social participation is demanded by the gospel and the example of Jesus and can produce the avoidance resolution or reduction of conflicts And yet obstacles are significant and expectations must be realistic Decisions to use armed force against injustice even when they meet the criteria of just war will be ambiguous and tragic from a Christian perspective Regarding war and peace the focus of Christian theology ethics and practice should not be on justifying war but on practical and hopeful interreligious peacebuilding Imagining Heaven in the Middle Ages Jan S. Emerson,2014-04-08 Medieval attempts to capture a glimpse of heaven range from the ethereal to the mundane utilizing media as diverse as maps cathedrals songs treatises poems visions and sewer systems Heaven was at once the goal of the individual Christian life and the end of the cosmic plan It was simply stated perfection But interpretations varied from the traditional to the dangerously unique as artists and authors theologians and visionaries struggled to define that perfection Depending on the source heaven s attributes vary from height to depth darkness to light silence to symphony

the souls within it from activity to passivity experience to essence participation to distant admiration Questions addressed in this anthology include Are erotic and spiritual love mutually exclusive Does the soul's happiness depend on the resurrection of the body What will be the nature of the transfigured body Will it retain its gender Will it have senses Will it know desire How can desire and fulfillment exist together Can the human soul ever know God Contributors to this volume examine well known and previously unexplored texts and artefacts from historical and art historical theological philosophical and literary perspectives to complement and challenge more general surveys of the history of heaven and above all to illuminate the richness and variety of medieval Christian ideas on heaven
