A Pictorial History of the University of Iowa John C. Gerber, 2010-09-13 The founders of the new state of Iowa in 1847 waited only fifty nine days to charter a university Eight years later the first classes were held in a rented building still very much on the edge of the western frontier surrounded by prairie and pastureland It is difficult to imagine such a scene today compared to the University of Iowa s contemporary setting with its 26 000 students its 250 plus buildings huge medical complex performing arts campus and athletic facilities all clustered around the grand centerpiece of the Old Capitol First published in 1988 this gracefully written pictorial narrative deftly compresses the history of this distinguished institution into a readable and entertaining text enriched by an impressive selection of over 350 photographs gleaned from the university s archives Photos and text capture Iowa s major research accomplishments in space exploration medical research educational testing and the ground breaking advanced degree programs for creative work in all the arts as well as the many great moments in Hawkeye sports Also included is an account of the evolution of the institution itself of the significant teachers and administrators who guided the university s progress through world wars periods of intense social upheaval and the more tranquil years of strength and growth With an all new album of fifty color photos that both celebrate and define the last twenty years of the university s history the expanded paperback edition of this classic book is an enduring testament to the unique character of the University of Iowa its strong commitment to education research and the creative arts and its remarkable service to the state **Pictorial History of the World's Greatest War and New International Atlas of the World**, 1919 *The Pageant of America, a Pictorial History of the United States*, 1927 America 1933 Michael Golay, 2016-01-12 The first account of the remarkable eighteen month journey of Lorena Hickok intimate friend of Eleanor

Price, 2010 For almost 75 years the Grand Avenue Viaduct known today as the Gordon Drive Viaduct has been a familiar feature of Sioux City s urban landscape With the exception of bridges over the Mississippi River the Grand Avenue Viaduct is Iowa s longest grade separation as well as its longest bridge For nearly a mile from the eastern suburbs west to the central business district the viaduct carries Gordon Drive and the city route of U S 20 over the Floyd River valley which includes the remnants of the city s famed stockyards and the South Bottoms neighborhood as well as a maze of railroad tracks and the present channel of the Floyd River Constructed in 1937 and known simply as The Viaduct to local residents the massive structure is as fundamental to Sioux City as were its stockyards just a few decades ago
