Sitting Bull 1831 189:

American Heretics Peter Gottschalk, 2024-05-01 In the middle of the nineteenth century a group of political activists in New York City joined together to challenge a religious group they believed were hostile to the American values of liberty and freedom Called the Know Nothings they started riots during elections tarred and feathered their political enemies and barred men from employment based on their religion The group that caused this uproar Irish and German Catholics then known as the most villainous religious group in America and widely believed to be loyal only to the Pope It would take another hundred years before Catholics threw off these xenophobic accusations and joined the American mainstream The idea that the United States is a stronghold of religious freedom is central to our identity as a nation and utterly at odds with the historical record In *American Heretics* historian Peter Gottschalk traces the arc of American religious discrimination and shows that far from the dominant protestant religions being kept in check by the separation between church and state religious groups from Quakers to Judaism have been subjected to similar patterns of persecution Today many of these same religious groups that were once regarded as anti thetical to American values are embraced as evidence of our strong religious heritage giving hope to today s Muslims Sikhs and other religious groups now under fire *Famous People from North Dakota Photo Pack*
