Six American Modernists:

American Modernism Catherine Morley, 2020-07-13 Encompassing writers from Edith Wharton Ezra Pound and T S Eliot to Willa Cather Theodore Dreiser and Gertrude Stein American Modernism Cultural Transactions is a comprehensive and informative companion to the field of American literary modernism This groundbreaking new book explores the changing patterns of American literary culture in the early years of the 20th century in the aftermath of the great American Renaissance when the United States was well on its way to becoming the most economically powerful and culturally influential nation in the world It brings together some of the most eminent British and European scholars to investigate how the United States s unique cultural position is in fact the by product of a range of cultural transactions between the United States and Europe between the visual and the literary arts and between the economic and aesthetic worlds And it presents a stunning re examination of the social cultural and artistic contours of American modernism from the impact of a liberal Scottish speaker on T S Eliot s considerations of Shakespeare to the generic hybridity of Edith Wharton s writing from the influence of Oscar Wilde on Hart Crane to the effect of Anglo European experimentalism on Native American fiction and much more Through close textual and archival analysis backed up with compelling historical insights these nine new essays explore the nature and limits of American modernism They address such topical issues as geomodernism transnationalism and the nature of American identity they examine the ways writers embraced or rejected the emerging modern world and they take a fresh look at American literature in the broad context of international modernism **American Women**

Modernists Robert Henri, Marian Wardle, Sarah Burns, Brigham Young University. Museum of Art, 2005 The seven essays included in this volume move beyond the famed Ashcan School to recover the lesser known work of Robert Henri s women students The contributors who include well known scholars of art history American studies and cultural studies demonstrate how these women participated in the modernizing of women s roles during this era **American Modernism and Depression Documentary** Jeff Allred, 2012-11-01 American Modernism and Depression Documentary surveys the uneven terrain of American modernity through the lens of the documentary book Jeff Allred argues that photo texts of the 1930s stage a set of mediations between rural hinterlands and metropolitan areas between elite producers of culture and the forgotten man of Depression era culture between a myth of consensual national unity and various competing ethnic and regional collectivities In light of the complexity this entails this study takes issue with a critical tradition that has painted the documentary expression of the 1930s as a simplistic and propagandistic divergence from literary modernism Allred situates these texts and the documentary modernism they represent as a central part of American modernism and response to American modernity as he looks at the impoverished sharecroppers depicted in the groundbreaking Let Us Now Praise Famous Men the disenfranchised African Americans in Richard Wright s polemical 12 Million Black Voices and the experiments in Depression era photography found in Life magazine **Byron Browne, a Seminal American Modernist** Jim Rogers, Byron

American modernist writers' engagement with changing ideas of gender and race often took the form of a struggle against increasingly inflexible categories Greg Forter interprets modernism as an effort to mourn a form of white manhood that fused the masculine with the feminine He argues that modernists were engaged in a poignant yet deeply conflicted effort to hold on to socially feminine and racially marked aspects of identity qualities that the new social order encouraged them to disparage Examining works by F Scott Fitzgerald Ernest Hemingway William Faulkner and Willa Cather Forter shows how these writers shared an ambivalence toward the feminine and an unease over existing racial categories that made it difficult for them to work through the loss of the masculinity they mourned **Gender Race and Mourning in American Modernism** offers a bold reading of canonical modernism in the United States **Modern American Religion, Volume 2** Martin E.

American Modernism Matthew Stratton, 2013-11-01 Shortlisted for the 2015 Modernist Studies Association Book Prize This book shows how American literary culture in the first half of the twentieth century saw irony emerge as a term to describe intersections between aesthetic and political practices Against conventional associations of irony with political withdrawal Stratton shows how the term circulated widely in literary and popular culture to describe politically engaged forms of writing It is a critical commonplace to acknowledge the difficulty of defining irony before stipulating a particular definition as a stable point of departure for literary cultural and political analysis This book by contrast is the first to derive definitions of irony inductively showing how writers employed it as a keyword both before and in opposition to the institutionalization of New Criticism It focuses on writers who not only composed ironic texts but talked about irony and satire to situate their work politically Randolph Bourne Benjamin De Casseres Ellen Glasgow John Dos Passos Ralph Ellison and many others **The**

Gualberto Valverde, 2021-09-06 This book proposes a renewed myth critical approach to the so called wasteland modernism of the 1920s to reassess certain key texts of the American modernist canon from a critical prism that offers new perspectives of analysis and interpretation Myth criticism and more specifically the critical survey of myth as an aesthetic and ideological strategy fundamental for the comprehension of modernist literature leads to an engaging discussion about the

disenchantment of myth in modernist literary texts This process of mythical disenchantment inextricable from the cultural and historical circumstances that define the modernist zeitgeist offers a possibility for revising from a contemporary standpoint a set of classic texts that are crucial to our understanding of the modern literary tradition in the United States This study carries out an exhaustive and updated myth critical examination of works by T S Eliot John Dos Passos F Scott Fitzgerald Ernest Hemingway John Steinbeck and Djuna Barnes to broaden the scope of familiar themes and archetypes enclosing the textual analysis of these works in a wider exploration about the purpose and functioning of myth in literature particularly in times of crisis and transformation The Cambridge Introduction to Modernist Poetry Peter
