Jazz Griots Jean-Philippe Marcoux, 2012-06-27 This book studies how four representative African American poets of the 1960s Langston Hughes Umbra's David Henderson and the Black Arts

Movement s Sonia Sanchez and Amiri Baraka engage in the tradition of griots in poetic dialogues with aesthetics music politics and Black History In so doing they narrate using jazz as meta language genealogies etymologies cultural legacies and Black hi stories In intersecting and complementary ways Hughes Henderson Sanchez and Baraka fashioned their griotism from theorizations of artistry as political engagement and in turn formulated a Black aesthetic based on jazz performativity on a series of jazz infused iterations that form a complex pattern of literary musical historical and political moments in constant cross fertilizing dialogues with one another This form of poetic call and response becomes a definitional literary template for these poets as it allows both the possibility of intergenerational dialogues between poets and musicians and dialogic potential between song and politics between Africa and Black America between vernacular continuums in their poems

Selling Antislavery Teresa A. Goddu,2020-03-13 Beginning with its establishment in the early 1830s the American Anti Slavery Society AASS recognized the need to reach and consolidate a diverse and increasingly segmented audience To do so it produced a wide array of print material and visual media almanacs and slave narratives pincushions and gift books broadsides and panoramas Building on the distinctive practices of British antislavery and evangelical reform movements the AASS utilized innovative business strategies to market its productions and developed a centralized distribution system to circulate them widely In *Selling Antislavery* Teresa A Goddu shows how the AASS operated at the forefront of a new culture industry and by framing its media as cultural commodities made antislavery sentiments an integral part of an emerging middle class identity She contends that although the AASS s dominance waned after 1840 as the organization splintered it nevertheless created one of the first national mass markets Goddu maps this extensive media culture focusing in particular on the material produced by AASS in the decade of the 1830s She considers how the dissemination of its texts objects and tactics was facilitated by the quasi corporate and

centralized character of the organization during this period and demonstrates how its institutional presence remained important to the progress of the larger movement Exploring antislavery's vast archive and explicating its messages she emphasizes both the discursive and material aspects of antislavery's appeal providing a richly textured history of the movement through its artifacts and the modes of circulation it put into place Featuring more than seventy five illustrations Selling Antislavery offers a thorough case study of the role of reform movements in the rise of mass media and argues for abolition's central importance to the shaping of antebellum middle class culture
