Globalization Studies* This year it has the following subtitle *Aspects Dimensions of Global Views* Its authors consider  
globalization and Global Studies in different dimensions and aspects philosophical methodological and pedagogical in terms  
of various processes problems and perspectives Of course to some extent this means that this yearbook presents rather  
diverse materials But globalization itself is very diverse And its comprehension may proceed in the framework of different  
theoretical approaches and points of view In the present yearbook one can find perceptions of globalization and Global  
Studies by a number of scholars from different countries of the world and learn rather peculiar visions of globalization by the
