Lee, 2018-04-19 This innovative book analyses the relationship between religion and politics in the Middle East through a comparative study of five countries Egypt Israel Turkey Iran and Saudi Arabia Robert D Lee examines each country in terms of four domains in which state and religion necessarily interact national identity ideology institutions and political culture In each domain he considers contradictory hypotheses some of them asserting that religion is a positive force for political development and others identifying it as an obstacle Among the questions the book confronts Is secularization a necessary prerequisite for democratic development How is it and why is it that religion and politics are so deeply entangled in these five countries And why is it that all five countries differ so markedly in the way they identify themselves and use religion for political purposes The book argues that the nature of religious organization and practice in the Middle East must be understood in the context of individual nation states The second edition is updated throughout and includes an entirely new chapter discussing the political and religious climate in Saudi Arabia Earlier introductory analysis has been condensed to make room for new material and chronologies at the end of each chapter have been added to help students understand the broader context The second edition of Religion and Politics in the Middle East is a robust addition to courses on the Middle East

Movements Roy A. Ockert,1955 **The Hojjatiyeh Society in Iran** R. Cohen,2013-02-12 This book analyzes the evolution of the Hojjatiyeh movement in Iran a semi clandestine movement which emerged in the 1950s as an anti Baha i movement went underground in the 1960s and re emerged openly after Iran s 1979 revolution with its members coming to occupy some of the highest echelon posts in Iranian politics **Nonbelievers, Apostates, and Atheists in the Muslim World** Jack David Eller,Natalie Khazaal,2024-07-03 Nonbelievers Apostates and Atheists in the Muslim World offers a contemporary cross cultural look at nonbelief and nonreligion in Islam Providing historical conceptual statistical and ethnographic data on nonbelievers from Morocco to Egypt Turkey and Bangladesh it explores the unique nature and challenges of nonreligion for Muslims It includes 11 chapters by experts on nonbelief nonreligion and atheism in an array of Muslim majority countries The book features multiple disciplines and offers both ethnographic and statistical information on this important growing but neglected population It explores the unique nature of nonreligion in Islam illustrating that nonbelief is specific to a particular religious tradition It also examines how ex Muslims navigate complexities and dangers of their societies especially for women and how nonbelief and nonreligion do not equate to atheism or the total repudiation of religion or of Muslim identity This book is an outstanding resource for scholars and students of nonbelief atheism secularism religion and contemporary Islam Chapters 4 and 5 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license **Iranian Masculinities** Sivan Balslev,2019-03-21 This unique study spotlights the role of masculinity in Iranian history linking masculinity to social and political developments **Air University Library Index to Military Periodicals** ,1994 *Catalogue of the Library of the Peabody Museum of Archaeology and Ethnology* Peabody Museum of Archaeology and Ethnology. Bibliography of Periodical Literature on the Near and Middle East ,1970 Islam as Power Bianka Speidl,2020-12-03 Providing an in depth and extensive analysis of the concept of power as articulated by Muhammad Husayn Fadlallah 1935 2010 this case study analyses the systemic conceptualisation of power and his argumentation of sacralising Islamised power The volume also offers a quick overview of how the concept was understood and articulated by other Shi ite jurists such as Ayatollah Khomeini Examining Fadlallah s oeuvre in particular his seminal book *Islam and the Logic of Power al Islam wa mantiq al quwwa* this book focuses on the narrative itself which played a central role in the radical transformation that occurred in the Shi te concept of empowerment and its recognition as a necessity The analysis of Fadlallah s conceptualisation and argumentation illustrates the mechanism of sacralising righteous power as well as the means of gaining it Fadlallah reinterpreted Shi sm as a project of empowerment to initiate and sustain an impulse of power amongst the Lebanese Shi tes in the most critical moment of modern Lebanese history Dealing with the concept of power in Shi te political thought from a theoretical perspective the study has an innovative approach that offers an insight into how the transformative narrative is constructed and what makes it convincing Shedding light on the content and logical structure of

Fadlallah's argumentation this volume will be of interest to scholars and students researching contemporary politics Islam and the Middle East *Media, Culture and Society in Iran* Mehdi Semati, 2007-09-24 Arguing that existing perspectives on contemporary Iran have not fully grasped the significant role of culture in Iran this book examines modern culture and media in Iran through a wide range of topics [Qatar](#) Mehran Kamrava, 2015-06-15 The Persian Gulf state of Qatar has fewer than 2 million inhabitants virtually no potable water and has been an independent nation only since 1971 Yet its enormous oil and gas wealth has permitted the ruling al Thani family to exert a disproportionately large influence on regional and even international politics Qatar is as Mehran Kamrava explains in this knowledgeable and incisive account of the emirate a tiny giant although severely lacking in most measures of state power it is highly influential in diplomatic cultural and economic spheres Kamrava presents Qatar as an experimental country building a new society while exerting what he calls subtle power It is both the headquarters of the global media network Al Jazeera and the site of the U S Central Command's Forward Headquarters and the Combined Air Operations Center Qatar has been a major player during the European financial crisis it has become a showplace for renowned architects several U S universities have established campuses there and it will host the FIFA World Cup in 2022 Qatar's effective use of its subtle power Kamrava argues challenges how we understand the role of small states in the global system Given the Gulf state's outsized influence on regional and international affairs this book is a critical and timely account of contemporary Qatari politics and society *The Political Development of the Kurds in Iran* F. Koohi-Kamali, 2003-09-30 This book looks at Kurdish Nationalism in Iran and examines the links between the structural changes in the Kurdish economy and its political demands Farideh Koohi Kamali argues that the transition of the nomadic tribal society of Kurdistan to an agrarian village society was the beginning of a process by which Kurds saw themselves as a community of homogenous ethnic identity The political movements of Kurds in Iran are discussed to illustrate that the different phases of economic development of Kurdish society played a great role in determining the way in which Kurds expressed their political demands for independence **The Unthinkable Revolution in Iran** Charles Kurzman, 2005-09-06 The shah of Iran Mohammad Reza Pahlavi would remain on the throne for the foreseeable future This was the firm conclusion of a top secret CIA analysis issued in October 1978 One hundred days later the shah despite his massive military fearsome security police and superpower support was overthrown by a popular and largely peaceful revolution But the CIA was not alone in its myopia as Charles Kurzman reveals in this penetrating work Iranians themselves except for a tiny minority considered a revolution inconceivable until it actually occurred Revisiting the circumstances surrounding the fall of the shah Kurzman offers rare insight into the nature and evolution of the Iranian revolution and into the ultimate unpredictability of protest movements in general As one Iranian recalls The future was up in the air Through interviews and eyewitness accounts declassified security documents and underground pamphlets Kurzman documents the overwhelming sense of confusion that gripped pre revolutionary Iran and that characterizes major protest movements His book provides a

striking picture of the chaotic conditions under which Iranians acted participating in protest only when they expected others to do so too the process approaching critical mass in unforeseen and unforeseeable ways Only when large numbers of Iranians began to think the unthinkable in the words of the U S ambassador did revolutionary expectations become a self fulfilling prophecy A corrective to 20 20 hindsight this book reveals shortcomings of analyses that make the Iranian revolution or any major protest movement seem inevitable in retrospect

Higher Education in the Gulf States

Christopher Davidson, Peter Mackenzie Smith, 2012-08-01 Nowhere in the world is university education expanding as rapidly as in the six member state of the Gulf Cooperation Council In two generations the region has gone from having the Middle East s least educated population to boasting a younger generation whose educational achievements are approaching Organisation for Economic Co operation and Development OECD standards This unique study with contributions by key decision makers charts this dramatic development exploring the challenges faced and placing accomplishments within the social economic and political context of the region

A Social Revolution Kevan Harris, 2017-08-08 For decades political observers and pundits have characterized the Islamic Republic of Iran as an ideologically rigid state on the verge of collapse exclusively connected to a narrow social base In *A Social Revolution* Kevan Harris convincingly demonstrates how they are wrong Previous studies ignore the forceful consequences of three decades of social change following the 1979 revolution Today more people in the country are connected to welfare and social policy institutions than to any other form of state organization In fact much of Iran s current political turbulence is the result of the success of these social welfare programs which have created newly educated and mobilized social classes advocating for change Based on extensive fieldwork conducted in Iran between 2006 and 2011 Harris shows how the revolutionary regime endured though the expansion of health education and aid programs that have both embedded the state in everyday life and empowered its challengers This first serious book on the social policies of the Islamic Republic of Iran opens a new line of inquiry into the study of welfare states in countries where they are often overlooked or ignored
