important concept It presents a theoretical history of the use of hegemony in a range of work starting with a discussion of Gramsci and Russian Marxism and going on to look at more recent applications It examines the current debates and discusses the new direction to Marx made by Jacques Derrida before outlining a critical realist Marxist alternative This book employs critical realist philosophy in an explanatory way to help clarify the concept of hegemony and its relation to societal processes This work contributes to recent debates in social science and political philosophy developing both the concept of hegemony itself and the work of critical realism

Hegemony and Education Under Neoliberalism

Peter Mayo, 2015-03-12 Based in a holistic exposition and appraisal of Gramsci's writings that are of relevance to education in neoliberal times this book rather than simply applying Gramsci's theories to issues in education argues that education constitutes the leitmotif of his entire oeuvre and lies at the heart of his conceptualization of the ancient Greek term hegemony that was used by other political theorists before him Starting from this understanding the book goes on to compare Gramsci's theories with those of later thinkers in the development of a critical pedagogy that can confront neoliberalism in all its forms

Confucian Marxism

Weigang Chen, 2013-09-25 Buttressed by an autocratic system China's colossal economic growth over the past decades seems to have had the paradoxical effect of undermining the foundation of Western domination but at the same time invigorating Eurocentricism In particular it highlights the current relevance of the central conviction of Weber's Orient the absence of civic roots in non-Western societies will create a kind of uncivic capitalist system in which one has no choice but to seek to compensate for instabilities through authoritarian institutions Does this mean that the West may alone afford to harmonize political stability with the universalistic ideal of justice as the basic structure of society If not how then is it possible to develop a notion of the primacy of social justice that transcends the limits of liberal democracy This book aims at addressing these timely questions by drawing on Confucian Marxism a distinctive perspective on civil society

The Dramatic Arts and Cultural Studies

Kathleen S. Berry, 2002-09-11 This book presents a wide range of contemporary theories borrowed from Cultural Studies augmented with practical implications that support dramatic artists in their struggle to create possible multiple realities for a postmodern future Teachers directors writers students and many others involved in the dramatic arts will benefit from the discussions of Cultural Studies and the connections to the Dramatic Arts The first chapters mix theory and practice while the last chapter provides questioning strategies and conventions that can be used in actual sessions to deconstruct scripted or improvised dramatic texts This is a useful introductory text for artists directors teachers students and others involved in the Dramatic Arts who would like to energize their work through contemporary theories and practices of Cultural Studies

Not Losing Face

Richard Michael Head, 2025-01-01 What power is may be or imagined to be through human considerations It is vital since the energy used to generate power is life's social and cultural fabric Since power is understood in many ways it shows that it is too complicated to just conveniently rationalize from a compartmental methodology However there is also a paradox here since power can be

reduced to the simplicity of acting in a certain way or not acting in a certain way This acting may be self induced or from pressure applied by others and societal expectations Hence power is multifaceted but also of a binary yes or no within its potentiality and actuality It is the versatile nature of power within the space of its binary disposition that the book interweaves with When interweaving eleven faces have been selected to offer what power is and does Eight are prominent social thinkers or simply thinkers who consider what life is as it may be incorrect just to restrict or label them to the social aspect of living as being of and in existence is more than that Another is the physical evolving environment through which all living beings enjoy movement One other participates with power through religious filters of production and the remaining one is an artistic appreciation of how to power My face of power filters these faces

Intellectual Freedom and Social Responsibility in American Librarianship, 1967-1974 Toni Samek, 2017-07-06 Between 1967 and 1974 a number of librarians came together to push for change in the American Library Association They soon prompted a majority of the profession to examine their role in the dissemination and preservation of culture and to ask basic questions about the terrain that the profession defends A particular concern was the limitations to intellectual freedom if any that might arise in the pursuit of other perhaps equally worthy goals The questions raised by this advocacy group were based on a relatively new concept of librarianship social responsibility that was partly an outgrowth of the civil rights and antiwar agitation of the period and partly a continuation of the proud traditions of the alternative press movement in the United States The resulting dissension and turmoil exposed an inherent discrepancy not only between the rhetoric of ideals within the profession and the reality of practice but between librarians as agents of change librarians having a social agenda and professional neutrality or the provision of information for all sides without taking sides These conflicts have never been resolved The reader will find in this book a fully researched presentation of the years of ferment and political infighting that brought the issues into such sharp focus

Being an Early Career Feminist Academic Rachel Thwaites, Amy Pressland, 2016-11-23 This book highlights the experiences of feminist early career researchers and teachers from an international perspective in an increasingly neoliberal academy It offers a new angle on a significant and increasingly important discussion on the ethos of higher education and the sector's place in society Higher education is fast changing increasingly market driven and precarious In this context entering the academy as an early career academic presents both challenges and opportunities Early career academics frequently face the prospect of working on fixed term contracts with little security and no certain prospect of advancement while constantly looking for the next role Being a feminist academic adds a further layer of complexity the ethos of the marketising university where students are increasingly viewed as customers may sit uneasily with a politics of equality for all Feminist values and practice can provide a means of working through the challenges but may also bring complications

Language and Hegemony in Gramsci Peter Ives, 2004-07-20

Language and Hegemony in Gramsci introduces Gramsci's social and political thought through his writings on language. It shows how his focus on language illuminates his central ideas such as hegemony, organic and traditional intellectuals, passive revolution, civil society and subalternity. Peter Ives explores Gramsci's concern with language from his university studies in linguistics to his last prison notebook. Hegemony has been seen as Gramsci's most important contribution, but without knowledge of its linguistic roots it is often misunderstood. This book places Gramsci's ideas within the linguistically influenced social theory of the twentieth century. It summarizes some of the major ideas of Ferdinand de Saussure, Ludwig Wittgenstein, language philosophy and post-structuralism in relation to Gramsci's position. By paying great attention to the linguistic underpinnings of Gramsci's Marxism, Language and Hegemony in Gramsci shows how his theorization of power, language and politics address issues raised by post-modernism and the work of Michel Foucault, Jacques Derrida, Chantal Mouffe and Ernesto Laclau.
