Adolescent Sexuality Constance H Shapiro, Paula Allen-Meares, 2018-10-24 Here is an invaluable resource to help

professionals understand the broad range of issues and challenges that adolescents face as they grapple with their sexuality. This highly informative volume addresses the most compelling issues of adolescent sexuality. Sexual orientation, acquaintance rape, new social roles, and sexually transmitted diseases are among the numerous topics that social workers confront daily in helping adolescents define and seek solutions to their sex-related concerns. Adolescent Sexuality highlights the importance of innovative approaches and client empowerment in prevention and treatment programs for youth, particularly in this era of declining federal support. This timely volume reveals the reluctance of adolescents to confide in their families; therefore, experts offer valuable suggestions for social workers to strengthen and use community resources: the church, family planning agencies, schools, and support groups to supplement the efforts of many families.

Human Sexuality Anne Bolin, Patricia Whelehan, 2009-09-10. Human Sexuality: Biological, Psychological, and Cultural Perspectives is a unique textbook that provides a complete analysis of this crucial aspect of life around the world. Utilizing viewpoints across cultural and national boundaries and deftly weaving evolutionary and psychological perspectives, Bolin and Whelehan go beyond the traditional evolution and primatology to address cross-cultural and contemporary issues as well as anthropological contributions and psycho-social perspectives. Taking into account the evolution of human anatomy, sexual behavior, attitudes, and beliefs, this far-reaching text goes beyond what is found in traditional books to present a wide diversity of beliefs, attitudes, and behaviors found globally. In addition to providing a rich array of photographs, illustrations, tables, and a glossary of terms, this extraordinary textbook explores pregnancy and childbirth as a bio-cultural experience, life course issues related to gender identity, sexual orientations, behaviors, and lifestyles; socioeconomic, political, historical, and ecological influences on sexual behavior; early childhood sexuality; puberty and adolescence; birth control; fertility; conception and sexual differentiation; HIV infection; AIDS; AIDS globalization; and sex work. Fusing biological, socio-psychological, and cultural influences to offer new perspectives on understanding human sexuality, its development over millions of years of evolution, and how sexuality is embedded in specific socio-cultural contexts, this is the text for educators and students who wish to understand human sexuality in all of its richness and complexity.
