Soft Voice Of The Serpent Other Storie

Nadine Gordimer

Soft Voice Of The Serpent Other Storie:

Animals and Women Carol J. Adams, Josephine Donovan, 1995-11-14 *Animals and Women* is a collection of pioneering essays that explores the theoretical connections between feminism and animal defense. Offering a feminist perspective on the status of animals, this unique volume argues persuasively that both the social construction and oppressions of women are inextricably connected to the ways in which we comprehend and abuse other species. Furthermore, it demonstrates that such a focus does not distract from the struggle for women's rights but rather contributes to it. This wide-ranging multidisciplinary anthology presents original material from scholars in a variety of fields as well as a rare early article by Virginia Woolf. Exploring the leading edge of the species/gender boundary, it addresses such issues as the relationship between abortion rights and animal rights, the connection between woman-battering and animal abuse, and the speciesist basis for much sexist language. Also considered are the ways in which animals have been regarded by science literature and the environmentalist movement. A striking meditation on women and wolves is presented, as is an examination of sexual harassment and the taxonomy of hunters and hunting. Finally, this compelling collection suggests that the subordination and degradation of women is a prototype for other forms of abuse and that to deny this connection is to participate in the continued mistreatment of animals and women.

The Short Story Charles May, 2013-10-14 The short story is one of the most difficult types of prose to write and one of the most pleasurable to read. From Boccaccio's *Decameron* to *The Collected Stories of Reynolds Price*, Charles May gives us an understanding of the history and structure of this demanding form of fiction. Beginning with a general history of the genre, he moves on to focus on the nineteenth century when the modern short story began to come into focus. From there, he moves on to later nineteenth-century realism and early twentieth-century formalism, and finally to the modern renaissance of the form that shows no signs of abating. A chronology of significant events, works, and figures from the genre's history, notes, and references, and an extensive bibliographic essay with recommended reading round out the volume.

Human Rights and Nadine Gordimer's Fiction Mateti Prabhakar, Kanugula Ram Mohan, 2024-07-02 The book explores the complex problem of apartheid racial segregation in South African society and the struggle against the colour bar represented in the fictional world of Nadine Gordimer, the Nobel Laureate of the South.

Concert of Voices Victor J. Ramraj, 1994-12-30

Concert of Voices combines poetry fiction drama and essays in a wide ranging anthology of world literature in English The collection includes a number of established writers who despite their great reputations have often been perceived as standing apart from the main currents of English literature and have rarely found their way into English Department reading lists Most selections though are by a remarkable range of much less established authors In addition to the selections the editor has provided a general introduction and a brief biographical note on each author The intention in Concert of Voices is both to provide an alternative text to anthologies of traditional and established writings in which the new writings in English invariably are displaced and marginalized and to complement these anthologies In this regard the word other which points up apartness and division was found wanting and dropped from the provisional main title Its omission draws attention to a concept and conviction operative in the construction of the anthology despite historical and cultural specificities the focus of cross cultural and multicultural studies commonalities and affinities exist among these writings and between writing on both sides of the hegemonic divide The anthology then is not intended simply as an offering of sociological or anthropological insights into these different peoples The pieces in Concert of Voices also demonstrate that imaginative writings can evolve from a cocoon of particularities into what can be called modifying a catch phrase of certain other disciplines Literature Without Borders from the introduction
