Soil Degradation and Restoration in Africa Rattan Lal, B. A. Stewart, 2019-07-09 Soil degradation is a widespread problem in Africa resulting in decreased agricultural productivity while demand for food continues to increase Degradation is caused by accelerated erosion acidification contamination depletion of soil organic matter and plant nutrients and salinization The major cause of soil degradation in Africa is uncontrolled and excessive grazing in the savanna regions followed by deforestation and the use of inappropriate and extractive farming practices Perpetual neglect of the health of soils in Africa can exacerbate the already serious problems of food and nutritional insecurity and environmental degradation Food and nutritional security of the growing population of Africa can only be achieved if degraded soils are restored and soils of agroecosystems are managed prudently and sustainably Ignoring soils and taking the fragile finite and precious soil resources for granted is the principal cause of poverty hunger and environmental degradation The downward spiral must be reversed through soil restoration measures based on translating science into action This book describes the soils of Africa processes of soil degradation extent and severity of soil degradation and the impacts of degradation processes on food and nutritional security Features Explores the extent and severity of soil degradation in Africa Analyzes the cause effect relationship between anthropogenic activities and soil degradation Reviews processes of soil degradation in Africa including erosion salinization nutrient depletion and decline of soil organic matter Addresses the effect of climate change on soil degradation in Africa Explains how soil degradation causes food and nutritional insecurity Part of the Advances in Soil Sciences series this volume is specifically devoted to the processes and factors that cause soil degradation and the challenges and potential for remediation and restoration of soil health in Africa **The Impact of Climate Change on Drylands** A.J. Dietz, R. Ruben, A. Verhagen, 2006-04-11 Sahelian West Africa has recovered from the disastrous droughts of the 1970s and

1980s People have learned to adapt to risk and uncertainty in fragile dryland environments They as well as global change scientists are worried about the impact of climate change on these West African drylands What do the experiences of the last thirty years say about the preparedness for higher temperatures lower rainfall and even more variability Detailed studies on Dryland West Africa as a whole and on Burkina Faso Mali and Northern Ghana in particular show an advanced coping behaviour and increased adaptation but also major differences in vulnerability and coping potential Climate change preparedness programmes have only just started and require more robust support and more specific social targeting for a population which is rapidly growing even more rapidly urbanising and further integrating in a globalised economy This book is the first of its kind with a comprehensive analysis of climate change experiences in West African drylands with attention for pathways of change and the diversity of adaptation options available This book is of interest to scientists studying global and climate change especially dealing with issues of adaptation Social scientists economists geographers and policy makers concerned with West Africa should also read this book

Structural Adjustment, the Environment and Sustainable Development David Reed, 2013-11-05 This is a pioneering study which should serve as a model for future research and will to a wide audience Dharam Ghai Director United Nations Research Institute for Social Development Structural Adjustment and the Environment Earthscan 1992 was the first book to fully examine the effects of structural adjustment programmes the economic reform policies required by the World Bank and IMF as part of their lending operations with borrowing countries To widespread Critical acclaim it exposed

the damaging environmental and social effects of structural adjustment policies and called for a thorough revision of the then current development policy This new work Structural Adjustment the Environment and sustainable Development is a major step forward in the study of structural adjustment policies It looks in detail at new research and analysis into their effects and incorporates recent studies by a wide range of academics and policy makers leading experts and institutes Focusing on nine in depth case studies the book examines the complex links between macroeconomic policies social impacts and environmental outcomes and takes a forward looking perspective in outlining the alternatives to current structural adjustment policies Review quotes for Structural Adjustment and the Environment Should be essential reading for all students of development Third World Planning Review Breaks new ground in the debate on structural adjustment generally and in the environment development debate International Affairs The most substantial contribution to date to what is undoubtedly an important area Development and Change David Reed is director of the Macroeconomics for Sustainable Development Programme of WWF International and editor of Structural Adjustment and the Environment Earthscan 1992 Originally published in 1996 Urban Growth and Land Degradation in Developing Cities Roy Maconachie, 2016-02-11 The peri urban interface in poor countries is frequently an area of great dynamism and a focus of competition for basic resources In Nigeria peri urban livelihood strategies have become an increasingly important survival mechanism in the context of rapid urban growth This book uses an innovative combination of methodologies from both the natural and social sciences to examine recent developments in and around the city of Kano in northern Nigeria and in doing so provides insights into the sustainability of these livelihood strategies Identifying some of the most significant forces that are currently shaping the process of peri urban change it argues that despite the adoption of creative and ingenious strategies by many farmers urban growth is having a considerable effect on the livelihood resilience of individuals households and communities The findings presented in this book have much wider relevance and are transferable to other burgeoning Third World cities where increased pressures on urban hinterlands have intensified contests amongst various actors made access to resources much more difficult and made traditional smallholder mechanisms of adaptation and resilience increasingly challenging

Political Ecology Paul Robbins, 2019-10-08 An accessible focused exploration of the field of political ecology The third edition of Political Ecology spans this sprawling field using grounded examples and careful readings of current literature While the study of political ecology is sometimes difficult to fathom owing to its breadth and diversity this resource simplifies the discussion by reducing the field down into a few core questions and arguments These points clearly demonstrate how critical theory can make pragmatic contributions to the fields of conservation development and environmental management The latest edition of this seminal work is also more closely focused with references to recent work from around the world Further Political Ecology raises critical questions about traditional approaches to environmental questions and problems This new edition Includes international work in the field coming out of Europe Latin America and Asia Explains political ecology

and its tendency to disrupt the environmental research and practice by both advancing and undermining associated fields of study Contains contributions from a wide range of diverse backgrounds and expertise Offers a resource that is written in highly accessible straightforward language Outlines the frontiers of the field and frames climate change and the end of population growth with the framework of political ecology An excellent resource for undergraduates and academics the third edition of Political Ecology offers an updated edition of the guide to this diverse quickly growing field that is at the heart of how humans shape the world and in turn are shaped by it

Assessment of Soil Nutrient Balance Rabindra N. Roy, Ram V. Misra, Jan Peter Lesschen, E. M. A. Smaling, Food and Agriculture Organization of the United Nations, 2003-01-01 Nutrient balance assessments are valuable tools for delineating the consequences of farming on soil fertility Various approaches and methods for different situations have been used in the past This bulletin presents a state of the art review of nutrient balance studies It brings out the evolution of the approaches and methods provides for comparisons among them features the improvements made and highlights remaining issues This analysis will be useful in further development of the assessment methodologies as reliable tools for devising time scale soil fertility management interventions
