**The Culture and Civilisation of Ancient India in Historical Outline** Kosambi D.D.,1994 *The Culture and Civilisation of Ancient India in Historical Outline* **Cultural Understanding of Soils** Nikola Patzel,Sabine Grunwald,Eric C. Brevik,Christian Feller,2023-09-22 Cultural understandings of soil are diverse and often ambiguous Cultural framing of soils is common worldwide and is highly consequential The implications of what place the earth has in people s world view and everyday life can be in line with or in conflict with natural conditions with scientific views or with agricultural practices The main assumption underlying this work is that soil is inescapably perceived in a cultural context by any human This gives emergence to different significant webs of meaning influenced by religious spiritual or secular myths and by a wide range of beliefs values and ideas that people hold in all societies These patterns and their dynamics inform the human soil relationship and how soils are cared for protected or degraded Therefore there is need to deal inter culturally with different sources and types of knowledge and experience regarding soil a need to cultivate soil awareness and situationally appropriate care through inter and intra cultural dialogues and learning This project focuses on the human and intangible dimensions of soil To serve this aim the International Union of Soil Sciences IUSS founded a working group on Cultural Patterns of Soil Understanding that has resulted in this book which presents studies from almost all continents written by soil scientists and experts from other disciplines A major objective of this project is to promote intercultural literacy that gives readers the opportunity to appreciate soil across disciplinary and cultural boundaries in an increasingly globalized world

*The Culture and Civilisation of Ancient India in Historical Outline* D D Kosambi,2022-09-01 First published in 1965 *The Culture and Civilisation of Ancient India in Historical Outline* is a strikingly original work the first real cultural history of India The main features of the Indian character are traced back into remote antiquity as the natural outgrowth of historical process Did the change from food gathering and the pastoral life to

agriculture make new religions necessary Why did the Indian cities vanish with hardly a trace and leave no memory Who were the Aryans if any Why should Buddhism Jainism and so many other sects of the same type come into being at one time and in the same region How could Buddhism spread over so large a part of Asia while dying out completely in the land of its origin What caused the rise and collapse of the Magadhan empire was the Gupta empire fundamentally different from its great predecessor or just one more oriental despotism These are some of the many questions handled with great insight yet in the simplest terms in this stimulating work This book will be of interest to students of history sociology archaeology anthropology cultural studies South Asian studies and ethnic studies      Science and Civilisation in China, Part 2, Agriculture Joseph Needham, Francesca Bray, 1984-04-19 This second part of the sixth volume of Joseph Needham's great enterprise is an account of the technological history of agriculture with major sections devoted to field systems implements and techniques sowing harvesting storing and crop systems what has grown and where and how crops rotated      **2030 - The Year Civilisation Will Die** Bill Butterworth, 2019-05-30 This book is not about global warming and whether it is taking place or not how fast it is and what effects it will have Nor is it about population growth Nor is it about running out of effective vaccines and antibiotics Those issues in isolation are covered in great depth by many other sources This book brings the three together considering the possibility of the triad becoming critical at the same time Experts disagree on exact dates but the most likely period this will happen to us is some time between 2030 and 2040 if we are lucky a little earlier if not If and when this three fold tipping point occurs there will only be a short period before a major collapse in global population a humanitarian disaster on a scale of unprecedented magnitude This book is not designed to scare or frighten the reader but to help them consider the true risk of this upcoming catastrophe Once understood it then details a powerful solution available to us with current technology the global Bio Active Carbon Sink
