Cookbook Politics Kennan Ferguson, 2020-05-29 An original and eclectic view of cookbooks as political acts Cookbooks are not political in conventional ways They neither proclaim as do manifestos nor do they forbid as do laws They do not command agreement as do arguments and their stipulations often lack specificity cook until browned Yet as repositories of human taste cookbooks transmit specific blends of flavor texture and nutrition across space and time Cookbooks both form and reflect who we are In Cookbook Politics Kennan Ferguson explores the sensual and political implications of these repositories demonstrating how they create nations establish ideologies shape international relations and structure communities Cookbook Politics argues that cookbooks highlight aspects of our lives we rarely recognize as political taste production domesticity collectivity and imagination and considers the ways in which cookbooks have or do politics from the most overt to the most subtle Cookbooks turn regional diversity into national unity as Pellegrino Artusi's Science in the Kitchen and the Art of Eating Well did for Italy in 1891 Politically affiliated organizations compile and sell cookbooks for example the early United Nations published The World's Favorite Recipes From the First Baptist Church of Midland Tennessee's community cookbook to Julia Child's Mastering the Art of French Cooking to the Italian Futurists proto fascist guide to food preparation Ferguson demonstrates how cookbooks mark desires and reveal social commitments your table becomes a representation of who you are Authoritative yet flexible collective yet individualized cooperative yet personal cookbooks invite participation editing and transformation Created to convey flavor and taste across generations communities and nations they enact the continuities and changes of social lives Their functioning in the name of creativity and preparation with readers happily consuming them in similar ways makes cookbooks an exemplary model for democratic politics

Immigration in America Today James Loucky, Jeanne M. Armstrong, Larry J. Estrada, 2006-08-30 America today is

witnessing the largest and most sustained wave of immigrants its borders have ever seen Although factors like the Great Depression World War II and quota restrictions had slowed the massive influx of Europeans from the early part of the 20th century policies like the 1965 Immigration and Nationality Act have relaxed quotas and opened America's doors to hundreds of thousands of immigrants a year from both Eastern and Western hemispheres to reach a height of over 9 million immigrants in the 1990s Today immigrants and policy makers alike grapple with issues regarding employment education refugee status and family reunification as well as illegal immigrants many from Mexico whose legal immigration alone accounts for more than 20% of immigrants in the US Despite this this comprehensive reference source allows a glimpse of the same motivating factors that drove earlier immigrants through Ellis Island's gates the promise of economic opportunity and the hope of a better life Over 70 A-Z entries address topical and timely aspects of modern US immigration including bilingual education domestic work employer sanctions gangs gender homeland security migrant education posttraumatic stress disorder stereotypes

The Seminole Freedmen Kevin Mulroy, 2016-01-18 Popularly known as Black Seminoles descendants of the Seminole freedmen of Indian Territory are a unique American cultural group Now Kevin Mulroy examines the long history of these people to show that this label denies them their rightful distinctiveness To correct misconceptions of the historical relationship between Africans and Seminole Indians he traces the emergence of Seminole black identity and community from their eighteenth century Florida origins to the present day Arguing that the Seminole freedmen are neither Seminoles Africans nor black Indians Mulroy proposes that they are maroon descendants who inhabit their own racial and cultural category which he calls Seminole maroon Mulroy plumbs the historical record to show clearly that although allied with the Seminoles these maroons formed independent and autonomous communities that dealt with European American society differently than either Indians or African Americans did Mulroy describes the freedmen's experiences as runaways from southern plantations slaves of American Indians participants in the Seminole Wars and emigrants to the West He then recounts their history during the Civil War Reconstruction enrollment and allotment under the Dawes Act and early Oklahoma statehood He also considers freedmen relations with Seminoles in Oklahoma during the twentieth and early twenty first centuries Although freedmen and Seminoles enjoy a partially shared past this book shows that the freedmen's history and culture are unique and entirely their own

Toussaint Louverture and the abolition question the policies of the major powers toward the revolution and its interaction with the early French Revolution are also addressed Questions about ethnicity identity and historical knowledge inform this essential study of a complex revolution *Colonialism and Resistance in Belize* O. Nigel Bolland, 2003 The social history of Belize is marked by conflict between British settlers and the Maya between masters and slaves between capitalists and workers and between the colonial administration and the Belizean people This collection of essays analyzes the most important topics during three centuries of colonialism Negotiating Economic Development Laurie Kroshus Medina, 2022-07-12 The citrus industry in Belize could be said to exist primarily to satisfy the needs of people in other countries A business that is highly dependent on global markets and the geopolitics of international trade it comprises some 500 farmers many hundreds of wage laborers and two processing companies that produce frozen juice concentrate for export This new study examines how those farmers laborers and companies define and pursue shared interests and how they respond differently to the impact of national development strategies and global economic and political forces Laurie Kroshus Medina analyzes the development of the citrus industry in Belize over fifteen years to explore the relationship between the production of collective identities and the negotiation of development policies at the interface of global and local processes She shows how citrus farmers and workers processing companies and politicians compete to construct shared identities how they mobilize collective actors and how their collective action shapes the goals policies and practices associated with development Taking an ethnographic approach Medina describes how the Belizean citrus industry responds to cycles of boom and bust and the implications of such cycles for workers and growers She offers a close look at the major actors workers union members small and large growers and politicians as they respond to global changes in the citrus industry Her analysis is made more compelling through an account of two open struggles in the industry over the formation of a rival union and the attempt to buy the processing company owned by the multinational corporation Nestl She also includes a discussion of the impact of NAFTA on the industry Medina's research demonstrates how collective agency in Belize has pushed the citrus industry's development in directions that simultaneously conform to and diverge from the trajectories laid out by foreign agencies Negotiating Economic Development provides a bridge from old to new studies of Latin American social movements as it offers key insights into competing forms of identity for a wide range of social scientists concerned with the human and social aspects of development issues and globalization **Global Tourism** Sarah M. Lyon, E. Christian Wells, 2012-03-15 Global tourism is perhaps the largest scale movement of goods services and people in history Consequently it is a significant catalyst for economic development and sociopolitical change While tourism increasingly accounts for ever greater segments of national economies the consequences of this growth for intercultural interaction are diverse and uncertain The proliferation of tourists also challenges classic theoretical descriptions of just what an economy is What are the commodities being consumed What is the division of labor between producers and clients in creating the value of tourist exchanges How do

culture power and history shape these interactions What are the prospects for sustainable tourism How is cultural heritage being shaped by tourists around the world These critical questions inspired this volume in which the contributors explore the connections among economy sustainability heritage and identity that tourism and related processes makes explicit The volume moves beyond the limits of place specific discussions case studies and best practice examples Accordingly it is organized according to three overarching themes exploring dimensions of cultural heritage the multi faceted impacts of tourism on both hosts and guests and the nature of touristic encounters Based on ethnographic and archaeological research conducted in distinct locations the contributors conclusions and theoretical arguments reach far beyond the limits of isolated case studies Together they contribute to a new synthesis for the anthropology of tourism while simultaneously demonstrating how emerging theories of the economics of tourism can lead to the rethinking of traditionally non touristic enterprises from farming to medical occupations

Nations Unbound Linda Basch,Nina Glick Schiller,Christina Szanton Blanc,2005-09-26 Nations Unbound is a pioneering study of an increasing trend in migration transnationalism Immigrants are no longer rooted in one location By building transnational social networks economic alliances and political ideologies they are able to cross the geographic and cultural boundaries of both their countries of origin and of settlement Through ethnographic studies of immigrant populations the authors demonstrate that transnationalism is something other than expanded nationalism By placing immigrants in a limbo between settler and visitor transnationalism challenges the concepts of citizenship and of nationhood itself

Hemispheric Blackness and the Exigencies of Accountability Jennifer Gomez Menjivar,Hector Nicolas Ramos
Flores,2022-12-20 *Hemispheric Blackness and the Exigencies of Accountability* examines the way Afrodescendant and Black communities use the land on which they live the rule of law and their bodies to assert their historical ontological and physical presence across South Central and North America Their demand for the recognition of ancestral lands responsive policies and human rights sheds new light on their permanent yet tenuous presence throughout the region The authors argue that by deploying a discourse of transcontinental historical continuity Black communities assert their presence in local national and international political spheres This conceptualization of hemispheric Blackness is the driving force confronting the historical loss dismissal and disparagement of Black lives across the Americas Through twelve case studies that cover a wide range of locations their work examines contemporary manifestations of sovereignty of Black body and mind Black Indigenous nexuses and national revisions that challenge more than a quincentennial of denial and state unaccountability in the hemisphere
