**Drafting Italy** Marco Rovinello, 2023-05-23 This is the first comprehensive history of conscription and the military in Italy from the Restoration to the eve of WWI The comparative and transnational approach enables this work to compare and contrast the Italian experience with that of many other countries in the world as well as understand transfers and the adaptive and imitative processes that emerge when conscription and the military are viewed from an Italian perspective Peacetime and wartime recruitment military life culture justice and civil military relationships are analysed using a wide range of sources and an interdisciplinary approach that combines top down and bottom up perspectives This enables the book not only to assess the contribution the military has made to the country in terms of state building nation building modernization pedagogical and disciplinary models gender identity and roles but also to reconsider the standard taxonomies as well as some established evolutionary models of the armies Moreover the Italian military is seen as an internally complex world that is incapable of defining its own one dimensional identity or of imposing any such identity on its members Consequently it is an element in the history of a country that is substantially the same as any other such element and thus

important in people's collective and individual lives whether or not they are in uniform Rather than being an object of study in and of itself the military becomes a vantage point from which to observe the Italian history in the long 19th century Therefore this book can be profitably read by professional military historians and non specialist readers interested in the military as well as by all scholars working on Italian pre and post unification political institutional socio economic cultural and gender history
