**Professional Soldier** Morris Janowitz, 2017-07-18 This book identifies three issues that confront civil-military relations to this day: how to judge the political consequences of military conduct; how to solve problems of international relations while using less force; and how to strengthen civilian control of the military while preserving professional military autonomy.

*Four Stars of Valor* Phil Nordyke, 2010-11-12 Hailing from the big cities and small towns of America, these young men came together to serve their country and the greater good. They were the 505th Parachute Infantry Regiment of the 82nd Airborne Division, the All-Americans. Phil Nordyke, their official historian, draws on interviews with surviving veterans and oral history recordings as well as official archives and unpublished written accounts from more than three hundred veterans of the 505th PIR and their supporting units. This is history as it was lived by the men of the 505th from their prewar coming of age in the regiment through the end of World War II when they marched in the Victory Parade up Fifth Avenue in New York to the postwar legacy of having been part of an elite parachute regiment with a record unsurpassed in the annals of combat.

*Advance and Destroy* John Nelson Rickard, 2011-10-28 In the winter of 1944-1945, Hitler sought to divide Allied forces in the heavily forested Ardennes region of Luxembourg and Belgium. He deployed more than 400,000 troops in one of the last major German offensives of the war, which became known as the Battle of the Bulge, in a desperate attempt to regain the strategic initiative in the West. Hitler's effort failed for a variety of reasons, but many historians assert that Lieutenant General George S. Patton Jr.'s Third Army was ultimately responsible for securing Allied victory. Although Patton has assumed a larger-than-life reputation for his leadership in the years since World War II, scholars have paid little attention to his generalship in the Ardennes following the relief of Bastogne. In *Advance and Destroy*, Captain John Nelson Rickard explores

the commander's operational performance during the entire Ardennes campaign through his estimate of the situation the U S Army's doctrinal approach to problem solving Patton's day by day situational understanding of the Battle of the Bulge as revealed through ULTRA intelligence and the influence of the other Allied generals on his decision making gives readers an in depth critical analysis of Patton's overall effectiveness measured in terms of mission accomplishment his ability to gain and hold ground and a cost benefit analysis of his operations relative to the lives of his soldiers The work not only debunks myths about one of America's most controversial generals but provides new insights into his renowned military skill and colorful personality

**The Regulars** Edward M. Coffman, 2009-07-01 In 1898 the American Regular Army was a small frontier constabulary engaged in skirmishes with Indians and protesting workers 43 years later it was a large modern army ready to wage war against the Germans and the Japanese In this social history of America's standing army a military historian tells how that transformation was accomplished

**Operation Market Garden: Case Study For Analyzing Senior Leader Responsibilities** Lt.-Col. Elizabeth A. Coble, 2015-11-06 With German forces on the run following the Allied success at Normandy and the breakout and pursuit across France Allied forces were staged to enter Germany in late summer 1944 Both Field Marshal Montgomery and General Bradley clamored to be given the priority of effort General Eisenhower chose Montgomery's Operation MARKET GARDEN as the plan for action It called for airborne forces to open the route for a ground force to move more than sixty miles up a single road ending up north of the Rhine River near Arnhem Netherlands By accomplishing this task the German Ruhr industrial heartland would be within easy grasp But the operation failed The ground force did not make it to the last bridge it was six more months before Allied forces crossed the Lower Rhine River near Arnhem Between 17 and 26 September 1944 there were 17 000 Allied casualties including eighty percent of the 1st Airborne Division UK Did senior Allied leaders do enough to resolve issues raised before the operation began Should it even have been conducted at all This paper uses primary sources including diaries memoirs and autobiographies and unit reports to examine what role senior leaders played in the failure of the operation

*Beyond the Battlefield* Sam C. Sarkesian, 2013-10-22 Beyond the Battlefield The New Military Professionalism presents the nature and character of military professionalism This book describes the increasing tendency for the military to view professionalism mainly in terms of military skills Organized into five parts encompassing 13 chapters this book begins with an overview of the various concepts and definitions of military professionalism This text then reexamines military professionalism in the post Vietnam era with regard to perspectives on value convergence and empathy between military and society Other chapters consider the changes in the international security environment and the complexity of national security policy This book discusses as well the demands on the profession as a result of the changed security environment The final chapter deals with the essential factors that establish the military mindset and world view as well as determine the quality of civil military relations This book is a valuable resource for military professionals and sociologists

*Corps Commanders of the Bulge* Harold R.

Winton,2016-07-10 If the Battle of the Bulge was Germany's last gasp it was also America's proving ground the largest single action fought by the U S Army in World War II Taking a new approach to an old story Harold Winton widens our field of vision by showing how victory in this legendary campaign was built upon the remarkable resurrection of our truncated interwar army an overhaul that produced the effective commanders crucial to GI success in beating back the Ardennes counteroffensive launched by Hitler's forces Winton's is the first study of the Bulge to examine leadership at the largely neglected level of corps command Focusing on the decisions and actions of six Army corps commanders Leonard Gerow Troy Middleton Matthew Ridgway John Millikin Manton Eddy and J Lawton Collins he recreates their role in this epic struggle through a mosaic of narratives that take the commanders from the pre war training grounds of America to the crucible of war in the icy cold killing fields of Belgium and Luxembourg Winton introduces the story of each phase of the Bulge with a theater level overview of the major decisions and events that shaped the corps battles and for the first time fully integrates the crucial role of airpower into our understanding of how events unfolded on the ground Unlike most accounts of the Ardennes that chronicle only the periods of German and American initiative Winton's study describes an intervening middle phase in which the initiative was fiercely contested by both sides and the outcome uncertain His inclusion of the principal American and German commanders adds yet another valuable layer to this rich tapestry of narrative and analysis Ultimately Winton argues that the flexibility of the corps structure and the competence of the men who commanded the six American corps that fought in the Bulge contributed significantly to the ultimate victory Chronicling the human drama of commanding large numbers of soldiers in battle he has produced an artful blend of combat narrative collective biography and institutional history that contributes significantly to the broader understanding of World War II as a whole With the recent modularization of the U S Army division which makes this command echelon a re creation of the corps of World War II Corps Commanders of the Bulge also has distinct relevance to current issues of Army transformation *D-Day, 1944* Theodore A. Wilson,1994 Readers may be astonished at how much scholarly digging and the release of once secret information have transformed the history of this campaign At times it seems like a whole new war New York Times Book Review [The Imjin and Kapyong Battles](#) S.P. MacKenzie,2013-03-12 An excellent history of a massive Communist offensive and the brigades that resisted it H War The sacrifice of the British regiment known as the Glorious Glosters in defense of the Imjin River line and the hilltop fights of Australian and Canadian battalions in the Kapyong Valley have achieved great renown Using official and unofficial source material ranging from personal interviews to war diaries this in depth study the first of its kind seeks to disentangle the mythology surrounding both battles and explain why events unfolded as they did Based on thorough familiarity with all available sources many not previously utilized it sheds new light on fighting the forgotten war In Korea on the night of 22nd April 1951 communist forces unleashed what remains to this day their greatest offensive since Zhukov's storm on Berlin In the desperate fighting that followed the key flanks of free world forces were held by one British and one Commonwealth

brigade The former took on a Chinese army the latter a Chinese division Six decades later an American historian has dismantled the barriers between Australian British Canadian and New Zealand accounts of those whirlwind days to compose the only comparative analysis of the tragedy on the Imjin and the stand at Kapyong Andrew Salmon author of *Scorched Earth Black Snow Britain and Australia in the Korean War 1950* **American Military History** Maurice Matloff, 1973 **Old Glory Stories** Cole Kingseed, 2013-11-15 Saying that no generation of Americans has produced a finer array of combat commanders than that of World War II a thirty year army veteran examines combat leadership throughout the war at every level of command in the U S Army The author argues that although Army chief of staff George C Marshall s organization and training policies were indispensable the ultimate victory was the result of spirited leadership and the undaunted courage of those who served from individual riflemen to the upper echelons of army command Rather than a history of battles and campaigns this book is an analysis of leadership in combat over three continents and across two oceans It looks at how soldiers react in war how sergeants lieutenants captains and generals direct soldiers in the most intense of all human dramas The first part focuses on the generals and takes a thematic approach examining such topics as restoring the fighting spirit and analyzing the unique characteristics required to command special units in combat The second part examines a special breed of junior leaders who fought the German and Japanese armies on the front lines and whose contributions merit attention Like war correspondent Ernie Pyle Kingseed includes both the big and the little to offer a balanced view of what makes a good combat leader *Dogface Soldier* Wilson A. Heefner, 2010-05-05 On July 11 1943 General Lucian Truscott received the Army s second highest decoration the Distinguished Service Cross for valor in action in Sicily During his career he also received the Army Distinguished Service Medal with Oak Leaf Cluster the Navy Distinguished Service Medal the Legion of Merit and the Purple Heart Truscott was one of the most significant of all U S Army generals in World War II pioneering new combat training methods including the famous Truscott Trot and excelling as a combat commander turning the Third Infantry Division into one of the finest divisions in the U S Army He was instrumental in winning many of the most important battles of the war participating in the invasions of North Africa Sicily Anzio and southern France Truscott was not only respected by his peers and dogfaces common soldiers alike but also ranked by President Eisenhower as second only to Patton whose command he took over on October 8 1945 and led until April 1946 Yet no definitive history of his life has been compiled Wilson Heefner corrects that with the first authoritative biography of this distinguished American military leader Heefner has undertaken impressive research in primary sources as well as interviews with family members and former associates to shed new light on this overlooked hero He presents Truscott as a soldier who was shaped by his upbringing civilian and military education family life friendships and evolving experiences as a commander both in and out of combat Heefner s brisk narrative explores Truscott s career through his three decades in the Army and defines his roles in key operations It also examines Truscott s postwar role as military governor of Bavaria particularly in improving living conditions

for Jewish displaced persons removing Nazis from civil government and assisting in the trials of German war criminals And it offers the first comprehensive examination of his subsequent career in the Central Intelligence Agency where he served as senior CIA representative in West Germany during the early days of the Cold War and later as CIA Director Allen Dulles s deputy director for coordination in Washington Dogface Soldier is a portrait of a man who earned a reputation for being honest forthright fearless and aggressive both as a military officer and in his personal life a man who at the dedication ceremony for the Anzio Nettuno American cemetery in 1945 turned away from the crowd and to the thousands of crosses stretching before him to address those buried there Heefner has written a definitive biography of a great soldier and patriot

**Fearing the Worst** Samuel F. Wells Jr.,2019-11-26 After World War II the escalating tensions of the Cold War shaped the international system Fearing the Worst explains how the Korean War fundamentally changed postwar competition between the United States and the Soviet Union into a militarized confrontation that would last decades Samuel F Wells Jr examines how military and political events interacted to escalate the conflict Decisions made by the Truman administration in the first six months of the Korean War drove both superpowers to intensify their defense buildup American leaders feared the worst case scenario that Stalin was prepared to start World War III and raced to build up strategic arms resulting in a struggle they did not seek out or intend Their decisions stemmed from incomplete interpretations of Soviet and Chinese goals especially the belief that China was a Kremlin puppet Yet Stalin Mao and Kim Il sung all had their own agendas about which the United States lacked reliable intelligence Drawing on newly available documents and memoirs including previously restricted archives in Russia China and North Korea Wells analyzes the key decision points that changed the course of the war He also provides vivid profiles of the central actors as well as important but lesser known figures Bringing together studies of military policy and diplomacy with the roles of technology intelligence and domestic politics in each of the principal nations Fearing the Worst offers a new account of the Korean War and its lasting legacy *Soldiers and Statesmen* John S.
