Soldiers Of Year II:

Report of the Secretary of War, which Accompanied the Annual Message of the President of the United States, to Both Houses of the ... Congress, 1892 **War, Revolution, and the Bureaucratic State : Politics and Army Administration in France, 1791-1799** Howard G. Brown, 1995-08-03 This book examines a period of particular importance in the formation of the modern French state The revolutionary strife and international war of the 1790s had important and far reaching consequences for the development of democracy and bureaucracy in France Howard G Brown s study of changes in army administration in this period sheds light on the dynamic relationship between the spread of political participation the rationalization of public power and the build up of military might Dr Brown shows how the exigencies of war and the vagaries of revolutionary politics wrought rapid and profound changes in the structures and personnel of army administration Although loath to see a massive military bureaucracy take root legislators found that their desire to combine civilian control with military effectiveness made a large central administration unavoidable **Annual Report of the Secretary of War** United States. War Department, 1887 *The Soldier's Reward* Jennifer Ngaire Heuer, 2024-12-03 A sweeping history of intimacy and family life in France during the age of revolution The French Revolution and Napoleonic Wars devastated Europe for nearly a quarter of a century The Soldier s Reward recovers the stories of soldiers and their relationships to family and domestic life during this period revealing how prolonged warfare transformed family and gender dynamics and gave rise to new kinds of citizenship In this groundbreaking work combining social cultural gender and military history Jennifer Ngaire Heuer vividly describes how men fought for years with only fleeting moments of peace Combatants were promised promotion financial gain and patriotic glory They were also rewarded for their service by being allowed to return home to waiting families and love interests and with marriages that were arranged and financially supported by the state Heuer explores competing ideas of masculinity in France as well as the experiences of the men and women who participated in such marriages She argues that we cannot fully understand the changing nature of war and peace in this period without considering the important roles played by family gender and romantic entanglements Casting new light on a turbulent era of mass mobilization and seemingly endless conflict The Soldier s Reward shows how from the Revolution through the Restoration war intimacy and citizenship intersected in France in new and unexpected ways **The Army of the French Revolution** Jean Paul Bertaud, 2019-02-19 Jean Paul Bertaud is the leading French authority on the army of the French Revolution and *La Revolution armee* is the authoritative treatment of the first great national patriotic revolutionary and mass army engaged in what has been called the first total war that between revolutionary France and the other European powers The book is a successful attempt to integrate military history with social and political history and thereby to depict the army as a school for the republic that by subtle changes after 1795 made way for the Napoleonic regime The distinguished historian R R Palmer presents the first translation of this work into English in a volume that will quickly become

indispensable for French historians historical sociologists and political scientists interested in armies and revolutions The theme of the book is suggested by its French title the Revolution armed That is the book is primarily about the Revolution and specifically the Revolution in its relation to armed force This revolution and this army activated the idea of the citizen soldier exemplified by the ancient classical republics and favored by Jean Jacques Rousseau and other eighteenth century thinkers but never before realized on so large and portentous a scale as in France in the 1790s Jean Paul Bertaud is Professor of Modern History at the University of Paris I the Sorbonne He has published widely in France on aspects of the French Revolution R R Palmer is Professor Emeritus at Yale University and author of numerous books including the two volume The Age of the Democratic Revolution 1959 and 1964 Twelve Who Ruled 1941 and The Improvement of Humanity Education and the French Revolution 1985 all published by Princeton University Press He has translated many works from the French most recently The Two Tocquevilles Father and Son Herve and Alexis de Tocqueville on the Coming of the French Revolution Princeton 1987 Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Robert E. Robertson (au), 2006-06 **The Soldiers of the French Revolution** Alan I. Forrest, 1990 In this work Alan Forrest brings together some of the recent research on the Revolutionary army that has been undertaken on both sides of the Atlantic by younger historians many of whom look to the influential work of Braudel for a model Forrest places the armies of the Revolution in a broader social and political context by presenting the effects of war and militarization on French society and government in the Revolutionary period Revolutionary idealists thought of the French soldier as a willing volunteer sacrificing himself for the principles of the Revolution Forrest examines the convergence of these ideals with the ordinary and often dreadful experience of protracted warfare that the soldier endured

bourgeois state assumed are presented as the results of processes of social and cultural formation and thus irreducible to a simple function of capitalism This approach culminates in the thesis that the bourgeois form of capitalist state power arose only where capitalist societies developed out of already rationalised structures of the Ancien R gime type **Army, Navy, Air Force Journal & Register** ,1948 Register of the University of California University of California, Berkeley,1921

Nationalizing France's Army Christopher J. Tozzi,2016-05-30 Before the French Revolution tens of thousands of foreigners served in France s army They included troops from not only all parts of Europe but also places as far away as Madagascar West Africa and New York City Beginning in 1789 the French revolutionaries driven by a new political ideology that placed the nation at the center of sovereignty began aggressively purging the army of men they did not consider French even if those troops supported the new regime Such efforts proved much more difficult than the revolutionaries anticipated however owing to both their need for soldiers as France waged war against much of the rest of Europe and the difficulty of defining nationality cleanly at the dawn of the modern era Napoleon later faced the same conundrums as he vacillated between policies favoring and rejecting foreigners from his army It was not until the Bourbon Restoration when the modern French Foreign Legion appeared that the French state established an enduring policy on the place of foreigners within its armed forces By telling the story of France s noncitizen soldiers who included men born abroad as well as Jews and blacks whose citizenship rights were subject to contestation Christopher Tozzi sheds new light on the roots of revolutionary France s inability to integrate its national community despite the inclusionary promise of French republicanism Drawing on a range of original unpublished archival sources Tozzi also highlights the linguistic religious cultural and racial differences that France s experiments with noncitizen soldiers introduced to eighteenth and nineteenth century French society Winner of the Walker Cowen Memorial Prize for an Outstanding Work of Scholarship in Eighteenth Century Studies Annual Reports of the War Department United States.
