Soldiers Politics In Southeast Asia:

The Political Resurgence of the Military in Southeast Asia Marcus Mietzner, 2012-11-12 In the late 1990s prominent scholars of civil military relations detected a decline in the political significance of the armed forces across Southeast Asia. A decade later however this trend seems to have been reversed. The Thai military launched a coup in 2006, the Philippine armed forces expanded their political privileges under the Arroyo presidency and the Burmese junta successfully engineered pseudo democratic elections in 2010. This book discusses the political resurgence of the military in Southeast Asia throughout the 2000s. Written by distinguished experts on military affairs, the individual chapters explore developments in Burma, Thailand, the Philippines, Vietnam, East Timor, Indonesia and Singapore. They not only assess but also offer explanations for the level of military involvement in politics in each country. Consequently, the book also makes a significant contribution to the comparative debate about militaries in politics. Whilst conditions obviously differ from country to country, most authors in this book conclude that the shape of civil military relations is not predetermined by historic economic or cultural factors but is often the result of intra-civilian conflicts and divisive or ineffective political leadership.

Soldiers and Politics in Southeast Asia J. Stephen Hoadley, 2017-09-05 By exploring the role of military officers and chronicling the sequences of events, *Soldiers and Politics in Southeast Asia* offers insight into the conditions that fostered military governments specifically in Thailand, Burma, South Vietnam, Indonesia and Cambodia. Critically comparing these case studies and statistics, this volume provides readers with a deeper understanding of the causes and consequences of military involvement in the region's politics during the post-colonial period covered. Two ideologically opposed positions evolved around the phenomenon of military insurgency. Technological conservatism generally favors military insurgency in previously civilian-led governments. There was a presumption that it encourages stability, efficiency and anti-communism. The revisionist position on the other hand was highly critical of technological conservatism, especially with regard to its political fervor. J. Stephen Hoadley asserts that the relevant question is not one of ideological choices; rather, it is whether a military or civilian-led government is better suited for the political and economic development of a particular underdeveloped nation. Hoadley argues that there is little difference between military and civilian-led governments in their abilities to establish stability and maintain law. The book concludes that neither conservative nor radical views are fully correct as to the effects of military-led governments on development. *Soldiers and Politics in Southeast Asia* focuses exclusively on civil military politics in Southeast Asia in a critical period for the region and it should be read by all individuals interested in Southeast Asian politics and development long after Cold War issues have come to a close.

Military Politics and Democratization in Indonesia Jun Honna, 2013-01-11 The military have had a key role to play in Indonesia's recent history and may well have a decisive role to play in her future This book looks at the role of the military in the downfall of Suharto and their ongoing influence on the succeeding governments of B J Habibie and Abdurrahman Wahid The author also examines such key features as human rights reconciliation civic military discourse and ongoing security dilemmas The book is unique in providing the best overview of the role of the military in the world's fourth most populous nation

Military Politics, Islam, and the State in Indonesia Marcus Mietzner, 2009 Based on a decade of research in Indonesia this book provides an in depth account of the military's struggle to adapt to the new democratic system after the downfall of Suharto's authoritarian regime in 1998 Unlike other studies of the Indonesian armed forces which focus exclusively on internal military developments Mietzner's study emphasizes the importance of conflicts among civilians in determining the extent of military involvement in political affairs Analysing disputes between Indonesia's main Muslim groups Mietzner argues that their intense rivalry between 1998 and 2004 allowed the military to extend its engagement in politics and protect its institutional interests The stabilization of the civilian polity after 2004 in contrast has led to an increasing marginalization of the armed forces from the power centre Drawing broader conclusions from these events for Indonesia's ongoing process of democratic consolidation the book shows that the future role of the armed forces in politics will largely depend on the ability of civilian

leaders to maintain functioning democratic institutions and procedures System And Process In Southeast Asia Donald G McCloud, 2019-06-26 Southeast Asia although not garnering the headlines of ten to twenty years ago is important in global politics Vietnam's domination of Indochina for example has polarized the region given the Soviet Union new regional access and magnified the military threat to Thailand Insurgency movements supported by the radical Left or Right continue to plague governments The Strait of Malacca the major sea lane through Southeast Asia provides primary access for the U S Pacific fleet to the Indian Ocean and the Middle East and is Japan's oil lifeline U S commercial and military interests remain strong in the Philippines and are expanding in Indonesia the world's fifth largest country with a population approaching 170 million people whereas Thailand Malaysia and Singapore are sources for investment raw materials and potential markets Thailand once closely allied with the United States has again renewed those ties in the face of Vietnam's expansion This comprehensive up to date textbook analyzes Southeast Asia in the context of regional and global political systems both traditional and contemporary After looking at the traditional patterns of interstate relations in the region Professor McCloud shows that Southeast Asia has been and continues to be dependent on the global system However he also identifies a neotraditional current in contemporary Southeast Asian politics as elements of traditional beliefs and values reassert themselves in policy and practice redefine the patterns of interstate behavior in the region and set the limits to dependence on the global system The book is intended as a primary text for courses on the history or politics of Asia or Southeast Asia regional development and integration and the role of Southeast Asia in world politics It will also be useful in survey courses in Asian studies comparative politics and Third World development The Political Dilemmas of Military Regimes Christopher Clapham, George Philip, 2021-05-11 First published in 1985 The Political Dilemmas of Military Regimes was written against the backdrop of the increased prominence of military intervention in the political process during this century The book puts forward the argument that the basic problem for military regimes is not how they gain power but what they can do with it once they have it It discusses the enormous range of cultural and historical circumstances that military organisations are derived from and how widely they vary in their structure politics and social composition The book also highlights the dilemma of choosing between institutionalisation and demilitarisation as one that all military regimes must eventually face The Political Dilemmas of Military Regimes is an in depth study that draws on global material and experiences from throughout the century Soldiers and Politics in Southeast Asia J. Stephen Hoadley, 1975 Military Politics of the Contemporary Arab World Philippe Droz-Vincent, 2020-10-29 Aside from large scale civic mobilisations no force was more critical to the outcomes of the 2011 Arab uprisings than the armed forces Nearly a decade after these events we see militaries across the region in power once again performing critical roles in state politics Taking as a point of reference five case studies where uprisings took place in 2011 Tunisia Egypt Libya Yemen and Syria Philippe Droz Vincent explores how these armies were able to install themselves for decades under enduring authoritarian regimes how armies reacted to

the 2011 Uprisings and what role they played in the post Uprising regime re formations or collapses Devoting a chapter to monarchical armies with a special focus on Saudi Arabia and the UAE Droz Vincent addresses whether monarchies radically differ from republics to compare the foundational role of Arab armies in state building in the Arab world and beyond **The Politics of Military Reform** Jürgen Rüland, Maria-Gabriela Manea, Hans Born, 2012-09-03 This volume seeks to explain why democratization and military reforms stagnate in newly democratizing countries The contributions blend historical ideational cultural and structural explanatory factors to analyze the trajectories of military reform in Indonesia and Nigeria two major regional powers that share many structural commonalities In the tradition of the literature on security sector reform SSR the book not only scrutinizes executive initiatives toward military reform but also provides ample coverage of societal actors Findings show that while military reform is stagnating in both countries societal forces ought to be taken into account more as major driving forces in explaining military reform Several chapters study how legislatures non governmental organizations and the civilian defence epistemic community contribute to the transformation of military institutions The last part of the book tackles another aspect rarely studied in the literature on military reform namely the role of militias in military reform

Soldiers of Democracy? Sharan Grewal, 2023-07-04 Why do some militaries support and others thwart transitions to democracy After the Arab Spring revolutions why did Egypt's military stage a coup to end the transition Conversely why did Tunisia's military initially support the transition only to later facilitate the elected president's dismantling of democracy In **Soldiers of Democracy Military Legacies and the Arab Spring** Sharan Grewal argues that a military's behavior under democracy is shaped by how it had been treated under autocracy Autocrats who had empowered their militaries produce soldiers who will repress protests and stage coups to preserve their privileges Meanwhile autocrats who had marginalized their militaries produce soldiers who support democratization but who are also more susceptible to incumbent takeovers and civil wars The dictator's choice to either empower or marginalize the military thus creates legacies that shape both the likelihood of democratization and the forms by which it breaks down Drawing on over 140 interviews with civilian and military leaders and three surveys of military personnel this scholarly volume illustrates this theory through detailed case studies of Egypt and Tunisia Grewal also probes the generalizability of the theory through a cross national analysis of all countries between 1946 2010 Overall he brings the military front and center to the study of democratic transition and consolidation
