**The Solid Form of Language** Robert Bringhurst, 2004 Drop a word in the ocean of meaning and concentric ripples form To define a single word means to try to catch those ripples No one's hands are fast enough With this concise and broadly informative essay renowned poet typographer and linguist Robert Bringhurst presents a brief history of writing and a new way of classifying and understanding the relationship between script and meaning Beginning with the original relationship between a language and its written script Bringhurst takes us on a history of reading and writing that begins with the interpretation of animal tracks and fast forwards up to the typographical abundance of more recent times The first four sections of the essay describe the earliest creation of scripts their movement across the globe and the typographic developments within and across languages In the fifth and final section of the essay Bringhurst introduces his system of classifying scripts Placing four established categories of written language semographic syllabic alphabetic and prosodic on a wheel adjacent to one another he uses the location size and shape of points on the wheel to show the degree to which individual world languages incorporate these aspects of recorded meaning Bringhurst's system is based on an appreciation that indeed no one's hands are fast enough and that no single script adheres to or can be understood within the confines of a single method of transcription Readers will find this combination of anthropology typography literature mathematics music and linguistics surprisingly accessible and thought provoking The text is accompanied by diagrams and typographic examples that make for an experiential study of the relationship between writing and meaning This book is a Smyth sewn paperback with a letterpress printed jacket The book was designed by Robert Bringhurst and Andrew Steeves and printed on Zephyr Laid paper The cover was hand printed letterpress on St Armand handmade paper

**Saussure's Philosophy of Language as Phenomenology** Beata Stawarska, 2015-01-15 This book draws on recent developments in research on Ferdinand de Saussure's general linguistics to challenge the structuralist

doctrine associated with the posthumous Course in General Linguistics 1916 and to develop a new philosophical interpretation of Saussure's conception of language based solely on authentic source materials. This project follows two new editorial paradigms: 1 a critical re-examination of the 1916 Course in light of the relevant sources and 2 a reclamation of the historically authentic materials from Saussure's Nachlass, some of them recently discovered. In Stawarska's book, this editorial paradigm shift serves to expose the difficulties surrounding the official Saussurean doctrine with its sets of oppositional pairings: the signifier and the signified, *la langue* and *la parole*, synchrony and diachrony. The book therefore puts pressure not only on the validity of the posthumous editorial redaction of Saussure's course in general linguistics in the Course but also on its structuralist and post-structuralist legacy within the works of Levi Strauss, Lacan and Derrida. Its constructive contribution consists in reclaiming the writings from Saussure's Nachlass in the service of a linguistic phenomenology which intersects individual expression in the present with historically sedimented social conventions. Stawarska develops such a conception of language by engaging Saussure's own reflections with relevant writings by Hegel, Husserl, Roman Jakobson and Merleau-Ponty. Finally, she enriches her philosophical critique with a detailed historical account of the material and institutional processes that led to the ghostwriting and legitimizing of the Course as official Saussurean doctrine.

**An American Dictionary of the English Language** Noah Webster, 1841      **Routledge Revivals: Essays on Style and Language (1966)** Roger Fowler, 2017-11-22. First published in 1966, this book is contributed to by authors who share an interest in the literary uses of language. The book gives a close analysis of the language of literature contributed to by critics and linguists examining linguistic theory and poetry, and as part of this, the rhythm and metre of English poetry is deconstructed. Language and its emotive structure is analysed while the middle chapters of the book address the interaction of linguistic dimensions. Two medievalist scholars conclude the volume giving a well-rounded examination to the broad and complex study of literary style in the English language. This book is suitable for students and scholars concerned with English literature and linguistics.

**Ward and Lock's standard derivative dictionary of the English language** Ward, Lock and Co, Ltd, 1881      **A concise dictionary of the English language (based on Ogilvie's Imperial dictionary)**. Charles Annandale, 1892      [A new dictionary of the French and English languages compiled from the dictionaries of the French Academy, Bescherelle, Littré, Beaujean, Bourguignon, etc., etc., and from the most recent works on arts and sciences](#) Ebenezer Clifton, Adrien Grimaux, 1889      *A Dictionary of the English Language* Noah Webster, 1832      *The Bulletin of Pharmacy*, 1893      *Bulletin of Pharmacy*, 1893      *Man, Language and Society* S. K. Ghosh, 2019-01-14. No detailed description available for *Man, Language and Society*      *Insistent Images* Elżbieta Tabakowska, Christina Ljungberg, Olga Fischer, 2007-01-01. *Insistent Images* presents a number of new departures dealing with iconicity on the conceptual and the structural levels. On the level of structure, the interface between different aspects of iconicity, lexical meaning and grammar is discussed in reference to both spoken and signed languages. Novel approaches to aural iconicity investigate a wide range of phenomena from

phonological iconicity to the role of iconic features in discourse in the nineteenth century practice of reading aloud in the almost magic incantations of fin de siècle poetry and in Tolkien's invented languages. Several papers examine the function of iconicity in visual and avant garde poetry where iconic features allow a reduction of means which paradoxically generates textual diversification and complexity. A discussion of iconic text strategies shows how texts are comprehended through iconic holistic transfer from complex natural and action patterns. Libertexture which integrates text, image and physical space is another novel area of study as are the investigations into the iconic properties of film and of multimedia performance. Film is intrinsically iconic while at the same time being like photography. Indexical in multimedia performance on the other hand, iconicity functions intermedially by both integrating and reflecting processes of perception and conceptualization. These last two new fields of inquiry further enhance this truly interdisciplinary volume's explorations of icons as insistent images.
