Here, There and Everywhere Geoff Emerick,Howard Massey,2006-03-16 An all access firsthand account of the life and music of one of history s most beloved bands from an original mastering engineer at Abbey Road Geoff Emerick became an assistant engineer at the legendary Abbey Road Studios in 1962 at age fifteen and was present as a new band called the Beatles recorded their first songs He later worked with the Beatles as they recorded their singles She Loves You and I Want to Hold Your Hand the songs that would propel them to international superstardom In 1964 he would witness the transformation of this young and playful group from Liverpool into professional polished musicians as they put to tape classic songs such as Eight Days A Week and I Feel Fine Then in 1966 at age nineteen Geoff Emerick became the Beatles chief engineer the man responsible for their distinctive sound as they recorded the classic album Revolver in which they pioneered innovative recording techniques that changed the course of rock history Emerick would also engineer the monumental Sgt Pepper and Abbey Road albums considered by many the greatest rock recordings of all time In *Here There and Everywhere* he reveals the creative process of the band in the studio and describes how he achieved the sounds on their most famous songs Emerick also brings to light the personal dynamics of the band from the relentless and increasingly mean spirited competition between Lennon and McCartney to the infighting and frustration that eventually brought a bitter end to the greatest rock band the world has ever known **Catalog of Copyright Entries** ,1946 [Encyclopedia of Great Popular](#)

Evelyn Glennie: Sound Creator Georgina Hughes, 2024-09-24 A case study of a pioneering musician and an interdisciplinary appraisal of the larger social role of the artist Dame Evelyn Glennie b 1965 is the world's first full time solo multi percussionist a sound creator and expert listener whose work continues to expand and diversify the remit of the contemporary performer in the twenty first century This book presents the first comprehensive study of Glennie's contribution to the evolution of an eclectic experimental and fascinating instrumental discipline which wilfully eludes standardization Glennie's sound journey also resonates in contexts extending beyond the discipline of music She is a prominent female role model an entrepreneur a business and brand a philanthropist and a profoundly deaf performer who has reframed discourse on what it means to truly listen This book is both a case study of one

pioneering musician and an interdisciplinary appraisal of the larger social role of the artist An important reference source for percussionists it is also intended to serve as a means of allowing the interested reader to engage with a medium that has become the heartbeat of contemporary culture *A Comparison of the Clarinet Concertos of Isang Yun and John Corigliano* Kelvin Tod Kerstetter, 1995 **Collected Works** Whitney Balliett, 2002-04-15 Jazz critic for The New Yorker since 1957 and the author of some fifteen books Whitney Balliett has spent a lifetime listening to and writing about jazz All first rate criticism he once wrote in a review first defines what we are confronting He could as easily have been describing his own work For nearly half a century Balliett has been telling us in his widely acclaimed pitch perfect prose what we are confronting when we listen to America s greatest and perhaps only original musical form *Collected Works A Journal of Jazz 1954 2001* is a monumental achievement capturing the full range and register of the jazz scene from the very first Newport Jazz Festival to recent performances in clubs and on CDs by a rising generation of musicians Here are definitive portraits of such major figures as Duke Ellington Dizzy Gillespie Django Reinhardt Martha Raye Buddy Rich Charles Mingus Louis Armstrong Billie Holliday Art Tatum Bessie Smith and Earl Hines a list that barely scratches the surface Generations of readers have learned to listen to the music with Balliett s graceful guidance For five decades he has captured those moments during which jazz history is made Though Balliett s knowledge is an encyclopedic treasure he has always written as if he were listening for the first time Since its beginnings in New Orleans at the turn of the century jazz has been restlessly and relentlessly evolving This is an art form based on improvising experimenting shapeshifting a constant work in progress of sounds and tonal shades from swing and Dixieland through boogie woogie bebop and hard bop to the new thing free jazz abstract jazz and atonal jazz Yet in all its forms the music is forever sustained by what Balliett calls a secret emotional center an aural elixir that reveals itself when an improvised phrase or an entire solo or even a complete number catches you by surprise Balliett s celebrated essays invariably capture the so called sound of surprise and then share this sound with general readers music students jazz lovers and popular American culture buffs everywhere As The Los Angeles Times Book Review has observed Few people can write as well about anything as Balliett writes about jazz
