Ann, 2020-03-23 Shelter is a true story about the experiences and changes of a woman who as a child was abandoned by both parents Through her poetry and prose it tells how later in life working to help homeless animals helps bring to surface her own hidden pain from long ago It reveals how the denials of our heart appear to shield us from hurt but in reality rob us of our full potential to find love and joy first from within then spreading out into our own lives and those around us

Yellowstone Cougars Toni K. Ruth, Polly C. Buotte, Maurice G. Hornocker, 2019-09-23 Yellowstone Cougars examines the effect of wolf restoration on the cougar population in Yellowstone National Park one of the largest national parks in the American West No other study has ever specifically addressed the theoretical and practical aspects of competition between large carnivores in North America The authors provide a thorough analysis of cougar ecology how they interact with and are influenced by wolves their main competitor and how this knowledge informs management and conservation of both species across the West Of practical importance Yellowstone Cougars addresses the management and conservation of multiple carnivores in increasingly human dominated landscapes The authors move beyond a single species approach to cougar management and conservation to one that considers multiple species which was impossible to untangle before wolf reestablishment in the Yellowstone area provided biologists with this research opportunity Yellowstone Cougars provides objective scientific data at the forefront of understanding cougars and large carnivore community structure and management issues in the Greater Yellowstone Ecosystem as well as in other areas where wolves and cougars are reestablishing Intended for an audience of scientists wildlife managers conservationists and academics the book also sets a theoretical precedent for writing about competition between carnivorous mammals *Summer's Day 1950 and Other Life Stories* Robert
