Abolala Soudavar, 2015-08-19 A major aspect of Zoroastrianism is how they discredited existing Iranian deities and reused them in an expanded pantheon of gods subordinated to Ahura Mazd Their most difficult task was to find ways to reintegrate Apam Nap_t Apam Naph_t a deity who was perceived as the main rival to Ahura Mazd and the one who was initially branded as daeva The subtle ways by which they achieved this is a testimony to their mastery in the art of sophistry at a level seldom seen in the history of religions **Navigation Dictionary** United States. SASANIAN CONTROVERSIES Abolala Soudavar, 2018-09-10 The monotheistic ideology that Darius imposed on the nascent Achaemenid state resulted in a religious revolution with far reaching effects as it reverberated on two different levels At the top level the imposition of an omnipotent abstract god Ahura Mazda created a sharp reaction that led to the general massacre of the opposition termed as Magophonia by Herodotus Several centuries of doctrinal development led to Zoroastrianism a religion marked by the art of compromise and virulent rhetoric While the Zoroastrian influence on Abrahamic religions has mainly been investigated in respect to borrowed concepts such as Paradise or Day of Judgment its influence on the art of compromise and rhetoric has been neglected So has been the influence of its underground opposition organized as brotherhood The underground opposition affected early Christianity while the Iranian clergy influenced the Judaic priesthood Together they ended up affecting Islam
