Sunbelt/snowbelt Larry Sawers, William K. Tabb, 1984 **Sunbelt/snowbelt. urban development and regional restructuring conference, 1981, washington** Larry Sawers, William K. Tabb, 1984 *Snowbelt Cities* Richard M. Bernard, 1990 A major contribution to the literature on changing US regionalism the volume is handsomely produced and thoroughly documented Choice useful and well researched American Politics Review This is an excellent book for use in the course on comparative urban development It is a book that should be read by any urbanist who believes that a historical orientation is the best prelude for understanding the future of urban development into the 21st century Urban Studies Specialists in urban history and urban affairs join forces to compare the recent political histories of twelve major northeastern and midwestern cities These excellent essays delineate intricate patterns of political competition among leaders of competing groups who generally agree on a pro business pro growth agenda as in the Sunbelt The relative power of nonbusiness groups however sets these northern cities apart from those of the Sunbelt and has formed the basis of the Snowbelt's postwar politics Postmodern Geographies Edward W. Soja, 1989 Written by one of America's foremost geographers Postmodern Geographies contests the tendency still dominant in most social science to reduce human geography to a reflective mirror or as Marx called it an unnecessary complication Beginning with a powerful critique of historicism and its constraining effects on the geographical imagination Edward Soja builds on the work of Foucault Berger Giddens Berman Jameson and above all Henri Lefebvre to argue for a historical and geographical materialism a radical rethinking of the dialectics of space time and social being Soja charts the respatialization of social theory from the still unfolding encounter between Western Marxism and modern geography through the current debates on the emergence of a postfordist regime of flexible accumulation The postmodern geography of Los Angeles exposed in a provocative pair of essays serves as a model in his account of the contemporary struggle for control over the social production of space *Global Shift, Sixth Edition* Peter Dicken, 2011-02-25 Widely adopted throughout the world this definitive text comprehensively examines how the global economy works and its effects on people and places Peter Dicken provides a balanced yet critical analysis of globalization processes and debates The text synthesizes a wealth of data on production distribution consumption and innovation including detailed case studies of key global industries Students learn how the global economic map is being shaped and reshaped by dynamic interactions among transnational corporations states consumers labor and civil society organizations Useful features include nearly 250 quick reference figures and tables The companion website offers PowerPoint slides of the figures and tables additional case studies and questions annotated Web links and more New to This Edition Revised throughout to incorporate the latest ideas in the field gives increased attention to global production networks as a major organizing principle Addresses the current global financial crisis Chapter on environmental impacts of global production networks Case study chapter on the extractive industries Fully updated empirical data additional maps and charts
