The Discourse Of Fantasy Theoretical And Fictional Perspectives:

The Discourse of Fantasy Yuan Yuan, 1995 **Discourse, Desire, and Fantasy in Jurgen Habermas' Critical Theory** Kenneth MacKendrick, 2008-03-25 This book argues that Jurgen Habermas critical theory can be productively developed by incorporating a wider understanding of fantasy and imagination as part of its conception of communicative rationality and communicative pathologies Given that meaning is generated both linguistically and performatively MacKendrick argues that desire and fantasy must be taken into consideration as constitutive aspects of intersubjective relations His aim is to show that Habermasian social theory might plausibly renew its increasingly severed ties with the early critical theory of the Frankfurt School by taking account of these features of practice life thus simultaneously rekindling the relevance of the nearly forgotten emancipatory intent in his earlier work and rejuvenating an emphasis on the contemporary critique of reason This innovative new study will be of interest to those focusing on the early writings of Habermas the writings of the Frankfurt School and the relation between critical theory hermeneutics and psychoanalysis

Visions of the Fantastic Allienne R. Becker, 1996-12-30 This exciting collection of essays explores the fantastic in world literature art theater film and popular culture Highlights include artwork by Edward Carlos and the essay Staging the Phantasmagorical The Theatrical Challenges and Rewards of William Butler Yeats by internationally acclaimed Yeats scholar James W Flannery Readers will be delighted by the wit of British author Brian Aldiss in his essay If Hamlet's Uncle Had Been a Nicer Guy From new insights into the connections between Dracula and Frankenstein to a discussion of the Internet the lively volume offers a diverse look at fantasy and science fiction

The Greenwood Guide to American Popular Culture: Editorial cartoons through Illustration M. Thomas Inge, Dennis Hall, 2002 Queering Faith in Fantasy Literature Taylor Driggers, 2022-01-13 Fantasy literature inhabits the realms of the orthodox and heterodox the divine and demonic simultaneously making it uniquely positioned to imaginatively re envision Christian theology from a position of difference Having an affinity for the monstrous and the other and a preoccupation with desires and forms of embodiment that subvert dominant understandings of reality fantasy texts hold hitherto unexplored potential for articulating queer and feminist religious perspectives Focusing primarily on fantastic literature of the mid to late twentieth century this book examines how Christian theology in the genre is dismantled re imagined and transformed from the margins of gender and sexuality Aligning fantasy with Derrida's theories of deconstruction Taylor Driggers explores how the genre can re figure God as the other excluded and erased from theology Through careful readings of C S Lewis's Till We Have Faces Angela Carter's The Passion of New Eve and Ursula K Le Guin's The Left Hand of Darkness and the Earthsea novels Driggers contends that fantasy can challenge cis normative heterosexual and patriarchal theology Also engaging with the theories of Hélène Cixous Luce Irigaray Marcella Althaus Reid and Linn Marie Tonstad this book demonstrates that whilst fantasy cannot save Christianity from itself nor rehabilitate it for marginalised subjects it confronts theology with its silenced others in a way that bypasses institutional debates on inclusion

and leadership asking how theology might be imagined otherwise *The Postnational Fantasy* Masood Ashraf Raja, Jason W. Ellis, Swaralipi Nandi, 2014-01-10 In twelve critical and interdisciplinary essays this text examines the relationship between the fantastic in novels movies and video games and real world debates about nationalism globalization and cosmopolitanism Topics covered include science fiction and postcolonialism issues of ethnicity nation and transnational discourse Altogether these essays chart a new discursive space where postcolonial theory and science fiction and fantasy studies work cooperatively to expand our understanding of the fantastic while simultaneously expanding the scope of postcolonial discussions **Worlds So Strange and Diverse** Grzegorz Trębicki, 2015-02-05 This book represents an analysis of contemporary fantasy non mimetic literature in all its richness and diversity and offers a preliminary definition of the major fields of taxonomical interest in addition to marking some of the unmapped territories of fantastic fiction In its first part the book presents an overview of all major previous theoretical discussions of the issue particularly those by Tzvetan Todorov Rosemary Jackson Darko Suvin Brian Attebery Marek Oziwicz and Farah Mendlesohn The second part of the book provides an interesting comprehensive taxonomy of its own based on the notion of supragenological types of literature first introduced by Andrzej Zgorzelski **The Oxford Handbook of Science Fiction** Rob Latham, 2014-09-01 The excitement of possible futures found in science fiction has long fired the human imagination but the genre's acceptance by academe is relatively recent No longer marginalized and fighting for respectability science fictional works are now studied alongside more traditional art forms Tracing the capacious genre's birth evolution and impact across nations time periods subgenres and media The Oxford Handbook of Science Fiction offers an in depth comprehensive assessment of this robust area of scholarly inquiry and considers the future directions that will dictate the terms of the scholarly discourse The Handbook begins with a focus on questions of genre covering topics such as critical history keywords narrative the fantastic and fandom A subsequent section on media engages with film television comics architecture music video games and more The genre's role in the convergence of art and everyday life animates a third section which addresses topics such as UFOs **Liminality in Fantastic Fiction** Sandor Klapcsik, 2012-01-09 This critical work diversifies Victor Turner's concept of liminality a basic category of postmodernism in which distinct categories and hierarchies are questioned and limits erode Liminality involves an oscillation between cultural institutions genre conventions narrative perspectives and thematic binary oppositions Grounded on this notion the text investigates the liminality in Agatha Christie's detective fiction Neil Gaiman's fantasy stories and Stanislaw Lem's and Philip K Dick's science fiction Through an examination of destabilized norms this analysis demonstrates that liminality is a key element in the changing trends of fantastic texts **Fictionality, Factuality, and Reflexivity Across Discourses and Media** Erika Fülöp, 2021-06-08 Concerned with the nature of the medium and the borders between fact and fiction reflexivity was a ubiquitous feature of modernist and postmodernist literature and film While in the wake of the post postmodern return to the real cultural criticism has little time for discussions of reflexivity it

remains a key topic in narratology as does fictionality. The latter is commonly defined in opposition to the real and the factual but remains conditioned by historical, cultural, discursive and medium-related factors. Reflexivity blurs the boundaries between fact and fiction, however, by giving fiction a factual edge or by questioning the limits of factuality in non-fictional discourses. Fictionality, factuality and reflexivity thus constitute a complex triangle of concepts yet they are rarely considered together. This volume fills this gap by exploring the intricacies of their interactions and interdependence in philosophy, literature, film and digital media, providing insights into a broad range of their manifestations from the ancient times to today, from East Asia through Europe to the Americas.
