The Dismantling Of Time In Contemporary Poetry:

The Dismantling of Time in Contemporary Poetry Richard Jackson, 1988 *American Studies* Jack Salzman, 1990-05-25 This volume supplements the acclaimed three volume set published in 1986 and consists of an annotated listing of American Studies monographs published between 1984 and 1988 There are more than 6 000 descriptive entries in a wide range of categories anthropology and folklore art and architecture history literature music political science popular culture psychology religion science and technology and sociology **Poet's Prose** Stephen Fredman, 1990-11-30 Poet's Prose is devoted exclusively to American prose poetry and has been recognised as a pioneering study in contemporary American poetry Jacques Derrida (Routledge Revivals) William Schultz, Lewis L.B. Fried, 2016-06-17 First published in 1992 this book represents the first major attempt to compile a bibliography of Derrida's work and scholarship about his work It attempts to be comprehensive rather than selective listing primary and secondary works from the year of Derrida's Master's thesis in 1954 up until 1991 and is extensively annotated It arranges under article type a huge number of works from scholars across numerous fields reflecting the interdisciplinary and controversial nature of Deconstruction The substantial introduction and annotations also make this bibliography in part a critical guide and as such will make a highly useful reference tool for those studying his philosophy *Literatures of Memory* Peter Middleton, Tim Woods, 2000 Not only do drama and poetry about the past and historical novels reveal a shared understanding of pivotal moments historical figures and every life of earlier times say Middleton English U of Southampton and Woods English U of Wales Aberystwyth they also outline more general beliefs about the past and its relation to the present It is **Time: A Bibliographic Guide** Samuel L. Macey, 2018-10-10 Originally published in 1991 A multidisciplinary guide in the form of a bibliography of selected time related books and articles divided into 25 existing academic disciplines and about 100 subdisciplines which have a wide application to time studies Wallace Stevens And The Apocalyptic Mode Malcolm Woodland, 2009-11 Wallace Stevens and the Apocalyptic Mode focuses on Stevens's doubled stance toward the apocalyptic past his simultaneous use of and resistance to apocalyptic language two contradictory forces that have generated two dominant and incompatible interpretations of his work The book explores the often paradoxical roles of apocalyptic and antiapocalyptic rhetoric in modernist and postmodernist poetry and theory particularly as these emerge in the poetry of Stevens and Jorie Graham This study begins with an examination of the textual and generic issues surrounding apocalypse culminating in the idea of apocalyptic language as a form of discursive mastery over the mayhem of events Woodland provides an informative religious historical discussion of apocalypse and engaging with such critics as Parker Derrida and Fowler sets forth the paradoxes and complexities that eventually challenge any clear dualities between apocalyptic and antiapocalyptic thinking Woodland then examines some of Stevens's wartime essays and poems and describes Stevens's efforts to salvage a sense of self and poetic vitality in a time of war as well as his resistance to the possibility of cultural collapse Woodland discusses the major postwar

poems *Credences of Summer* and *The Auroras of Autumn* in separate chapters examining the interaction of anti apocalyptic modes with respectively pastoral and elegy The final chapter offers a perspective on Stevens s place in literary history by examining the work of a contemporary poet Jorie Graham whose poetry quotes from Stevens s oeuvre and shows other marks of his influence Woodland focuses on Graham s 1997 collection *The Errancy* and shows that her antiapocalyptic poetry involves a very different attitude toward the possibility of a radical break with a particular cultural or aesthetic stance Wallace Stevens and the Apocalyptic Mode offering a new understanding of Stevens s position in literary history will greatly interest literary scholars and students

The Time Dimension T K. Das, 1990-04-17 This is the first comprehensive bibliography of temporal scholarship research on the subject of time and the phenomenon of time itself As the author notes in his introduction the nature of research insights on the subject of time is difficult to comprehend within the confines of any specific discipline since relevant materials are scattered throughout the literature in numerous scholarly fields By bringing together the most significant published works in a wide variety of disciplines this unique compendium enables scholars and researchers to look beyond their own particular area of expertise when selecting appropriate resource materials Throughout the focus is on the time dimension itself as a problematic or researchable phenomenon rather than on narrow topics such as time management time series analysis or forecasting Organized by discipline the work begins with an initial chapter that lists general works on the time dimension Nineteen chapters then list works in particular disciplines ranging from anthropology and culture to biology economics futures studies history linguistics management studies psychology and more The final chapter lists miscellaneous entries which could not be categorized into any of the specific disciplinary headings Within each chapter entries are arranged alphabetically by author or editor Nearly all sources are from scholarly journals and books

Fireflies David P. Owen, Jr., 2017-08-24 *Fireflies* is a book about how writing poetry can help us explore memory and identity and it is also a book of poetry that explores memory and identity This work is an example of the liminal scholarship advocated in *The Need for Revision* 2011 by the same author occupying a space in the academic world s windows and doorways not exactly in any one field but rather in the spaces between where the inside and outside commingle it seeks to trouble the boundaries between teacher and writer critic and artist writer and reader and teacher and student in a way from which all parties might benefit *Fireflies* aims for a different kind of scholarship and hopes to offer new ways for teachers to be professional and academic The second section of the book is a full length poetry text the author s own exploration of the notions that people who teach writing should also be writers and that poetry is more something you do than something you are The book says we should write poems not because of some inborn gift for it but because the act of writing poetry is good for us and helps us understand ourselves better it is a book written in the hopes that other books will be written Maybe by you David Owen has taken his understanding of currere the root of curriculum to a new level with his demonstration of the value of reading and writing poetry He argues that writing poetry develops an attitude of adventure into everydayness As his

first chapter Songs of Ourselves suggests we all can be Whitman s if we take up our pens to celebrate what lives around us as well as in us Owen demonstrates this theory with a calendar of poems he wrote that share small frozen moments of the seasons of a year Connecting his memories with forays into night skies and fireflies and the fractals that God makes David Owen s poetic images suggest that our deep connection with Earth can be recovered if we let a little more oak in the voice of our words Mary Aswell Doll author of The Mythopoetics of Currere
