The Drawings Of David Smith:

The Drawings of David Smith Trinkett Clark, 1985 *David Smith* David Smith, Paul Cummings, 1979 *David Smith* Karen Wilkin, David Smith, Edmonton Art Gallery, 1981 **David Smith** David Smith, 1982 David Smith David Smith, Hannelore Kersting, Rachel Kirby, 1987 David Smith is judged to be the most important pioneer of a separate American movement in sculpture He was the first to introduce welded steel an artistic medium discovered in Europe into twentieth century sculpture In his work he consciously adopted elements of Surrealism Cubism and Constructivism movements familiar to him from a stay in Europe in 1935 In the 1950s he in turn affected the development of European welded steel sculpture influencing such artists as Paolozzi Luginbuhl Tinguely Chillida Caro and Kricke Until he turned to sculpture in the 1930s Smith considered himself a painter and his drawings are among the finest products of American draughtsmanship BOOK JACKET *David Smith, Drawing + Sculpting* Steven A. Nash, Candida N. Smith, David Smith, 2005 David Smith is arguably the most important American sculptor of the twentieth century From his early development out of Surrealist and Cubist influences to the towering structures he made late in life Smith created a new language in iron and steel that embraced both symbolic figuration and pure abstraction Forty years after his death in 1965 the body of work he created still astonishes in its variety technical mastery and creative energy So powerful is Smith s legacy as a sculptor however that other highly important aspects of his art remain relatively neglected Such is the case with the thousands of drawings Smith produced throughout his artistic life David Smith Drawing Sculpting breaks new ground by focusing on his drawings and investigating specifically the important interactive role they played with his sculptures It illustrates many works drawn from the extensive holdings of the artist s estate that have never been exhibited previously and it contains the most thorough compendium published to date of David Smith s writings and statements on drawing Smith himself stressed repeatedly the connection in his work between drawing and sculpture noting that all of his art flowed from one continuous evolving stream with no separate provision for two dimensional versus three dimensional expression Drawings tended to link to sculptures not in linear developmental sequences or one to one relationships but more often as clusters or constellations of graphic themes and notations exploring ideas forms and motifs that also circulated through his sculptures David Smith Drawing Sculpting illuminates this fundamental principle in his art *David Smith* Peter Stevens, 2005 *David Smith* Arts Council of Great Britain, David Smith, 1980 **David Smith, Nudes** David Smith, M. Knoedler & Co, 1990 **David Smith** David Smith, 1959
