Ormerod,Shane Clifton,2011-10-27 Various social political economic and cultural commentators are presently arguing that human history is reaching a decisive stage in its development a stage marked by increased interconnection between peoples the compression of space and time a sharing of

ideas at unprecedented levels global trade and finance and so on The shorthand word used to encompass these phenomena is globalization Some embrace it others reject it while still others dispute its existence But with the abundance of literature and debate that it generates the topic cannot be ignored From its inception in the missionary mandate of Jesus Matthew 28 Christianity has had a global dimension to its mission Christianity is not a spectator to globalization but one of its agents one of the forces at work which have extended interconnection between peoples shared ideas and promoted social political and cultural links The purpose of the present work is not to provide a complete response to the question of the mission of the church in a globalizing world but to establish a framework within which answers may be sought Grounded in the writings of Bernard Lonergan and Robert Doran it develops a theology of history and addresses the churches response to the impact of globalization on vital social cultural personal and religious values The project brings together the perspectives of Catholicism and Pentecostalism the former providing a depth of wisdom and tradition the latter drawing on the insight of a newly emerging movement that has taken root in every continent with remarkable energy and enthusiasm NFB Kids Brian J. Low,2006-01-01 Imagine a society that exists solely in cinema this book explores exactly that Using a half century of films from the archival collection of the National Film Board NFB Kids Portrayals of Children by the National Film Board of Canada 1939 1989 overcomes a long standing impasse about what films may be credibly said to document Here they document not reality but social images preserved over time the NFB Society an evolving cinematic representation of Canadian families schools and communities During the postwar era this society in cinema underwent a profound change in its child rearing and schooling philosophies embracing modern notions based upon principles espoused by the American mental hygiene movement Soon after the introduction of these psychological principles into NFB homes in 1946 and schools in 1956 there was a subtle transformation in adult child relations which progressively over time narrowed the gulf of power between generations and diminished the socializing roles of the NFB parents and teachers NFB Kids is a pioneering study within a new field of academic research cinema ethnography It adds to the growing body of knowledge about the function and the considerable impact of psychiatry and psychology in the post war social reconstruction of Canadian society and social history It will be of interest to academics over a broad spectrum of disciplines and to anyone thinking about the advancing arbitrary power of the cinematic state **Are My Kids on Track?** Sissy MEd Goff, LPC-MHSP,David LMSW Thomas,Melissa MRE Trevathan,2017-02-14 Tools for Identifying and Developing Spiritual Social and Emotional Growth From birth to adulthood our children s physical and intellectual development is carefully tracked and charted But what about their hearts After all how our children develop emotionally socially and spiritually will determine who they become as husbands and wives fathers and mothers friends and co workers Are My Kids on Track helps you identify and measure 12 key emotional social and spiritual milestones in your children s lives Moreover you will discover practical ways to guide your kids through any stumbling blocks they might encounter and help them reach the appropriate landmarks Along the way the authors pinpoint

Education Is Discipleship: So Who's Really Discipling Your Kids? Dr. Christy Anderson,2016-06-05 This book demonstrates how and why biblical discipleship has been abandoned by a significant majority of Christian parents and church leaders A catastrophic failure to fulfill the Great Commission to make disciples who can effectively pass on the Good News sound doctrine and a biblical worldview to future generations is the result The adoption of secular philosophies of education age segregation the creation of adolescence the formation of youth ministry the adoption of a teen subculture and a fundamental rejection of practical aspects of the doctrine of sola Scriptura are at the heart of the problem Warnings from Christians who wrote on this topic over the past 150 years have now become a manifest reality with devastating results The only way to overcome this discipleship cataclysm is to go back to a biblical philosophy of education both in the home and in the church
