

THE GRAMMAR OF FAITH

The Grammar Of Faith

Joe R. Jones

The Grammar Of Faith:

The Grammar of Faith Paul L. Holmer, 1978 One of the steady voices in today's cacophonous theological world here proposes that there is a logical and a grammar of faith the rules of which theologians must adhere to our risk being unworthy of the name The Grammar of Faith discloses that theology is not a succession of rival intellectual positions or new knowledge unavailable to the ordinary believer but a way to organize and understand faith itself Many of today's theologies the author points out attempt to state the meaning of faith But the meaning of faith is ever elusive not statable in other schemes of language It has to be earned and achieved in its original forms What then is theology's central task According to Dr Holmer theology must stand in Vigilance against faddism It must never allow the needs of the eternal To speculate on the meaning of faith is to vitiate its language But in the New Testament Christian liturgy and the ways of obeying God and being faithful to him are the very means by which the language of faith regains its essence and vitality This is or should be theology's natural home Far from dubiously examining the centuries have held dear theologians must give dignity to the ordinary believer's doubts and beliefs Theology has no privileged access to either doubt or faith The state of all of us is to wrestle with the same mighty matters and the grammar that is theology is the grammar of our lives The Grammar of Faith calls for a grasp that does not substitute for piety or belief does not foreshorten understanding or grace but gives one access to them It offers a way to discern among the many voices of theological inquiry clamoring for our attention And it reaffirms the very foundation of theology itself the overwhelming vision of God's power intersecting and forever transforming the life of the individual believer

A Grammar of Christian Faith Joe R. Jones, 2002-06-03 A Grammar of Christian Faith is a two volume set that aims to confront the widespread disarray in the language and practices of Christian faith today As a grammar it explains how Christian faith provides special ways of speaking and acting that make sense of human life by giving it meaning practicality and hope It advances the thesis that learning how to speak Christian language in worship and life is crucial to learning how to be a Christian Rather than supposing that Christian language and theology need continual updating in order to be relevant to the world Jones urges the church to recover anew how Christian concepts and understanding are intended to form Christian life in all its rich depths Construing theology as confessional theology in the context of the church Jones understands the church as that liberative and redemptive community called into being by the Gospel of Jesus Christ to witness in word and deed the triune God for the benefit of the world The full range of doctrinal themes that are deemed essential to the witness of the church are explored including clear explanations of why they are essential and how they are to be understood In pursuit of a truthful and beneficial witness of the church the work centers on a trinitarian understanding of God in which God freely and lovingly interacts with the world as Creator Reconciler and Redeemer The work throughout affirms the belief that the gracious triune God is the Ultimate Companion who will redeem all creation

A Grammar of Christian Faith Joe R. Jones, 2002 Volume II of A Grammar of Christian Faith aims to confront the widespread disarray in

the language and practices of Christian faith today As a grammar it explains how Christian faith provides special ways of speaking and acting that make sense of human life by giving it meaning practicality and hope Postliberal Theology: A Guide for the Perplexed Ronald T. Michener, 2013-02-14 Postliberal theology is a movement in contemporary theology that rejects both the Enlightenment appeal to a universal rationality and the liberal assumption of an immediate religious experience common to all humanity The movement initially began in the 1980 s with its association to Yale Divinity School Theologians such as Hans Frei Paul Holmer David Kelsey and George Lindbeck were influential and were significantly influenced by theologians such as Karl Barth Clifford Geertz and Ludwig Wittgenstein Postliberalism uses a narrative approach to theology such as developed by Hans Frei and argues that all thought and experience is historically and socially mediated Michener provide the reader with an accessible introductory overview of the origins current thought potential problems and future possibilities of postliberal theology The basic philosophical and theological background are be briefly discussed along with the seminal and predominant theologians identified with the movement Michener shows how postliberalism emerges from the context of the postmodern critique of Enlightenment rationalism and empiricism Postliberal theology is extremely critical of classical liberal theology rather than an advancement of its agenda **Faith, Reason, and History** Robert Campbell Roberts, 1986 *Faith After Foundationalism* D. Z. Phillips, 2018-02-02 Such is the clarity of its exposition and interest of its argument that it can be recommended to those seeking an introduction to recent work in epistemology The interest of the book however is greater than that For the discussion of foundationalism and of recent reactions to it is subtly interwoven into a discussion of recent and not so recent philosophy of religion Colin Lyas Philosophy

Thinking with Kierkegaard and Wittgenstein Richard Griffith Rollefson, 2014-10-20 Paul L Holmer influenced the development of the so called Yale School and several generations of students by seeing common logical and ethico religious themes in the works of Soren Kierkegaard and Ludwig Wittgenstein Holmer is perhaps the preeminent interpreter of Kierkegaard with his analysis of the logic of Kierkegaard s truth as subjectivity and the morphology of the life of Christian belief In his polemical and constructive work *The Grammar of Faith* Holmer explored the significance of the later philosophy of Ludwig Wittgenstein for theology and proposed a critical alternative to contemporary academic theology In his *C S Lewis The Shape of His Life and Thought Making Christian Sense* and various essays now compiled in *The Paul L Holmer papers* Holmer s reassessment of the traditional concepts of virtues and vices his recognition of the importance of Christian praxis in providing the context for theological and ethical reflection together with his emphasis on the role of emotions and passions in the life of faith portray how the Christian faith forms character and helps one make sense with one s life *Eccentricity in Anthropology* Stephen R. Milford, 2019-06-07 *Eccentricity in Anthropology* brings into conversation a constructive critical interpretation of David Kelsey s *Eccentric Existence* with a central yet often overlooked debate in theological anthropology the substantive relational imago Dei Milford s work explores new insights into human identity and dignity In particular he

demonstrates the value of an alternate constructive of humanity in the image of God This construction utilizes an interpretation of Kelsey s anthropological formula so as to describe human identity as part of the created order in terms of its myriad features which are externally rooted Eccentricity in Anthropology demonstrates that an alternate approach to this debate is possible and that one can combine important aspects of both substantive and relational thinking As such Milford s work is an important contribution to studies in the doctrine of the imago Dei Taking Eccentric Existence s invitation to act as a springboard for further debate seriously it presents one possible fruitful use of Kelsey s work to address theological anthropological questions In a very real sense this book is both a discussion in systematic theology and at the same time a work in contemporary historical theology **Malum** Ingolf U. Dalferth,2022-05-31 The incursion of evil has always caused people to turn to the divine to gods or to a god in order to reorientate their life Ingolf U Dalferth studies the complexity of this procedure in three thought processes that deal with the central concepts in the Christian understanding of malum as privation a lack of good as evil doing and as a lack of faith In doing so he provides a detailed discussion of theories of theodicy the argument from freedom and the religious turn to God in which the author explores the traces of the discovery of God s goodness justness and love in connection with the malum experiences in ancient mythology and biblical traditions

The Christian Faith Michael Horton,2011-01-04 Theology the study of God is a concern for every believer not just theologians or those in ministry It s the goal of good theology to humble us before the triune God of majesty as we come to understand him better This is a book of and about good theology Award winning author theologian and professor Michael Horton wrote *The Christian Faith* as a book of systematic theology and doctrine that can be preached experienced and lived as well as understood clarified and articulated It s written for a growing cast of pilgrims in ministry and laity who are interested in learning about Christ as a way of living as a Christian Who understand that knowing doctrine and walking in practical Christianity are not competing interests *The Christian Faith* is divided into six parts five of which each focus on an aspect of God while the first part sets up an understanding and appreciation for the task of theology itself addressing topics like The source of theology where the idea of theology comes from and what its limits are The origin of the canon how the modern Bible came about and why we can trust it The character of theology is the nature of theology practical theoretical or can it be both In a manner equally as welcoming to professors pastors students and armchair theologians Horton has organized this volume in a readable fashion that includes a variety of learning features A brief synopsis of biblical passages that inform certain doctrines Surveys of past and current theologies with contemporary emphasis on exegetical philosophical practical and theological questions Substantial interaction with various Christian movements within the Protestant Catholic and Orthodoxy traditions as well as the hermeneutical issues raised by postmodernity Charts sidebars questions for discussion and an extensive bibliography divided into different entry levels and topics At the heart of this book is a deep love for and curiosity about God Its basic argument is that a personal relationship with God goes hand in hand with the pursuit of

theology It isn't possible to know God without studying him **Daring Faith** Randy Harris, Greg R. Taylor, 2016-06-14 Discover the daring faith you are called to live out Randy Harris and Greg Taylor lead you through the pages of the Gospel of John to inspire daring faith in Jesus The Gospel of John was written so people would believe the unbelievable This unbelievable story John tells is that God became man and lived among us These claims got Jesus killed And ever since people who believe the claim still lose their lives If you believe that Jesus is truly God you believe the most daring idea of all time Daring faith will cost your life But along with the risk comes the great reward of becoming children of God Are you ready for daring faith **Grammars of Faith** P. F. Bloemendaal, 2006 D Z Phillips is a leading figure in advocating a Wittgensteinian approach to the philosophical study of religion His writings exert an important influence on contemporary philosophy of religion giving a new direction to the philosophical discussion of religious belief and practice Although his work has prompted much often critical comment a thorough investigation has not been forthcoming Grammars of Faith fills that gap The book pays close attention to Wittgenstein's own remarks on religious belief arranging them against the background of his broader philosophical methodology as well as to the efforts of the early Wittgensteinians at providing a more comprehensive Wittgensteinian philosophy of religion Central to this study are Phillips's understanding of philosophical enquiry as a form of contemplation and his descriptive accounts of religious belief By means of a careful and methodical examination of Phillips's oeuvre the study seeks to present a fair assessment of Phillips's position showing not only its weaknesses but also its strength Routledge Library Editions: 19th Century Religion Various Authors, 2021-07-09 Reissuing works originally published between 1973 and 1997 Routledge Library Editions 19th Century Religion 18 volumes offers a selection of scholarship covering historical developments in religious thinking Topics include the origin of Catholicism in America sexual liberation and religion in Europe and the emergence of Atheism in Victorian England This set also includes collections of sermons and essays from some of the most influential preachers of the nineteenth century John Henry Newman Michael E. Allsopp, Ronald R. Burke, 2018-12-12 This collection of papers grew out of a concern of several at Creighton University for the perduring nature of the thought of John Henry Cardinal Newman Although Cardinal Newman died some one hundred years ago his influence on today's thinking is still strong Like Sir Thomas More with his Utopia Newman put forward an ideal of society and life which has a recognizable relation to the lasting possibilities open to humankind First published in 1992 Routledge is an imprint of Taylor Francis an informa company *Faith and Reason in the Reformations* Terence J. Kleven, 2021-12-06 The five hundredth anniversary of the Protestant Reformation reawakened a long standing and spirited conversation between philosophic science and religious faith a conversation which continues to have consequences on how we understand both science and faith This book brings scholars together to reflect on the topic of the Protestant Reformation as well as the Roman Catholic Counter Reformation the nature of science and the unity of the Church Five chapters in this collection represent five distinct theological formulations within Christianity the other seven

chapters are from a variety of historic philosophic and theological starting points on the topic These twelve accounts range from theologies informed by the Classical Philosophy of Plato and Aristotle medieval Jewish and Roman Catholic writers Moses Maimonides and Thomas More writers of the Protestant Reformation Martin Luther John Calvin Richard Hooker and William Shakespeare the founders of modern science Francis Bacon and T H Huxley and the modern day theologies of Abraham Kuyper Flannery O Connor H R Niebuhr and Dietrich Bonhoeffer Worship by Faith Alone Zac Hicks,2023-02-28 What does gospel centered worship look like for today s church Scholar worship leader and songwriter Zac Hicks contends that this idea can be found in Thomas Cranmer s theology of worship which was shaped by the Protestant principle of justification by faith alone and reflected in his 1552 edition of the Book of Common Prayer Kierkegaard in Post/Modernity Martin Beck Matušík,Martin Joseph Matušík,Merold Westphal,1995-10-22 Covering a diversity of themes this collection still reflects consensus Kierkegaard is to be taken seriously as a philosopher at the turn of the twenty first century **The Promise of Martin Luther's Political Theology** Michael Richard Laffin,2016-10-20 Michael Laffin demonstrates the promise of Martin Luther s thought for contemporary political theology by showing how Luther has been over determined in standard genealogies of modernity which frequently deafen us to his unique contribution Laffin argues that contemporary theologians have typically followed a narrative derived from the work of a previous generation of political historians and philosophers which tend to screen out or distort the Reformers contribution to political theory Common to these narratives are charges against Luther for his perceived univocal and nominal ontology resulting in a privatized and spiritualized Christianity thus falsely dividing the world into autonomous spheres Additionally the narratives claim that Luther follows in the wake of voluntarism leading to an insistence on human passivity that leaves no room for pagan virtue Thus politics is reduced to an authoritarian imposition of order In contrast to the dominant narratives of political modernity Laffin re examines these narratives by focusing on the political significance of areas in Luther s corpus often neglected in contemporary accounts of his political thought especially his commentaries on Scripture and writings on the sacraments Attention to these writings brings forth the crucial themes of the two ecclesiae and the three institutions Constructively these themes are deployed in critical engagement with contemporary political theology particularly as represented in Radical Orthodoxy and the new Augustinianism Faith and Knowledge John Hick,2009-08-01 In this revision of his widely read study John Hick has taken advantage of constructive comments on the first edition to make the book more useful New material has been added and the overall structure of the volume has been changed to strengthen it both as an introduction to the problem of religious knowledge and as an exposition of the view of faith that seems to him most adequate There is a new chapter on the Thomist Catholic view of faith a new treatment of the controversial notion of eschatological verification taking account of various published critiques of the concept and a new section on the way in which the Christian faith awareness of God expresses itself in a distinctive way of life *Constraints in Phonological Acquisition* René Kager,Joe Pater,Wim

Zonneveld, 2004-01-15 This outstanding 2004 volume presents an overview of linguistic research into the acquisition of phonology. Bringing together well known researchers in the field, it focuses on constraints in phonological acquisition as opposed to rules and offers concrete examples of the formalization of phonological development in terms of constraint ranking. The first two chapters situate the research in its broader context with an introduction by the editors providing a brief general tutorial on Optimality Theory. Chapter two serves to highlight the history of constraints in studies of phonological development which predates their current ascent to prominence in phonological theory. The remaining chapters address a number of partially overlapping themes: the study of child production data in terms of constraints, learnability issues, perceptual development and its relation to the development of production and second language acquisition.

Immerse yourself in heartwarming tales of love and emotion with is touching creation, Experience Loveis Journey in **The Grammar Of Faith** . This emotionally charged ebook, available for download in a PDF format (*), is a celebration of love in all its forms. Download now and let the warmth of these stories envelop your heart.
