The Grand Design Of God The Literary Form Of The Christian View Of History:

The Grand Design of God C. A. Patrides, 2016-03-31 This book originally published in 1972 offers a stimulating account of the Christian tradition of historiography as it is reflected in works of literature and history The discussion ranges from the pre Christian The Iliad up to the 1970s The author considers subjects such as the Mystery Plays in the medieval synthesis the nature of the evidence provided by the Renaissance authors in England and the Continent the contemporary world The book examines the attitudes of historians and at the use historians have made of the Christian view of history **The Theology**

of Jonathan Edwards Michael J. McClymond, Gerald R. McDermott, 2012-01-05 Scholars and laypersons alike regard Jonathan Edwards 1703 58 as North America s greatest theologian The Theology of Jonathan Edwards is the most comprehensive survey of his theology yet produced and the first study to make full use of the recently completed seventy three volume online edition of the Works of Jonathan Edwards The book s forty five chapters examine all major aspects of Edwards s thought and include in depth discussions of the extensive secondary literature on Edwards as well as Edwards s own writings Its opening chapters set out Edwards s historical and personal theological contexts The next thirty chapters connect Edwards s theological loci in the temporally ordered way in which he conceptualized the theological enterprise beginning with the triune God in eternity with his angels to the history of redemption as an expression of God s inner reality ad extra and then back to God in eschatological glory The authors analyze such themes as aesthetics metaphysics typology history of redemption revival and true virtue They also take up such rarely explored topics as Edwards s missiology treatment of heaven and angels sacramental thought public theology and views of non Christian religions Running throughout the volume are what the authors identify as five basic theological constituents trinitarian communication creaturely participation necessitarian dispositionalism divine priority and harmonious constitutionalism Later chapters trace his influence on and connections with later theologies and philosophies in America and Europe The result is a multi layered analysis that treats Edwards as a theologian for the twenty first century global Christian community and a bridge between the Christian West and East Protestantism and Catholicism conservatism and liberalism and charismatic and non charismatic churches John G. Demaray, 1999-06-01 In this analysis of Milton s artistry as an epic poet John G Demaray offers a fresh perspective on one of the world s great epic poems Placing *Paradise Lost* against the background of Renaissance theatrical and literary formspageants baroque spectacles masques musical dramas and Continental heroic works Demaray offers the first extended critical reading of the poem as a unique theatrical epic incorporating heroic conventions theological materials and elements of visual pageantry He examines Milton s early experiments in prophetic verse and theatrical forms the poet s exposure to Italian theater and art during travels in 163839 and the influence of classical Continental and British works upon evolving drafts of *Paradise Lost* He relates the epic in new ways to the writings of Jonson Dryden and others Readers interested in seventeenth century literature Renaissance and baroque theater the epic religious writings and the creative processes of

The Matter of Revolution John Rogers, 2018-09-05 John Rogers here addresses the literary and ideological consequences of the remarkable if improbable alliance between science and politics in seventeenth century England He looks at the cultural intersection between the English and Scientific Revolutions concentrating on a body of work created in a brief but potent burst of intellectual activity during the period of the Civil Wars the Interregnum and the earliest years of the Stuart Restoration Rogers traces the broad implications of a seemingly outlandish cultural phenomenon the intellectual imperative to forge an ontological connection between physical motion and political action **Frame, Glass, Verse** Rayna Kalas, 2018-12-15 In a book that draws attention to some of our most familiar and unquestioned habits of thought from framing to perspective to reflection Rayna Kalas suggests that metaphors of the poetic imagination were once distinctly material and technical in character Kalas explores the visual culture of the English Renaissance by way of the poetic image showing that English writers avoided charges of idolatry and fancy through conceits that were visual but not pictorial Frames mirrors and windows have been pervasive and enduring metaphors for texts from classical antiquity to modernity as a result those metaphors seem universally to emphasize the mimetic function of language dividing reality from the text that represents it This book dissociates those metaphors from their earlier and later formulations in order to demonstrate that figurative language was material in translating signs and images out of a sacred and iconic context and into an aesthetic and representational one Reading specific poetic images in works by Spenser Shakespeare Gascoigne Bacon and Nashe together

with material innovations in frames and glass Kalas reveals both the immanence and the agency of figurative language in the early modern period Frame Glass Verse shows finally how this earlier understanding of poetic language has been obscured by a modern idea of framing that has structured our apprehension of works of art concepts and even historical periods Kalas presents archival research in the history of frames mirrors windows lenses and reliquaries that will be of interest to art historians cultural theorists historians of science and literary critics alike Throughout Frame Glass Verse she challenges readers to rethink the relationship of poetry to technology

Jonathan Edwards's Philosophy of History Avihu Zakai, 2009-02-09 Avihu Zakai analyzes Jonathan Edwards's redemptive mode of historical thought in the context of the Enlightenment As theologian and philosopher Edwards has long been a towering figure in American intellectual history Nevertheless and despite Edwards's intense engagement with the nature of time and the meaning of history there has been no serious attempt to explore his philosophy of history Offering the first such exploration Zakai considers Edwards's historical thought as a reaction in part to the varieties of Enlightenment historical narratives and their growing disregard for theistic considerations Zakai analyzes the ideological origins of Edwards's insistence that the process of history depends solely on God's redemptive activity in time as manifested in a series of revivals throughout history reading this doctrine as an answer to the threat posed to the Christian theological teleology of history by the early modern emergence of a secular conception of history and the modern legitimation of historical time In response to the Enlightenment refashioning of secular historical time and its growing emphasis on human agency Edwards strove to re-establish God's preeminence within the order of time Against the de-Christianization of history and removal of divine power from the historical process he sought to re-enthrone God as the author and lord of history and thus to re-enchant the historical world Placing Edwards's historical thought in its broadest context this book will be welcomed by those who study early modern history American history or religious culture and experience in America

Theology and Literature in the Age of Johnson Melvyn New, Gerard Reedy, 2012-06-14 Theology and Literature in the Age of Johnson Resisting Secularism contains seventeen essays exploring the complex relationships between literary intentions and theological concerns of authors writing in the second half of the eighteenth century The diversity of literary forms and subjects from Fielding and Richardson to Burke and Wollstonecraft is matched by a diversity of approaches and theologies To argue that the age resisted secularism is by no means to argue that resistance was blindly doctrinal or rigidly uniform The many ways secularism could be resisted is the subject of the collection Published by University of Delaware Press Distributed worldwide by Rutgers University Press

John Milton John T. Shawcross, 2021-09-15 The facts of John Milton's life are well documented but what of the person Milton the man whose poetic and prose works have been deeply influential and are still the subject of opposing readings John Shawcross's different biography depicts the man against a psychological backdrop that brings into relief who he was in his works and from his works While the theories of Freud Lacan Kohut and others underlie this pursuit of Milton's self Jung and some of his

followers provide the basic understanding by which Shawcross places Milton in the panorama of history His explorations of the psychological underpinnings of Milton's decision to become a poet of the homoerotic dimensions of his personality and of his relationships with father and mother demonstrate the extent to which psychobiography proves itself invaluable as a means to appreciate this complex writer and his complex writings This biography combines the traditional chronological narrative with a technique akin to that of fiction a mixture of times and a triggering of remembrances from various time frames without time differentiations Such an approach offers a view of Milton not only in being but in process of being Shawcross's examination of two current concerns gender attitudes and political ideologies ranges Milton's work against the self he exhibits Specialists and nonspecialists alike will find in this magisterial biography a wealth of new insight into one of the greatest of English poets *A Reference Guide for English Studies* Michael J. The Lord of History Msgr. Eugene Kevane, 2018-07-01 When Msgr Eugene Kevane's seminal work The Lord of History was originally published in 1980 it responded to a call by the Second Vatican Council to promote a more effective coordination of philosophy and theology so that they supplement one another in revealing the Mystery of Christ which affects the whole course of human history Optatum Totius 14 Lamenting that in modernity Christ is no longer the center of the universal history of mankind let alone the center of one's personal history Kevane believed it was critical for catechists to reclaim Christ as the Lord over every aspect of humanity's collective and individual experience In this new edition of The Lord of History Kevane's groundbreaking work introduces today's generation to the bedrock of Christian philosophy and its relationship to religious instruction and beyond **Biblical Sterne** Ryan J. Stark, 2021-01-14 Is Laurence

Sterne one of the great Christian apologists Ryan Stark recommends him as such perhaps to the detriment of the parson's roguish reputation The book's aim however is not to dispel roguishness but rather to discern the theological motives behind Sterne's comic rhetoric from Tristram Shandy and the sermons to A Sentimental Journey To this end Stark reveals a veritable

avalanche of biblical themes and allusions to be found in Sterne often and seemingly awkwardly in the middle of sex jokes and yet the effect is not to produce irreverence On the contrary we find an irreverently reverent apologetic Stark argues and a priest who knows how to play gracefully with religious ideas Through Sterne in fact we might rethink humour's role in the service of religion

The Modern Satiric Grotesque and Its Traditions John R. Clark, 2014-07-15 Thomas Mann predicted that no manner or mode in literature would be so typical or so pervasive in the twentieth century as the grotesque Assuredly he was correct The subjects and methods of our comic literature and much of our other literature are regularly disturbing and often repulsive no laughing matter In this ambitious study John R Clark seeks to elucidate the major tactics and topics deployed in modern literary dark humor In Part I he explores the satiric strategies of authors of the grotesque strategies that undercut conventional usage and form the de basement of heroes the denigration of language and style the disruption of normative narrative technique and even the debunking of authors themselves Part II surveys major recurrent themes of grotesquerie tedium scatology cannibalism dystopia and Armageddon or the end of the world Clearly the literature of the grotesque is obtrusive and ugly its effect morbid and disquieting and deliberately meant to be so Grotesque literature may be unpleasant but it is patently insightful Indeed as Clark shows all of the strategies and topics employed by this literature stem from age old and spirited traditions Critics have complained about this grim satiric literature asserting that it is dank cheerless unsavory and negative But such an interpretation is far too simplistic On the contrary as Clark demonstrates such grotesque writing in its power and its prevalence in the past and present is in fact conventional controlled imaginative and vigorous no mean achievements for any body of art

The Revolution in Time Tony Claydon, 2020 The Revolution in Time explores the idea that people in Western Europe changed the way they thought about the concept of time over the early modern period by examining reactions to the 1688 1689 revolution in England and how people understood their own place in history and modernity through political and social transformation

The Historians of Angevin England Michael Staunton, 2017-06-23 The Historians of Angevin England is a study of the explosion of creativity in historical writing in England in the late twelfth and early thirteenth centuries and what this tells us about the writing of history in the middle ages Many of those who wrote history under the Angevin kings of England chose as their subject the events of their own time and explained that they did so simply because their own times were so interesting and eventful This was the age of Henry II and Thomas Becket Eleanor of Aquitaine and Richard the Lionheart the invasion of Ireland and the Third Crusade and our knowledge and impression of the period is to a great extent based on these contemporary histories The writers in question Roger of Howden Ralph of Diceto William of Newburgh Gerald of Wales and Gervase of Canterbury to name a few wrote history that is not quite like anything written in England before Remarkable for its variety its historical and literary quality its use of evidence and its narrative power this has been called a golden age of historical writing in England The Historians of Angevin England the first volume to address the subject sets out to illustrate the historiographical achievements of this

period and to provide a sense of how these writers wrote and their idea of history But it is also about how medieval intellectuals thought and wrote about a range of topics the rise and fall of kings victory and defeat in battle church and government and attitudes to women heretics and foreigners

Faces of History Donald R. Kelley, 1998-01-01 In this book one of the world's leading intellectual historians offers a critical survey of Western historical thought and writing from the pre classical era to the late eighteenth century Donald R Kelley focuses on persistent themes and methodology including questions of myth national origins chronology language literary forms rhetoric translation historical method and criticism theory and practice of interpretation cultural studies philosophy of history and historicism Kelley begins by analyzing the dual tradition established by the foundational works of Greek historiography Herodotus's broad cultural and antiquarian inquiry and the contrasting model of Thucydides contemporary political and analytical narrative He then examines the many variations on and departures from these themes produced in writings from Greek Roman Jewish and Christian antiquity in medieval chronicles in national histories and revisions of history during the Renaissance and Reformation and in the rise of erudite and enlightened history in the seventeenth and eighteenth centuries Throughout Kelley discusses how later historians viewed their predecessors including both supporters and detractors of the authors in question The book which is a companion volume to Kelley's highly praised anthology *Versions of History from Antiquity to the Enlightenment* will be a valuable resource for scholars and students interested in interpretations of the past
