*Inez* Linda J. Lumsden, 2004-07-08 Inez Milholland was the most glamorous suffragist of the 1910s and a fearless crusader for women's rights Moving in radical circles she agitated for social change in the prewar years and she epitomized the independent New Woman of the time Her death at age 30 while stumping for suffrage in California in 1916 made her the sole martyr of the American suffrage movement Her death helped inspire two years of militant protests by the National Woman's Party including the picketing of the White House which led in 1920 to ratification of the 19th Amendment granting

women the right to vote Lumsden's study of this colorful and influential figure restores to history an important link between the homebound women of the 19th century and the iconoclastic feminists of the 1970s      **The Yankee Road** James D.

Mystery and Marvel John Henry Hepp, 2024-11-30 First book on the Centennial in nearly four decades offering a new insight into this seminal event The Centennial was America's first world's fair taking place only twenty five years after the first international exposition in London The exhibition was a paean to progress by people fascinated by science and technology The organizers largely leading Pennsylvania industrialists and merchants wanted to show the world that the United States was as advanced as any nation in Europe and for the most part their plan succeeded Everyday Americans attended the fair to be reassured of their nation's economic and technological past present and future Mystery and Marvel looks at the 1876 Centennial Exposition through the eyes of the ten million visitors to the fair to help us understand the technological enthusiasm of middle class Victorians Although this enthusiasm was not unbounded and was occasionally tinged with a combination of nostalgia and uncertainty overall the women and men of the late nineteenth century were usually happy to be part of a world they thought was as modern and as cutting edge as the one we live in today In and around the buildings that appeared in the city's Fairmount Park that spring and summer were the physical embodiments of this

culture The sights the sounds and even the smells of the exhibition presaged the coming of a modern America In 1876 Philadelphia was the nation s largest manufacturing city and Pennsylvania one of the most important industrial states The exposition can serve as a wonderful lens to examine America s shift from the young agricultural republic of 1800 to the industrial empire of 1900
