The Grand Inquisitor on the Nature of Man Fyodor Dostoyevsky, Constance Garnett, 1948 Library of Liberal Arts title

**The Grand Inquisitor on the Nature of Man** Fyodor Dostoyevsky, 1980      **The Grand Inquisitor** Donald Douglas, 1925      **What is the human nature like in Fedor Dostoevsky's "The legend of the Grand Inquisitor"?**

Naseer Ahmad Habibi, 2012-05-23 Essay from the year 2012 in the subject Literature Modern Literature grade A American University of Central Asia language English abstract The Grand Inquisitor is a significant part of the Brothers Karamazov's novel and one of the well known passages in modern writing because of its concepts about human nature and freedom The Grand Inquisitor thinks so low of human nature and he believes that men as whole are incapable creatures and he has doubt about human's capability He plays an important role in the Brother Karamazov's novel which has a whole chapter about him and his ideas about men The Grand inquisitor misjudges human nature and their capability but his ideas that human beings cannot tolerate freedom could be acceptable and satisfactory      *The Grand Inquisitor on the Nature of Man* Fedor Mikhaïlovitch Dostoïevski, 1948      *Phoenix: the Posthumous Papers of D. *Fusion* Gennady Barabtarlo, 2000-05-01 While historical and political aspects of the Russo German relationship over the past three to four centuries have received due attention from scholars the range of the far more diverse important and peculiar cultural relations still awaits full assessment This volume shows how enriching these cultural influences were for both countries affecting many spheres of intellectual and daily life such as philosophy and religion education and ideology sciences and their application arts and letters custom and language The German Russian relationship has always been particularly intense Oscillating as it has between infatuation and contempt it has always been marked by a singular paradox a German cultural presence in Russia resulting either in a more or less complete fusion as in the case of Russified German or in a pronounced mutual repulsion accompanied by the denigration of each other's culture as inferior It is this curious paradox that determines the perspectives of the articles that were specially written for this volume providing it with a unifying focus

*René Girard's Mimetic Theory* Wolfgang Palaver, 2013-01-01 A systematic introduction into the mimetic theory of the French American literary theorist and philosophical anthropologist René Girard this essential text explains its three main pillars mimetic desire the scapegoat mechanism and the Biblical difference with the help of examples from literature and philosophy This book also offers an overview of René Girard's life and work showing how much mimetic theory results from existential and spiritual insights into one's own mimetic entanglements Furthermore it examines the broader implications of Girard's theories from the mimetic aspect of sovereignty and wars to the relationship between the scapegoat mechanism and the question of capital punishment Mimetic theory is placed within the context of current cultural and political debates like the relationship between religion and modernity terrorism the death penalty and gender issues Drawing textual examples from European literature Cervantes Shakespeare Goethe Kleist Stendhal Storm Flaubert Dostoevsky Proust and philosophy Plato Camus Sartre Lévi Strauss Derrida Vattimo Palaver uses mimetic theory to explore the themes they present A highly accessible book this text is complemented by bibliographical references to Girard's widespread work and secondary literature on mimetic theory and its applications comprising a valuable bibliographical archive that provides the reader with an overview of the development and discussion of mimetic theory until the present day

*The Nature of Love, Volume 3* Irving Singer, 2009-02-27 The final volume of Singer's trilogy discusses ideas about love in the work of writers ranging from Kierkegaard Nietzsche and Tolstoy to Freud Proust D H Lawrence Shaw and others in the contemporary world Irving Singer's trilogy *The Nature of Love* has been called majestic New York Times Book Review monumental Boston Globe one of the major works of philosophy in our century *Nous* wise and magisterial Times Literary Supplement and a masterpiece of critical thinking that is a timely eloquent and scrupulous account of what after all still makes the world go round Christian Science Monitor In the third volume Singer examines the pervasive dialectic between optimistic idealism and pessimistic realism in modern thinking about the nature of love He begins by discussing anti Romantic Romantics focusing on Kierkegaard Nietzsche and Tolstoy influential nineteenth century thinkers whose views illustrate much of the ambiguity and

self contradiction that permeate thinking about love in the last hundred years He offers detailed studies of Freud Proust Shaw D H Lawrence and Santayana and he maps the ideas about love in Continental existentialism particularly those of Sartre and de Beauvoir Singer finally envisages a future of cooperation between pluralistic humanists and empirical scientists This last volume of Singer s trilogy does not pretend to offer the final word on the subject any more than do most of the philosophers he discusses but his masterful work can take its place beside their earlier investigations into these vast and complex questions

**The Bad Side of Books** D.H. Lawrence, 2019-11-12 You could describe D H Lawrence as the great multi instrumentalist among the great writers of the twentieth century He was a brilliant endlessly controversial novelist who transformed for better and for worse the way we write about sex and emotions he was a wonderful poet he was an essayist of burning curiosity expansive lyricism odd humor and radical intelligence equaled perhaps only by Virginia Woolf Here Geoff Dyer one of the finest essayists of our day draws on the whole range of Lawrence s published essays to reintroduce him to a new generation of readers for whom the essay has become an important genre We get Lawrence the book reviewer writing about *Death in Venice* and welcoming Ernest Hemingway Lawrence the travel writer in Mexico and New Mexico and Italy Lawrence the memoirist depicting his strange sometime friend Maurice Magnus Lawrence the restless inquirer into the possibilities of the novel writing about the novel and morality and addressing the question of why the novel matters and finally the Lawrence who meditates on birdsong or the death of a porcupine in the Rocky Mountains Dyer s selection of Lawrence s essays is a wonderful introduction to a fundamental dazzling writer

*The Nature of Love* Irving Singer, 1984 In this concluding volume of his impressive study of the history of Western thought about the nature of love Irving Singer reviews the principal efforts that have been made by 20th Century thinkers to analyze the phenomenon of love The bulk of the book is taken up with critical accounts of the modern thinkers who have systematically called into question the possibility itself of love as a union of distinct human selves For the most part these critiques are effectively executed and they bring a high level of critical acumen to bear on skeptical theses about love that are now too often accepted as truisms Frederick A Olafson Los Angeles Times Book Review Irving Singer has developed a method of historical analysis flexible enough to deal with all kinds of love from Greek homosexual love in Plato to the *philia* and *agape* of the New Testament to the courtly love of medieval romance to the Romantics for whom love was magic This final volume brings us to the present In The Modern World Singer offers readings of Freud Proust and Sartre among others He shows how their work was formed in reaction to the 19th century ideal of merging of the identities of lover and beloved More often than not the great modern writers portray love as impossible as a field of failure and regret This masterpiece of critical thinking is a timely eloquent and scrupulous account of what after all still makes the world go round Thomas D Evelyn Christian Science Monitor This is the third of a three volume history of the philosophy of love It begins with Kierkegaard Tolstoy and Nietzsche in the nineteenth century and treats Freud Proust Bergson D H Lawrence G B Shaw Santayana Sartre and others in the twentieth Although the author

s approach is primarily historical he intersperses critical remarks throughout Most of the major themes which are discussed by philosophers of love make their way into this history including friendship sexual love and the distinction between love that is based on the value of the beloved and love that bestows value on the beloved Singer devotes a number of pages to his own views on falling in love being in love and staying in love Singer s exposition is lucid and organized his criticisms are insightful

**Ethics** In this third volume of historical overview of the development of the Western conception of love Singer uses writers philosophers and psychologists to provide the reader with an overview of love in the late 19th and 20th century Analyzing authors such as Tolstoy Proust D H Lawrence and Shaw and philosophers such as Nietzsche Kierkegaard Sartre and Santayana as well as Freud Singer links each contributor s thoughts to the influence of previous writers and also provides some psycho historical insight into their personal lives that might have been either a source or direct result of their views In this final volume Singer proceeds to look at not just the great men influence but also provides a chapter overviews scientific contributions to our understanding of love Singer s work is a significant contribution to understanding the social construction of important abstract social and personal values By tracing love through different historical periods through a variety of voices Singer has created a rich history of the struggle between the ideal and the real between the dreams of what love should provide and the reality of what relationships have been in each historical period By personalizing the voice through psychohistorical analysis Singer also provides insight into the shaping of ideas through the intimate struggles of the shapers

**Kaleidoscope: F.M. Dostoevsky and the Early Dialectical Theology** Katya Tolstaya,2013-03-27 Introducing a new hermeneutics this book explores the correlation between the personal faith of F M Dostoevsky 1821 1881 and the religious quality of his texts In offering the first comprehensive analysis of his ego documents it demonstrates how faith has methodologically to be defined by the

inaccessibility of the living person This thesis which draws on the work of M M Bakhtin is further developed by critically examining the reception of Dostoevsky by the two main representatives of early dialectical theology Karl Barth and Eduard Thurneysen In the early 1920s they claimed Dostoevsky as a chief witness to their radical theology of the fully transcendent God While previously unpublished archive materials demonstrate the theological problems of their static conceptual interpretation the kaleidoscopic hermeneutics is founded on the awareness that a text offers only a fixed image whereas living faith is in permanent motion

**The Political Dialogue of Nature and Grace** Caitlin Smith Gilson,2017-03-23 The discourse between nature and grace finds its linguistic and existential podium in the political condition of human beings As Caitlin Smith Gilson shows it is in this arena that the perennial territorial struggle of faith and reason God and man man and state take place and it is here that the understanding of the personal as political as well as the political as personal finds its meaning And it is here too that the divine finds or is refused a home Any discussion of post secular society has its origins in this political dialogue between nature and grace the resolution of which might determine not only a future post secular society but one in which awe is re united to affection solidarity and fraternity Smith Gilson questions whether the idea of pure nature antecedently disregards the fact that grace enters existence and that this accomplishes a conversion in the metaphysical existential region of man s action and being This conversion alters how man acts as an affective moral intellectual social political and spiritual being State of nature theories transformed yet retained in the broader metaphysical and existential implications of the Hegelian Weltgeist are shown to be indebted to the ideological restrictedness of pure nature natura pura as providing the foremost adversary to any meaningful type of divine presence within the polis as well as inhibiting the phenomenological facticity of man as an open nature

**Theories of Consciousness and the Problem of Evil in the History of Ideas** Ben Lazare Mijuskovic,2023-04-08 In this book Ben Lazare Mijuskovic uses both an interdisciplinary and History of Ideas approach to discuss four forms of intertwined theories of human consciousness and reflexive self consciousness Plato Augustine Descartes Leibniz Kant and Hegel Schopenhauer s subconscious irrational Will Brentano and Husserl s transcendent intentionality and Freud s dynamic ego Mijuskovic explores these theories within the context of psychological issues where the discussion is undergirded by the conflict between loneliness and intimacy He also explores them in the context of ethics where the dynamic is between the values of good and evil The book historically traces these issues in both a personal as well as a political framework

**A Biological, Psychological and Philosophical Approach to Human Nature and Radicalism** Jerome Premmureur,2024-05-08 After numerous catastrophic terrorist events in the first decades of the 21st century many governments have attempted to mitigate extreme and violent radicalism without much success The purpose of this book is to generate possible solutions to human radicalism However this is not where its uniqueness lies The uniqueness is where these solutions come from human nature reexamined in biological and philosophical terms Human nature within a peculiar natural world can lead to acts of terrorism This unique combination of

biology and Spinoza's philosophy creates a particular vision the Spinozist view of human nature and radicalism This vision suggests many psycho sociogenic solutions to mitigate violent radicalism Although experts may be interested in this unusual approach the book is designed to give non experts in clinical medicine molecular biology philosophy psychology psychoanalysis and sociology access to related ideas enriching the debate and providing practical solutions to radicalism

misReading Nietzsche M. Saverio Clemente, Bryan J. Cocchiara, 2018-06-11 Perhaps more than any philosophy written in the past few centuries the work of Friedrich Nietzsche has given rise to controversy misunderstanding and dissent Today Nietzsche is remembered as the revolutionary author of such polemical ideas as the death of God the revaluation of values the will to untruth and the Übermensch Yet is Nietzsche's philosophy as atheistic relativistic nihilistic and immoral as some commentators have claimed Or ought we perhaps to give more credence to Nietzsche's own assertion that one writes books precisely to conceal what one harbors BGE 9 289 If whatever is profound loves masks BGE 2 40 then might Nietzsche's more daring claims be interpreted as clever masks behind which he conceals a deeper philosophy and on which he reveals a hidden truth Is it not possible that the standard readings of Nietzsche are in fact misreadings that his work invites misreading that it is intentionally unclear deceptive disguised The goal of this volume is to reread Nietzsche for all that he shows and all that he hides It is to dig deeper into his work in order to challenge misreadings of old and invite misreadings anew as indeed his work itself calls for and demands **Human Nature** James Burns, 2022-02-24 Reprint of the original first published in 1872
