The Grand Style:

Sacred Rhetoric Debora K. Shuger, 2014-07-14 There are no studies of a sacred grand style in the English Renaissance writes Debora Shuger because even according to its practitioners it was not supposed to exist Yet the grand style forms the unacknowledged center of traditional rhetorical theory In this first history of the grand style Professor Shuger explores the growth of a Christian aesthetic out of the Classical grand style showing its development from Isocrates to the sacred rhetorics of the Renaissance These rhetorics advocate a Christian grand style neither pedantically mimetic nor playfully sophistic whose models include Tacitus and the Bible as well as Cicero and whose theoretical sources embrace not only Cicero and Quintilian but Hermogenes and Longinus This style dominates the best and most scholarly rhetorics of the period texts written in Latin and while ignored by most recent scholars extensively used in England throughout the sixteenth and seventeenth centuries These works are the first attempts since Augustine's pioneering revision of Ciceronian rhetoric to reground ancient rhetorical theory on Christian epistemology and theology According to Professor Shuger the Christian grand style is passionate vivid dramatic metaphoric yet this emotional energy and sensuousness is shaped and legitimated by Renaissance religious culture Thus sacred rhetoric cannot be considered apart from contemporary theories of cognition emotion selfhood and signification It mediates between word and world Moreover these texts suggest the almost forgotten centrality of neo Latin scholarship during these years and provide a crucial theoretical context for England's great flowering of devotional prose and poetry Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Nietzsche and the Question of Interpretation Alan Schrift, 2014-02-25 The first attempt at assessing the references to interpretation theory in the Nietzschean text *Matthew Arnold and Goethe, Learning and Persuasion in the German Middle Ages* Ernst Ralf Hintz, 2014-01-14 Augustine as a point of departure This study examines Christian education in early vernacular texts of the German Middle Ages on the basis of Latin traditions of learning and teaching from Late Antiquity The point of departure is Augustine's *De doctrina christiana* in which Augustine not only consolidated Christian and pagan traditions but combined them into a program of Christian education Illuminates continuity of traditions The author considers the continuity of these traditions in the late sixth century in Gregory the Great's treatise on pastoral care *Regula pastoralis* the early ninth century work of Hrabanus Maurus *De institutione clericorum* in the Old High German poem the *Muspilli* also from the ninth century then in the Middle High German works the *Memento Mori* from the late 11th century and the poems of Frau Ava and Von den Letzten Dingen from the early and late 12th century respectively Translations of the Latin and early German texts generally

appear together with a version of their original texts A bibliography and index conclude the volume *Signs of Light* Matthew Lauzon, 2011-03-15 In *Signs of Light* Matthew Lauzon traces the development of very different French and British ideas about language over the course of the late seventeenth and eighteenth centuries and demonstrates how important these ideas were to emerging notions of national character Drawing examples from a variety of French and English language works in a wide range of areas including language theory philosophy rhetoric psychology missionary tracts and literary texts Lauzon explores how French and British thinkers of the day developed arguments that certain kinds of languages are superior to others The nature of animal language and British and French understandings of the languages of North American Indians were vigorously debated Theories of animal language juxtaposed the apparent virtues of transparency and wit considerations of savage language resulted in eloquence being regarded as an even higher accomplishment Eventually the French language came to be prized for its wit and sociability and English for its simple clarity and vigor Lauzon shows that besides concerns about establishing the clarity of introspective representations questions about the energetic communication of sincere emotion and about the sociable communication of wit were crucial to language theories during this period A richly interdisciplinary work *Signs of Light* is a compelling account of a formative period in language theory **German Modernism** Walter Frisch, 2005-07-25 In this pioneering erudite study of a pivotal era in the arts Walter Frisch examines music and its relationship to early modernism in the Austro German sphere Seeking to explore the period on its own terms Frisch questions the common assumption that works created from the later 1870s through World War I were transitional between late romanticism and high modernism Drawing on a wide range of examples across different media he establishes a cultural and intellectual context for late Richard Wagner Richard Strauss Gustav Mahler and Arnold Schoenberg as well as their less familiar contemporaries Eugen d Albert Hans Pfitzner Max Reger Max von Schillings and Franz Schreker Frisch explores ambivalent modernism in the last quarter of the nineteenth century as reflected in the attitudes of and relationship between Nietzsche and Wagner He goes on to examine how naturalism the first self conscious movement of German modernism intersected with musical values and practices of the day He proposes convergences between music and the visual arts in the works of Brahms Max Klinger Schoenberg and Kandinsky Frisch also explains how near the turn of the century composers drew inspiration and techniques from music of the past the Renaissance Bach Mozart and Wagner Finally he demonstrates how irony became a key strategy in the novels and novellas of Thomas Mann the symphonies of Mahler and the operas of Strauss and Hofmannsthal *The Continuity of Letters* John Cann Bailey, *Social Distinctives of the Christians in the First Century* Edwin A. Judge, 2007-10-01 This is a collection of pivotal essays by E A Judge who initiated many important discussions in the establishment of social scientific criticism of the Bible What is it that made the work of Judge in 1960 and in subsequent years so important Judge was the first in scholarship after the mid twentieth century to clarify early Christian ideals about society by defining what the social institutions of the broader cultural context were and how they

influenced the social institutions of the early Christian communities Judge points out that earlier scholars had entered into this field of inquiry but that in general they failed due to the lack of careful definitions of the Greco Roman social institutions at the time based on a thorough use of the primary sources Thus Judge was the new founder a turning point in scholarship of what came to be called social scientific criticism of the New Testament Social scientific criticism is the term in scholarship that refers to the use of social realities e g institutions class factors of community organization in the critical study of literary sources available this is an advance over merely literary and traditional historical questions The Gallo-Roman Muse Dorothy Gabe Coleman,1979-09-20 In this 1979 book the author examines the Roman values that influenced sixteenth century French literature **Nietzsche** Richard Schacht,2013-08-16 First published in 1999 This book in compliance with the aims of the series attempts to provide a comprehensive and critical account of Nietzsche s thought The present study is an examination of his philosophical thinking and while this already makes it selective as well as interpretive it is of necessity selective in other ways as well **Rhetorical Theory** Timothy Borchers,Heather Hundley,2018-03-30 From the moment we begin to understand the meanings of words and symbols we have used rhetoric It is how we determine perceptions of who we are those around us and the social structure in which we operate Rhetorical Theory Second Edition introduces a broad selection of classical and contemporary theoretical approaches to understanding and using rhetoric Historical context reveals why rhetorical theories were created while present day examples demonstrate how they relate to the world in which we live Borchers and Hundley present conceptual topics in a succinct and approachable manner The text is organized topically rather than chronologically so similarities and differences are easily detected in central ideas Each chapter is enhanced by the inclusion of theorist biographies applications of theory to practice and Internet exercises The Second Edition expands coverage on mediated rhetoric feminist rhetoric alternative rhetorical theories including Afrocentricity and intersectionality cultural and critical rhetoric and postmodern implications of rhetoric New Testament Rhetoric, Second Edition Ben Witherington,Jason A. Myers,2022-09-28 Witherington and Myers provide a much needed introduction to the ancient art of persuasion and its use within the various New Testament documents More than just an exploration of the use of the ancient rhetorical tools and devices this guide introduces the reader to all that went into convincing an audience about some subject Witherington and Myers make the case that rhetorical criticism is a more fruitful approach to the NT epistles than the oft employed approaches of literary and discourse criticism Familiarity with the art of rhetoric also helps the reader explore non epistolary genres In addition to the general introduction to rhetorical criticism the book guides readers through the many and varied uses of rhetoric in most NT documents not only telling readers about rhetoric in the NT but showing them the way it was employed This brief guide book is intended to provide the reader with an entrance into understanding the rhetorical analysis of various parts of the NT the value such studies bring for understanding what is being proclaimed and defended in the NT and how Christ is presented in ways that would be considered persuasive in antiquity from the introduction On

Taormina, 2021-02-15 This new approach to Malherbe's odes interweaves political cultural rhetorical and literary history to show how they constitute a unified sequence whose ambition is to forge a new national community in the aftermath of the Wars of Religion dislodging Malherbe from his moribund critical reception as a grammarian and technician and recovering the brilliance of a poetic genius whose political mythmaking stems from an impassioned patriotism [Epitaph for an Era](#)
