The Great Debates Kennedy Vs Nixon 196:

Getting It Wrong W. Joseph Campbell, 2016-10-25 Many of American journalism's best known and most cherished stories are exaggerated, dubious, or apocryphal. They are media-driven myths, and they attribute to the news media and their practitioners far more power and influence than they truly exert. In *Getting It Wrong*, writer and scholar W. Joseph Campbell confronts and dismantles prominent media-driven myths describing how they can feed stereotypes, distort understanding about the news media, and deflect blame from policymakers. Campbell debunks the notions that the Washington Post's Watergate reporting brought down Richard M. Nixon's corrupt presidency; that Walter Cronkite's characterization of the Vietnam War in 1968 shifted public opinion against the conflict; and that William Randolph Hearst vowed to furnish the war against Spain in 1898. This expanded second edition includes a new preface and new chapters about the first Kennedy-Nixon debate in 1960, the haunting Napalm Girl photograph of the Vietnam War, and bogus quotations driven by the Internet and social media.

The Great Debates Sidney Kraus, 1977 Lasswell's introduction, which sets the stage by surveying the challenges which face the student of communications and political behavior as a result of the debates, the articles explore the background, circumstances, and effects of the debates in great detail.

Richard Nixon Hal Bochyn, 1990-01-19 Although much has been written about Richard Nixon, the man and the politician, comparatively little attention has been paid to Nixon the public speaker. This is unfortunate because it was through public speaking that Nixon, an introverted private man, first captured public attention, won a seat in the House of Representatives, advanced to the Senate, held on to his vice-presidential nomination, lost, and won the presidency, and eventually molded a constituency that carried him to one of the most overwhelming presidential election victories in American history. It was also through public speaking that President Nixon attempted to defend himself against charges related to the Watergate incident and sought to save himself from impeachment. When his rhetorical efforts failed to rouse popular support, he had no choice but to resign. This volume examines the combination of personal characteristics and artistic choices that made Richard M. Nixon a successful, albeit extremely controversial, public speaker from 1946 to the present. Based on Nixon's own writings, primary materials found in special collections, a number of rhetorical studies by communication scholars, and historical case studies, the most complete picture yet of Nixon as a rhetorical strategist emerges. The study of Nixon's rhetoric is the study of many important issues, from the alleged threat of subversive communism to Vietnam to Watergate, confronting America from 1946 to 1974. It is also the study of the man himself, because Nixon took an active role in the composition of all his important addresses. That both the highs and lows of Richard Nixon's career were marked by public address makes the rhetoric of Richard Nixon a worthy subject for anyone interested in political science.

history or communication and persuasion Campaign of the Century Irwin F. Gellman, 2022-01-04 Based on massive new research a compelling and surprising account of the twentieth century's closest election The 1960 presidential election between John F Kennedy and Richard Nixon is one of the most frequently described political events of the twentieth century yet the accounts to date have been remarkably unbalanced Far more attention is given to Kennedy's side than to Nixon's The imbalance began with the first book on that election Theodore White's *The Making of the President 1960* in which as he later admitted White deliberately cast Kennedy as the hero and Nixon as the villain and it has been perpetuated in almost every book since then Few historians have attempted an unbiased account of the election and none have done the archival research that Irwin F Gellman has done Based on previously unused sources such as the FBI's surveillance of JFK and the papers of Leon Jaworski vice presidential candidate Henry Cabot Lodge and many others this book presents the first even handed history of both the primary campaigns and the general election The result is a fresh engaging chronicle that shatters long held myths and reveals the strengths and weaknesses of both candidates The Reasoning Voter Samuel L. Popkin, 2024-05-31 The Reasoning Voter is an insider's look at campaigns candidates media and voters that convincingly argues that voters make informed logical choices Samuel L Popkin analyzes three primary campaigns Carter in 1976 Bush and Reagan in 1980 and Hart Mondale and Jackson in 1984 to arrive at a new model of the way voters sort through commercials and sound bites to choose a candidate Drawing on insights from economics and cognitive psychology he convincingly demonstrates that as trivial as campaigns often appear they provide voters with a surprising amount of information on a candidate's views and skills For all their shortcomings campaigns do matter Professor Popkin has brought V O Key's contention that voters are rational into the media age This book is a useful rebuttal to the cynical view that politics is a wholly contrived business in which unscrupulous operatives manipulate the emotions of distrustful but gullible citizens The reality he shows is both more complex and more hopeful than that David S Broder The Washington Post **Republic of Spin: An Inside History of the American Presidency** David Greenberg, 2016-01-11 A brilliant fast moving narrative history of the leaders who have defined the modern American presidency Bob Woodward In *Republic of Spin* a vibrant history covering more than one hundred years of politics presidential historian David Greenberg recounts the rise of the White House spin machine from Teddy Roosevelt to Barack Obama His sweeping startling narrative takes us behind the scenes to see how the tools and techniques of image making and message craft work We meet Woodrow Wilson convening the first White House press conference Franklin Roosevelt huddling with his private pollsters Ronald Reagan's aides crafting his nightly news sound bites and George W Bush staging his Mission Accomplished photo op We meet too the backstage visionaries who pioneered new ways of gauging public opinion and mastering the media figures like George Cortelyou TR's brilliantly efficient press manager 1920s ad whiz Bruce Barton Robert Montgomery Dwight Eisenhower's canny TV coach and of course the key spinmeisters of our own times from Roger Ailes to David Axelrod Greenberg also examines the

profound debates Americans have waged over the effect of spin on our politics Does spin help our leaders manipulate the citizenry Or does it allow them to engage us more fully in the democratic project Exploring the ideas of the century s most incisive political critics from Walter Lippmann and H L Mencken to Hannah Arendt and Stephen Colbert Republic of Spin illuminates both the power of spin and its limitations its capacity not only to mislead but also to lead A New World to Be Won G. Scott Thomas,2011-09-12 This book tells the story of 1960 a tumultuous transitional year that unleashed the forces that eventually reshaped the American nation and the entire planet to the joy of millions and the sorrow of millions more In 1960 attitudes were changing barriers were falling It was a transitional year during which the world as we know it today was beginning to take shape While other books have focused on the presidential contest between Kennedy and Nixon A New World to Be Won John Kennedy Richard Nixon and the Tumultuous Year of 1960 illuminates the emerging forces that would transform the nation and the world during the 1960s putting the election in the broader context of American history and world history as well While the author does devote a large portion of this book to the 1960 presidential campaign he also highlights four pivotal trends that changed life for decades to come unprecedented scientific breakthroughs ranging from the Xerox copier to new spacecraft for manned flight fragmentation of the international power structure notably the schism between the Soviet Union and China the pursuit of freedom both through the civil rights movement at home and the drive for independence in Africa and the elevation of pleasure and self expression in American culture largely as a result of federal approval of the birth control pill and the increasing popularity of illegal drugs **Televised Presidential Debates and Public Policy** Sidney Kraus,2013-10-11 With this second edition Kraus continues his examination of formal presidential debates considering the experience of television in presidential elections reviewing what has been learned about televised debates and evaluating that knowledge in the context of the election process specifically and the political process generally He also examines the media and the role they occupy in presidential elections Because critics often refer to the Lincoln Douglas debates when reproaching presidential debates comparisons of the two are discussed throughout the book Much of the data and information for this accounting of televised presidential debates comes from the author s first hand experience as one who was involved with these debates as a participant observer on site at nearly all of the debates discussed Throughout these discussions emphasis is placed on the implications for public policy To suggest policy that will be accepted and adopted by politicians and the public is at best difficult Proposals for changes in public policy based on experience even when scientific data support those changes must be subjected to an assessment of the values and predispositions of the proponent These values and predispositions however may not necessarily inhibit the proponent s objectivity As such this review of television use in the presidential election process provides the context for examining televised debates *The Presidential Campaign, 1976: The debates*,1978 **Encyclopedia of Rhetoric** Thomas O.
