This is a true story from Maj Harold Ferguson s personal diary and letters describing his experiences during World War I and his life as a citizen of Los Angeles during the formative years of the 1920s Maj Harold Ferguson was a Stanford graduate lawyer and member of the United States National Guard returning from service in World War I to his home in Los Angeles a city growing into a thriving metropolis But Los Angeles was a different city from Chicago New York or Detroit It was isolated from the rest of the country by its location on the West Coast surrounded by mountain ranges and oceans Natural resources were rare and water would be crucial to supporting a new population that hailed mostly from the Midwest All these challenges were part of Ferguson s story His entry into the LA real estate business came at a time when Los Angeles was overwhelmed with housing demands to accommodate all the new immigrants who saw Los Angeles as a Mediterranean paradise sunshine Hollywood job opportunities get rich quick schemes and a new beginning But delayed effects of World War I subterranean and invisible to most rose from the depths and created the Great Depression **Beyond Chinatown** Steven P. How Local Politics Shape Federal Policy Sarah S. Elkind,2011-08-15 Focusing on five Los Angeles environmental policy debates between 1920 and 1950 Sarah Elkind investigates how practices in American municipal government gave business groups political legitimacy at the local level as well as unanticipated influence over federal politics Los Angeles s struggles

with oil drilling air pollution flooding and water and power supplies expose the clout business has had over government Revealing the huge disparities between big business groups and individual community members in power influence and the ability to participate in policy debates Elkind shows that business groups secured their political power by providing Los Angeles authorities with much needed services including studying emerging problems and framing public debates As a result government officials came to view business interests as the public interest When federal agencies looked to local powerbrokers for project ideas and political support local business interests influenced federal policy too Los Angeles with its many environmental problems and its dependence upon the federal government provides a distillation of national urban trends Elkind argues and is thus an ideal jumping off point for understanding environmental politics and the power of business in the middle of the twentieth century

Cities and Nature in the American West Char Miller, 2010-09-28 In less than a century the American West has transformed from a predominantly rural region to one where most people live in metropolitan centers Cities and Nature in the American West offers provocative analyses of this transformation Each essay explores the intersection of environmental urban and western history providing a deeper understanding of the complex processes by which the urban West has shaped and been shaped by its sustaining environment The book also considers how the West's urban development has altered the human experience and perception of nature from the administration and marketing of national parks to the consumer roots of popular environmentalism the politics of land and water use and the challenges of environmental inequities A number of essays address the cultural role of wilderness nature and such activities as camping Others examine the increasingly pervasive power of the West's urban areas and urbanites to redefine the very foundations and future of the American West

Olympic Legacies: Intended and Unintended J A Mangan, Mark Dyreson, 2013-10-18 For more than a century the Olympics have been the modern world's most significant sporting event Indeed they deserve much credit for globalizing sport beyond the boundaries of the Anglo American universe where it originated into broader global realms By the 1930s the Olympics had become a global mega event that occupied the attention of the media the interest of the public and the energies of nation states Since then projected by television funded by global capital and fattened by the desires of nations to garner international prestige the Olympics have grown to gargantuan dimensions In the course of its epic history the Olympics have left numerous legacies from unforgettable feats to monumental stadiums from shining triumphs to searing tragedies from the dazzling debuts on the world's stage of new cities and nations to notorious campaigns of national propaganda The Olympics represent an essential component of modern global history The Olympic movement itself has since the 1990s recognized and sought to shape its numerous legacies with mixed success as

this book makes clear It offers ground breaking analyses of the power of Olympic legacies positive and negative and surveys the subject from Athens in 1896 to Beijing in 2008 and indeed beyond This book was published as a special issue of the International Journal of the History of Sport *Crude Politics* Paul Sabin,2005 Paul Sabin offers a study of the oil market in California before World War II showing how the development of an economy society very heavily dependent upon oil production consumption was largely directed by policy decisions regarding property rights regulatory law public investment

Land of Smoke and Mirrors Vincent Brook,2013-01-22 Unlike the more forthrightly mythic origins of other urban centers think Rome via Romulus and Remus or Mexico City via the god Huitzilopochtli Los Angeles emerged from a smoke and mirrors process that is simultaneously literal and figurative real and imagined material and metaphorical physical and textual Through penetrating analysis and personal engagement Vincent Brook uncovers the many portraits of this ever enticing ever ambivalent and increasingly multicultural megalopolis Divided into sections that probe Los Angeles s checkered history and reflect on Hollywood s own self reflections the book shows how the city despite considerable remaining challenges is finally blowing away some of the smoke of its not always proud past and rhetorically adjusting its rear view mirrors Part I is a review of the city s history through the early 1900s focusing on the seminal 1884 novel *Ramona* and its immediate effect but also exploring its ongoing impact through interviews with present day Tongva Indians attendance at the 88th annual *Ramona* pageant and analysis of its feature film adaptations Brook deals with Hollywood as geographical site film production center and frame of mind in Part II He charts the events leading up to Hollywood s emergence as the world s movie capital and explores subsequent developments of the film industry from its golden age through the so called New Hollywood citing such self reflexive films as *Sunset Blvd* *Singin in the Rain* and *The Truman Show* Part III considers LA noir a subset of film noir that emerged alongside the classical noir cycle in the 1940s and 1950s and continues today The city s status as a privileged noir site is analyzed in relation to its history and through discussions of such key LA noir novels and films as *Double Indemnity* *Chinatown* and *Crash* In Part IV Brook examines multicultural Los Angeles Using media texts as signposts he maps the history and contemporary situation of the city s major ethno racial and other minority groups looking at such films as *Mi Familia* *Latinos* *Boyz n the Hood* *African Americans* *Charlotte* *Sometimes Asians* *Falling Down* *Whites* and *The Kids Are All Right* LGBT

Empire of Deception Dean Jobb,2016-01-05 It was a time of unregulated madness And nowhere was it madder than in Chicago at the dawn of the Roaring Twenties Enter a slick smooth talking charismatic lawyer named Leo Koretz who enticed hundreds of people to invest as much as 30 million upward of 400 million today in phantom timberland and nonexistent oil wells in Panama This rip roaring tale of greed financial corruption dirty politics over the top and under the radar deceit illicit sex and a brilliant and wildly charming con man on the town then on the lam is not only a rich and detailed account of a man and an era it s a fascinating look at the methods of swindlers throughout history As Model Ts rumbled down Michigan Avenue gang war shootings announced Al Capone s rise to underworld domination As bedecked partygoers thronged to the Drake Hotel s opulent banquet rooms corrupt politicians held court in thriving speakeasies and the frenzy of stock market gambling was rampant Leo Koretz was the Bernie Madoff of his day and Dean Jobb shows us that the American dream of easy wealth is a timeless commodity A rollicking tale that is one part The Sting one part The Great Gatsby and one part The Devil in the White City Karen Abbott author of Liar Temptress

Soldier Spy Intoxicating and impressively researched Jobb s immorality tale provides a sobering post Madoff reminder that those who think everything is theirs for the taking are destined to be taken The New York Times Book Review Captivating A story that seems to be as American as it can get and it s told well The Christian Science Monitor A masterpiece of narrative set up and vivid language Jobb vividly brings the Chicago of the 1880s and 90s to life Chicago Tribune This cautionary tale of 1920s greed and excess reads like it could happen today The Associated Press
