Radio and the Politics of Sound in Interwar France, 1921-1939 Rebecca P. Scales, 2016-02-24 In December 1921 France broadcast its first public radio program from a transmitter on the Eiffel Tower In the decade that followed radio evolved into a mass media capable of reaching millions Crowds flocked to loudspeakers on city streets to listen to propaganda children clustered around classroom radios and families tuned in from their living rooms Radio and the Politics of Sound in Interwar France 1921-1939 examines the impact of this auditory culture on French society and politics revealing how broadcasting became a new platform for political engagement transforming the act of listening into an important if highly contested practice of citizenship Rejecting models of broadcasting as the weapon of totalitarian regimes or a tool for forging democracy from above the book offers a more nuanced picture of the politics of radio by uncovering competing interpretations of listening and diverse uses of broadcast sound that flourished between the world wars

The Oxford Companion to British Railway History from 1603 to the 1990s Jack Simmons, Gordon Biddle, 1997 This is the first encyclopedia to chart the progress of Britain's railway development It begins with primitive 17th century wagonways fully considers the eras of horse steam diesel and electric traction and then charts the change from private to public ownership Finally it describes in detail the privatizations of the late 1990s Over six hundred entries by eighty eight expert contributors provide a comprehensive and unique reference to all aspects of railways *Trains, Culture, and Mobility*

Benjamin Fraser, Steven D. Spalding, 2012-01-01 *Trains Culture and Mobility* Riding the Rails goes beyond textual representations of rail travel to engage an impressive range of political sociological and urban theory Taken together these essays highlight the complexity of the modern experience of train mobility and its salient relation to a number of cultural discourses Incorporating traditionally marginal areas of cultural production such as graffiti museums architecture or even plunging into the social experience of travel inside the traincar itself each essay constitutes an attempt to work from the act of riding the train toward questions of much larger significance Crisscrossing cultures from the New World and Old from East and West these essays share a common preoccupation with the way in which trains and railway networks have mapped and re-mapped the contours of both cities and states in the modern period Bringing together individual and large scale social practices this volume traces out the cultural implications of Riding the Rails *The Cumulative Book Index*, 1995 A world

British Locomotives at Work Oswald Stevens Nock,1947 *The great diversity* Camilla Brautaset,Christopher M. Dent,2023-09-04 This book brings together scholars from the universities of Bergen and Leeds who explore how we may understand different trajectories of development in Asia arguably the most dynamic and certainly the most diverse part of our world It asserts that there is no one singular truth on understanding development or universal model on prescribing future paths of development Evidence from Asia reminds us that the importance of locality in shaping development has not diminished despite deepening globalisation in the modern era Furthermore by accepting the prevalence of diversity we are able to learn certain lessons of development from each other both within and across scholarly disciplines The book explores how the concept of development is itself highly contested and there exist multiple narratives and discourses on the subject as demonstrated in this book This book does not seek to define development or prescribe a particular method of understanding it in an Asian context Rather it presents a number of works that in their own way touch on the subject of development and it lays bare the inherent diversity of development as an idea practice and experience It is up to the reader to reflect on how the evidence and arguments presented in each chapter resonates or not on their own understanding of development **The Country That Refused to Die** Richard Kwiakowski,2016-08-05 This is not a story about folk dancing pierogies and sausage making It is a story of triumph and despair struggle and joy resolve and persistence The Country That Refused to Die is a nonfiction narrative of the people of Poland written in such fashion as to expose and dispel the millennium of disinformation slander and absence of accomplishments of Poland and its people Its pages cover the creation formation the many contributions and the constant struggle of the people of Poland to defend its way of life and survive against aggressive neighbors that would eliminate them and their culture *General Wladyslaw Sikorski, 1881-1943* Evan McGilvray,2024-11-30 General W adys aw Sikorski was the Head of the wartime Polish Government and Polish Commander in Chief 1939 1943 Sikorski rose to prominence in Poland between 1910 and 1918 as part of the movement towards Polish

independence achieved in 1918 In 1920 Sikorski was largely responsible for the defeat of the Red Army In 1926 he fell from favor following a military coup During this fallow period 1926 1939 Sikorski traveled mainly in France He also wrote influential military science treatises In September 1939 Germany and the Soviet Union invaded and annexed Poland Sikorski his military offices refused by the Polish Government fled to Romania There he was intercepted by the French ambassador to Poland and taken to Paris where he established a Polish Government in Exile and rebuilt the Polish Army In May 1940 France was overrun by Germany Sikorski removed himself and his government to London There he began to re build the Polish army largely lost in France Following the German invasion of the Soviet Union Sikorski was forced by the British Government to accept the Soviets as allies This led to a larger Polish army being formed in the Soviet Union and sent to the Middle East commanded by General Anders who was to become a thorn in Sikorski s side By 1943 the two men were clearly enemies Sikorski died in an air crash off Gibraltar The cause has never been satisfactory established **The British Army and the First World War** Ian Beckett,Timothy Bowman,Mark Connelly,2017-05-25 A comprehensive new history of the shaping and performance of the British army during the First World War
