The Greatest Soviet Peasant War Bolsheviks And Peasants 1917-1933

Dennis J. Dunn

The Greatest Soviet Peasant War Bolsheviks And Peasants 1917-1933:

The Russian Peasantry 1600-1930 David Moon, 2014-07-16 This impressive work set to become the standard history on the subject offers a definitive survey of peasant society in Russia from the consolidation of serfdom and tsarist autocracy in the 17th century through to the destruction of the peasant's traditional world under Stalin. Over three quarters of Russian society were peasants in these years and David Moon explores all aspects of their life, including the rural economy, peasant households, village communities, and their political role including protest against the landowning elites. In the process he presents a fresh perspective on the history of Russia itself. A big book in every way and compellingly readable.

The Russian Revolution and Civil War 1917-1921 Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history. It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves. However, until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature. The Russian Revolution and Civil War 1917-1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history. The Bibliography focuses on the key years of 1917 to 1921, starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921, and covers all the key events of the intervening years. As such, it identifies these crucial years as something more than simply the creation of a communist state. **Popular**

Perceptions of Soviet Politics in the 1920s O. Velikanova, 2013-01-28 This is the first study of popular opinions in Soviet society in the 1920s. These voices, which made the Russian revolution, characterize reactions to mobilization, politics, patriotic militarizing campaigns, the tenth anniversary of the revolution, and state attempts to unite the nation around a new Soviet identity.

A History of Orthodox, Islamic, and Western Christian Political Values Dennis J. Dunn, 2016-09-13 The book reveals the nexus between religion and politics today and shows that we live in an interdependent world where one global civilization is emerging and where the world's peoples are continuing to coalesce around a series of values that contain potent Western overtones. Both Putin's Orthodox Russia and regions under the control of such Islamist groups like ISIS and Al Qaeda resent and attempt in a largely languishing effort to frustrate this series of values. The book explains the current tension between the West and Russia and parts of the Muslim world and sheds light on the causes of such crises as the Syrian Civil War, Russia's aggression against Ukraine, and acts of terrorism such as 9/11 and the ISIS-inspired massacres in Paris. It shows that religion continues to affect global order and that knowledge of its effect on political identity and global governance should guide both government policy and scholarly analysis of contemporary history. **Stalinism and Nazism**

Henry Rousso, Richard Joseph Golsan, 2004-01-01 In this volume Europe's leading modern historians offer new insights into two totalitarian regimes of the twentieth century that have profoundly affected world history: Nazi Germany and the Stalinist Soviet Union. Until now historians have paid more attention to the similarities between these two regimes than to their

differences Stalinism and Nazism explores the difficult relationship between the history and memory of the traumas inflicted by Nazi and Soviet occupation in several Eastern European countries in the twentieth century The first part of the volume explores the origins nature and organization of Hitler s and Stalin s dictatorial power the manipulation of violence by the state systems and the comparative power of the dictator s personal will and the encompassing totalitarian system The second part examines the legacies of the Nazi and Stalinist regimes in Eastern European countries that experienced both Stalinism and Nazism features the latest critical perspectives on two of the most influential and deadly political regimes in modern history

Eastern Europe and the Challenges of Modernity, 1800-2000 Stefano Bianchini, 2015-03-02 This book presents a concise and comprehensive overview of the mainstream flows of ideas politics and itineraries towards modernity in Central and Eastern Europe and the Balkans over two centuries from the beginning of the nineteenth century to the end of the Gorbachev administration Unlike other books on the subject which view modernity based on the idea of Western European supremacy this book outlines the various different pathways of development and of growing industrialisation urbanisation and secularisation which took place across the region It provides rich insights on the complex networks whereby very varied ideas aspirations and policies interacted to bring about a varied pattern of progress and of integration and isolation with different areas moving in different ways and at different paces Overall the book presents something very different from the traditional picture of the two Europes Particular examples covered include agrarian reform movements in various phases different models of socialism and different models of socialist reform

Inscription and Modernity John Kenneth MacKay, 2006-09-19 Inscription and Modernity charts the vicissitudes of inscriptive poetry produced in the midst of the great and catastrophic political social and intellectual upheavals of the late 18th to mid 20th centuries Drawing on the ideas of Geoffrey Hartman Perry Anderson Fredric Jameson and Jacques Rancière among others John MacKay shows how a wide range of Romantic and post Romantic poets including Wordsworth Clare Shelley Hölderlin Lamartine Baudelaire Blok Khlebnikov Mandelstam and Rolf Dieter Brinkmann employ the generic resources of inscription both to justify their writing and to attract a readership during a complex historical phase when the rationale for poetry and the identity of audiences were matters of intense yet productive doubt

The "Russian" Civil Wars, 1916-1926 Jonathan Smele, 2016-01-15 This volume offers a comprehensive and original analysis and reconceptualisation of the compendium of struggles that wracked the collapsing Tsarist empire and the emergent USSR profoundly affecting the history of the twentieth century Indeed the reverberations of those decade long wars echo to the present day not despite but because of the collapse of the Soviet Union which re opened many old wounds from the Baltic to the Caucasus Contemporary memorialising and de memorialising of these wars therefore form part of the book s focus but at its heart lie the struggles between various Russian political and military forces which sought to inherit and preserve or even expand the territory of the tsars overlain with examinations of the attempts of many non Russian national and religious groups to divide the former empire The reasons why some of the

latter were successful Poland and Finland for example while others Ukraine Georgia and the Muslim Basmachi were not as much the author's concern as are explanations as to why the chief victors of the Russian Civil Wars were the Bolsheviks Tellingly the work begins and ends with battles in Central Asia a theatre of the Russian Civil Wars that was closer to Mumbai than it was to Moscow

The Socialist Alternative to Bolshevik Russia Elizabeth White, 2010-10-08 This book examines the role of the Socialist Revolutionary party which had been the largest and most popular party in Russia in 1917 and shows how after the October revolution rather than disappearing led by its leadership in exile it continued to observe and comment on developments in Russia

The Gates of Europe Serhii Plokhy, 2017-05-30 A New York Times bestseller this definitive history of Ukraine is an exemplary account of Europe's least known large country Wall Street Journal As Ukraine is embroiled in an ongoing struggle with Russia to preserve its territorial integrity and political independence celebrated historian Serhii Plokhy explains that today's crisis is a case of history repeating itself the Ukrainian conflict is only the latest in a long history of turmoil over Ukraine's sovereignty Situated between Central Europe Russia and the Middle East Ukraine has been shaped by empires that exploited the nation as a strategic gateway between East and West from the Romans and Ottomans to the Third Reich and the Soviet Union In The Gates of Europe Plokhy examines Ukraine's search for its identity through the lives of major Ukrainian historical figures from its heroes to its conquerors This revised edition includes new material that brings this definitive history up to the present As Ukraine once again finds itself at the center of global attention Plokhy brings its history to vivid life as he connects the nation's past with its present and future

Stalin Oleg V. Khlevniuk, 2015-05-19 An engrossing biography of the notorious Russian dictator by an author whose knowledge of Soviet era archives far surpasses all others Josef Stalin exercised supreme power in the Soviet Union from 1929 until his death in 1953 During that quarter century by Oleg Khlevniuk's estimate he caused the imprisonment and execution of no fewer than a million Soviet citizens per year Millions more were victims of famine directly resulting from Stalin's policies What drove him toward such ruthlessness This essential biography offers an unprecedented fine grained portrait of Stalin the man and dictator Without mythologizing Stalin as either benevolent or an evil genius Khlevniuk resolves numerous controversies about specific events in the dictator's life while assembling many hundreds of previously unknown letters memos reports and diaries into a comprehensive compelling narrative of a life that altered the course of world history In brief revealing prologues to each chapter Khlevniuk takes his reader into Stalin's favorite dacha where the innermost circle of Soviet leadership gathered as their *vozhda* lay dying Chronological chapters then illuminate major themes Stalin's childhood his involvement in the Revolution and the early Bolshevik government under Lenin his assumption of undivided power and mandate for industrialization and collectivization the Terror World War II and the postwar period At the book's conclusion the author presents a cogent warning against nostalgia for the Stalinist era This brilliant authoritative opinionated biography ranks as the best on Stalin in any language Martin McCauley East West Review A historiographical and literary masterpiece Mark

Edele Australian Book Review A very digestible biography yet one packed with revelations Paul E Richardson Russian Life Magazine

Atrocity Labelling Markus P. Beham, 2022-11-03 Atrocity Genocide War crime Crime Against Humanity Such atrocity labels have been popularized among international lawmakers but with little insight offered into how and when these terms are applied and to what effect What constitutes an event to be termed a genocide or war crime and what role does this play in the application of legal proceedings Markus P Beham through an interdisciplinary and comparative approach unpicks these terms to uncover their historical genesis and their implications for international criminal law initiatives concerned with atrocity The book uniquely compares four specific case studies Belgian colonial exploitation of the Congo atrocities committed against the Herero and Nama in German South West Africa the Armenian genocide and the man made Ukrainian famine of the 1930s Encompassing international law legal history and discourse analysis the concept of atrocity labelling is used to capture the meaning underlying the work of international lawyers and prosecutors historians and sociologists agenda setters and policy makers

States of Anxiety William G. Rosenberg, 2023 States of Anxiety assesses the effects of the great scarcities and enormous losses that revolutionary Russia experienced between 1914 and 1921 Focusing on the effects of food insecurity scarcities of other essential goods and the losses of war in their various forms it represents a new approach to understanding the period s politics and ideologies In contrast to the traditional concentration on the period s politics and ideology this imaginative reinterpretation argues for greater attention to its emotional dimensions and contributes to the historical study of emotions and its complex methodologies

Raphaël Lemkin and the Concept of Genocide Douglas Irvin-Erickson, 2016-10-14 Raphaël Lemkin 1900 1959 coined the word genocide in the winter of 1942 and led a movement in the United Nations to outlaw the crime setting his sights on reimagining human rights institutions and humanitarian law after World War II After the UN adopted the Convention on the Prevention and Punishment of the Crime of Genocide in 1948 Lemkin slipped into obscurity and within a few short years many of the same governments that had agreed to outlaw genocide and draft a Universal Declaration of Human Rights tried to undermine these principles This intellectual biography of one of the twentieth century s most influential theorists and human rights figures sheds new light on the origins of the concept and word genocide contextualizing Lemkin s intellectual development in interwar Poland and exploring the evolving connection between his philosophical writings juridical works and politics over the following decades The book presents Lemkin s childhood experience of anti Jewish violence in imperial Russia his youthful arguments to expand the laws of war to protect people from their own governments his early scholarship on Soviet criminal law and nationalities violence his work in the 1930s to advance a rights based approach to international law his efforts in the 1940s to outlaw genocide and his forays in the 1950s into a social scientific and historical study of genocide which he left unfinished Revealing what the word genocide meant to people in the wake of World War II as the USSR and Western powers sought to undermine the Genocide Convention at the UN while delegations from small states and former colonies became the strongest supporters of Lemkin s

law Rapha l Lemkin and the Concept of Genocide examines how the meaning of genocide changed over the decades and highlights the relevance of Lemkin s thought to our own time *The Vanquished* Robert Gerwarth,2016-11-15 An epic groundbreaking account of the ethnic and state violence that followed the end of World War I and shaped the course of the twentieth century Winner of the Tomlinson Book Prize A Times Literary Supplement Best Book of 2016 In *The Vanquished* a highly original and gripping work of history Robert Gerwarth asks us to think again about the true legacy of the First World War In large part it was not the fighting on the Western Front that proved so ruinous to Europe s future but the devastating aftermath as countries on both sides of the original conflict were savaged by revolutions pogroms mass expulsions and further major military clashes In the years immediately after the armistice millions would die across central eastern and southeastern Europe before the Soviet Union and a series of rickety and exhausted small new states would come into being It was here in the ruins of Europe that extreme ideologies such as fascism would take shape and ultimately emerge triumphant As absorbing in its drama as it is unsettling in its analysis *The Vanquished* is destined to transform our understanding of not just the First World War but the twentieth century as a whole *Silent Memories, Traumatic Lives* Lesa Melnyczuk,2012-06-01 *Silent Memories Traumatic Lives* is a quest for understanding an attempt to make sense of the very emotional history of the Ukrainian post war migrants to Western Australia Ukrainian migrants arrived in Australia by ship between 1947 and 1951 from the Displaced Persons camps of Europe survivors of the worst of the Soviet regime s atrocities including genocidal famine and only recently released from forced unpaid labour under the German Nazi regime The testimonies of Ukrainian famine survivors included in this book reflect the findings of similar studies carried out in Ukrainian communities throughout the world This work adds to mounting evidence of the genocidal nature of the Ukrainian famine of 1932 1933 and the lasting effects it has had on survivors *Joseph Stalin and the Art of Tyranny* William Nester,2025-10-30 *Joseph Stalin and the Art of Tyranny* examines authoritarian rule revealing how tyrants sustain power through a mix of comfort terror love and fear often convincing their subjects of their divine purpose Such leaders build systems of loyalists and subservient institutions enabling unchecked authority Joseph Stalin exemplifies this tyranny As Soviet leader from 1929 to 1953 he implemented totalitarian policies nationalizing industry and agriculture controlling economic production through five year plans and eliminating dissent through imprisonment forced labour or execution His brutal regime caused an estimated 20 million deaths Despite this grim legacy Stalin s reputation remains divisive In Western democracies he is remembered as a genocidal dictator but in Russia he often ranks among the most admired historical figures illustrating the paradox of his influence Stalinism served as a model for Communist regimes in China Vietnam and Cuba shaping their governance While many of these nations transitioned toward democracy countries like Russia China and North Korea continue to echo Stalinist practices Modern leaders such as Saddam Hussein Vladimir Putin and Xi Jinping have adopted similar strategies of control *Joseph Stalin and the Art of Tyranny* offers crucial insights into authoritarianism revealing the

enduring appeal and devastating impact of totalitarian rule Persistent Illusions Nóra Veszprémi, 2025-07-15 *Persistent Illusions* examines the visual representation of history in interwar Hungary where interpretations of the past were suffused with references to the country's recent territorial loss. In these images of history, nineteenth-century themes and motifs took on new forms to promote twentieth-century political ideas through the new media of modernity. Nóra Veszprémi illustrates how modernization created resilient imagery that persists in cultural memory through a wide range of paintings, prints, stamps, public spectacles, and monuments. In doing so, she challenges the assumption that the official culture of the right-wing authoritarian regime of Admiral Miklós Horthy was characterized by a superficial revival of historical styles. Instead, she argues that the regime drew on history in complex modern ways that disseminated motifs and ideological frameworks across political divides. By analyzing how ideology shapes enduring concepts of the past through the evocative power of images, *Persistent Illusions* encourages the reader to critically examine the legacies of interwar ideas and imagery in the present day.

Stalin and Mao Lucien Bianco, 2018-03-15 China's ascent to the ranks of the world's second largest economic power has given its revolution a better image than that of its Russian counterpart. Yet the two have a great deal in common. Indeed, the Chinese revolution was a carbon copy of its predecessor until Mao became aware not so much of the failures of the Russian model but of its inability to adapt to an overcrowded third-world country. Yet instead of correcting that model, Mao decided to go further and faster in the same direction. The aftershock of an earthquake may be weaker, but the Great Leap Forward of 1958 in China was far more destructive than the Great Turn of 1929 in the Soviet Union. It was conceived with an idealistic end but failed to take all the possibilities into account. China's development only took off after and thanks to Mao's death, once the country turned its back on the revolution. Lucien Bianco's original comparative study highlights the similarities: the all-powerful bureaucracy, the over-exploitation of the peasantry which triggered two of the worst famines of the 20th century, control over writers and artists, repression and labor camps. The comparison of Stalin and Mao that completes the picture leads the author straight back to Lenin, and he quotes the observation by a Chinese historian that "If at all possible, it is best to avoid revolutions altogether." The Black Book of Communism Stéphane Courtois, 1999 This international bestseller plumbs recently opened archives in the former Soviet bloc to reveal the accomplishments of communism around the world. The book is the first attempt to catalogue and analyse the crimes of communism over 70 years.

The Enigmatic Realm of **The Greatest Soviet Peasant War Bolsheviks And Peasants 19171933**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing lacking extraordinary. Within the captivating pages of **The Greatest Soviet Peasant War Bolsheviks And Peasants 19171933** a literary masterpiece penned by way of a renowned author, readers embark on a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting affect the hearts and minds of people who partake in its reading experience.
