The interfaith movement which began with the 1893 World's Parliament of Religions in Chicago has grown worldwide. Although this movement has been largely unknown to the public, it now provides a spiritual face for globalization, the economic and political forces leading us all from nationalism to One World. The most ambitious organization in today's interfaith movement is the United Religions Initiative (URI) founded by William Swing, the Episcopal Bishop of California. Investigative reporter Lee Penn, a Catholic ex-Marxist, exhaustively documents the history and beliefs of the URI and its New Age and globalist allies, the vested interests that support these movements, and the direction they appear to be taking. The interfaith movement is no longer merely the province of a coterie of little-heeded religious idealists with grandiose visions. The URI's proponents have ranged from billionaire George Soros to President George W. Bush, from the far-right Rev. Sun Myung Moon to the liberal Catholic theologian Hans Küng, and from the Dalai Lama to the leaders of government-approved Protestant churches in the People's Republic of China. The interfaith movement, including the URI, is being promoted by globalist and New Age reformers who favor erosion of national sovereignty, marginalization of traditional religions, establishment of global governance, and creation of a new Earth-based global spirituality, in effect, a one-world religion. Therefore, the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order, the new civilization now proposed by Mikhail Gorbachev, the last leader of the Soviet Union. In *The Reign of Quantity and the Signs of the Times*, French metaphysician René Guénon spoke of the anti-tradition, the forces of materialism and secular humanism finally giving way to the counter-tradition, the satanic inversion of true spirituality leading to the regime of Antichrist. The anti-tradition weakens and dissolves traditional spiritualities, after which the counter-tradition sets up a counterfeit in their place. Since Guénon's time, as is well known, anti-traditional forces have greatly advanced worldwide. It is less well known that counter-traditional movements have also made great strides and now stand closer to the centers of global political and religious power than ever before. The counter-tradition is making inroads on the political and cultural Right as much as it is doing on the Left. *False Dawn* painstakingly documents these trends and speculates on their future development. In so doing, the author takes investigative reporting to the threshold of prophecy and gives us a stunningly plausible picture of the global religious landscape of the 21st century. This extraordinary project is the literary equivalent of turning over a flat rock. There is much to be seen and learned here, all of it unsettling, disquieting, occasionally downright scary. William Murchison Radford, Distinguished Professor, Baylor University: When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods, something has gone horribly wrong. In *False Dawn*, Lee Penn has produced a comprehensive and critical history of the United Religions Initiative. This book sounds a clear warning: Anyone who makes theological truth subservient to utopianism denigrates all religions. Douglas LeBlanc, Editor, GetReligion.org: [Walking Wisdom](#) Gotham Chopra, Deepak Chopra, 2010-10-05. If it wasn't for dogs, some people would never go for a walk. Anonymous: Gotham Chopra considers himself a pretty average guy. He devours pizza, lives and dies by his hometown teams, and watches

Kung Fu Panda with his son daily But his childhood wasn't quite so average Growing up Gotham was exposed to the deepest reservoirs of knowledge that his famous father Deepak could find his childhood was part spiritual part scientific and totally unique Now a newly minted father himself he's contemplating the influences he wants to draw on for his own son The first was no surprise his father The second was unexpected his dogs From Nicholas the blaze of energy and anarchy who turned the family upside down to Cleo a rescue mutt with food issues the Chopra dogs taught the family about curiosity and wisdom open mindedness and passion not to mention loyalty and pig's ears But what else Gotham wondered And how did these lessons compare to the ones that Deepak himself imparted Gotham would soon find out When his mother took an unexpected trip to India and leaves instructions to look after Papa father and son have an opportunity for male bonding on a big scale That this bonding takes place on their daily walks seems almost natural After all Gotham also had in his care a nervous dog and an exuberant toddler both with an insatiable need for exercise and exploration So Gotham and Deepak walk and talk discussing the laughs and licks that come with having a dog along with the contradictions complexities and consequences of having children They soon realize the qualities they observe and admire most in their pets are values we humans would do well to nurture within ourselves They discover that our best friends have a lot to teach us Gotham and Deepak's message may seem simple but therein lies its brilliance Heartfelt endearing and above all down to earth Walking Wisdom offers readers both enlightenment and comfort with a little bit of mayhem thrown in for good measure
