## **The Greek Way Of Death:**

**The Greek Way of Death** Robert Garland, 2001 Death for the Greeks was not an instantaneous event rather a process or passage which required strenuous efforts on the part of the living to ensure that the dead achieved full and final transfer to the next world The central questions which this book attempts to answer are the extent to which death was a preoccupying concern among the Greeks the feelings with which the individual may have anticipated his death the nature of the bonds between the living and the dead and the light shed by burial practices upon characteristic elements of Greek society While the beliefs of ordinary Greeks about their ordinary dead form the book's central focus there is also a chapter on special dead the unburied murderers and their victims children and suicides **BOOK JACKET** **The Greek Way of Death** Robert

Garland, 1988 **The Greek Way of Life** Robert Garland, 1990 Life After Death Alan Segal, 2010-06-23 A magisterial work of social history Life After Death illuminates the many different ways ancient civilizations grappled with the question of what exactly happens to us after we die In a masterful exploration of how Western civilizations have defined the afterlife Alan F Segal weaves together biblical and literary scholarship sociology history and philosophy A renowned scholar Segal examines the maps of the afterlife found in Western religious texts and reveals not only what various cultures believed but how their notions reflected their societies realities and ideals and why those beliefs changed over time He maintains that the afterlife is the mirror in which a society arranges its concept of the self The composition process for Judaism Christianity and Islam begins in grief and ends in the victory of the self over death Arguing that in every religious tradition the afterlife represents the ultimate reward for the good Segal combines historical and anthropological data with insights gleaned from religious and philosophical writings to explain the following mysteries why the Egyptians insisted on an afterlife in heaven while the body was embalmed in a tomb on earth why the Babylonians viewed the dead as living in underground prisons why the Hebrews remained silent about life after death during the period of the First Temple yet embraced it in the Second Temple period 534 B C E 70 C E and why Christianity placed the afterlife in the center of its belief system He discusses the inner dialogues and arguments within Judaism and Christianity showing the underlying dynamic behind them as well as the ideas that mark the differences between the two religions In a thoughtful examination of the influence of biblical views of heaven and martyrdom on Islamic beliefs he offers a fascinating perspective on the current troubling rise of Islamic fundamentalism In tracing the organic historical relationships between sacred texts and communities of belief and comparing the visions of life after death that have emerged throughout history Segal sheds a bright revealing light on the intimate connections between notions of the afterlife the societies that produced them and the individual's search for the ultimate meaning of life on earth **Radical Future Pasts** Romand Coles, Mark Reinhardt, George Shulman, 2014-06-17 Written by both well established and rising new scholars Radical Future Pasts seeks to open up new possibilities for the practical application of political thought Unlike conventional state of the discipline collections this volume does not summarize where

the field of political theory has been Rather than accept traditional versions of the political past the contributors reinterpret both canonical and current texts to demonstrate how politics can be theorized and applied in new ways **Death in**

**Second-Century Christian Thought** Jeremiah Mutie,2015-03-24 Death in Second Century Christian Thought explores how the meaning of death was conceptualized in this crucial period of the history of the church Through an exploration of some key metaphors and other figures of speech that the early church used to talk about this interesting but difficult topic the author argues that the early church selected modified and utilized existing views on the subject of death in order to offer a distinctively Christian view of death based on what they believed the word of God taught on the subject particularly in light of the ongoing story of Jesus following his death his burial and resurrection In short the book shows how Christians interacted with the views of death in late antiquity coming up with their own distinctive view of death **The Greek Way**

**Afterlife in Medieval Christian Thought** Jeremiah Mutie,2025-07-29 Death and Afterlife in Medieval Christian Thought explores how medieval Christians conceived the changing ideas of death and what happens thereafter to both the material and immaterial aspects of a person Where much scholarship has addressed this topic from a Western point of view this book asks how these ideas emerged and progressed over this long period of time in both Western and Eastern medieval Christianities The work examines the two leading motifs of death and the afterlife in Western medieval Christian thought Purgatory and the cult of the saints It then proceeds to shift the spotlight to conceptions of death in Eastern Christianity all the while maintaining a comparative approach This book not only delves into the theoretical but draws on archaeological evidence such as artefacts to provide a broader view of the evidence Ultimately it finds that medieval Christians continued the process that started in Christianity s earliest days of borrowing and modifying existing ideas of death and the afterlife in order to produce a distinctive and sophisticated Christian set of beliefs As an accessible introduction this book stands as a valuable resource to students scholars and all readers interested in early medieval Christianity the history of ideas and the history of death **The Routledge Companion to Death and Literature** W. **Death-Ritual and Social Structure in Classical Antiquity** Ian Morris,1992-10-22 In this innovative book Dr Morris seeks to show the many ways in which the excavated remains of burials can and should be a major source of evidence for social historians of the ancient Graeco Roman world Burials have a far wider geographical and social range than the surviving literary texts which were mainly written for a small elite They provide us with unique insights into how Greeks and Romans constituted and interpreted their own communities In particular burials enable the historian to study social change Ian Morris illustrates the great potential of the material in these respects with examples drawn from societies as diverse in time space and political context as archaic Rhodes classical Athens early imperial Rome and the last days of the western Roman empire

Gregory Jenks, 2015-11-16 While many books are written on Jesus's death a gap exists in writings about the theological significance of a believer's death particularly in imitation of Jesus's Paul as a first apostolic witness who talked frequently about his own death serves as a foundational model for how believers perceive their own death While many have commented about Paul's stance on topics such as forensic righteousness and substitutionary atonement less is written about Paul's personal experience and anticipation of his own death and the merit he assigned to it *Paul and His Mortality* Imitating Christ in the Face of Death explores how Paul faced his death in light of a ministry philosophy of imitation as he sought to imitate Christ in his life so he would imitate Christ as he faced his death In his writings Paul acknowledged his vulnerability to passive death as a mortal that at any moment he might die or come near death He gave us some of the most mournful and vitriolic words about how death is God's and our enemy But he also spoke openly about choosing death My aim is to know him to be like him in his death This study seeks to show that Paul embraced death as a follower and imitator of Christ because the benefits of a good death supersede attempts at self preservation For him embracing death is gain because it is honorable because it reflects ultimate obedience to God and because it is the reasonable response for those who understand that only Jesus's death provides atonement Studying mortality is paradoxically a study of life Peering at the prospect of life's end energizes life in the present This urgency focuses on living with mission in step with God the Creator and Sustainer of life who is rightly referred to as Life itself By focusing on mortality we focus on Paul's theology of life in its practical aspects in particular living life qualitatively aware of God's kingdom and mission and
