Greyhound handicapping is an art not a science Dog racing is a puzzle and the more pieces you have the easier it is to put it all together and see the big picture Eb doesn't claim to be an expert just someone who has put in a lot of time and effort to learn the art of handicapping greyhound races Eb has been researching United States greyhound tracks for over four decades and shares the knowledge he's gained with race fans who want to win more and lose less at the greyhound track Book 1 starts with an article about what works and what doesn't at the greyhound track and ends the article section with a look at insider tips and how they can help you win In between those articles you'll find Eb's opinions about form speed whether you should bet on dogs that are moving up or moving down whether kennel statistics matter and how age affects the racing greyhound Following the articles there are three mini systems that are a fun way to play the dogs when you don't want to or can't handicap thoroughly In Book 2 Eb starts off by writing about something that you might not connect with dog racing race shapes Horse players are more likely to know what they are and use them to win more at the track But greyhound players can use them too although few do It's one more little piece of the handicapping puzzle that gives you an edge over the crowd From which dogs are phonies and why to how to use the break to pick winners Eb writes as if he's sitting beside you at the track sharing what he knows with a friend Book 3 has articles on winners that lose spot plays and how to spot them smarter superfecta betting and trifecta angles There's even an article that tells you how to use a single penny to improve your handicapping skills Read another article to find out if you're one of the few people besides Eb who spots what it is that changes everything at the track but almost no one notices it If you're not I guarantee that you won't miss it the next time you go to the track because you'll be looking for it The nine mini systems are just for fun but might be just the thing for a day out at the track when you don't want to or don't have time to handicap At the end of the books there's a long list of links to greyhound handicapping resources that can help anyone handicap better and smarter Filled with tidbits of handicapping wisdom and with tips angles and advice that will help you handicap smarter these are 3 books that should be on every handicapper's shelf Get all three in one volume while the price is right
