

The Grotesque in literature

Oxford English Dictionary:

1. a. A kind of decorative painting or sculpture, consisting of **representations of portions of human and animal forms**, fantastically combined and interwoven with foliage and flowers.
- b. A work of art in this style. Chiefly *pl.*, figures or designs in grotesque; in popular language, figures or designs characterized by **comic distortion or exaggeration**. The Italian form *grottesco* is sometimes used.

from Wikipedia: the strange, fantastic, ugly, incongruous, unpleasant, or disgusting . . . often used to describe weird shapes and distorted forms. In art, performance, and literature, *grotesque* may also simultaneously invoke in an audience a feeling of **uncomfortable bizarreness and empathic pity**.

Rémi Astruc has argued that although there is an immense variety of motifs and figures, the three main tropes of the grotesque are **doubleness, hybridity and metamorphosis**. Beyond the current understanding of the grotesque as an aesthetic category, he demonstrated how the grotesque functions as a fundamental **existential experience**

associated with many artistic genres from the Gothic to the danse macabre Shun Liang Chao's new study adopts a rigorous approach by establishing contradictory physicality and the notion of metaphor as two keys to the construction of a clear identity of the grotesque With this approach Chao explores the imagery of Richard Crashaw Charles Baudelaire and René Magritte as individual exemplars of the grotesque in the Baroque Romantic and Surrealist ages in order to suggest a lineage of this curious aesthetic and to cast light on the functions of the visual and of the verbal in evoking it *To honor Roman Jakobson : essays on the occasion of his 70. birthday, 11. Birth of the Grotesque Scott Weiss, 2019 This dissertation argues for shared dynamics within visual and literary culture in the Neronian period By analyzing literary texts and Fourth Style wall paintings my project reveals overlapping aesthetics in different media through an exploration of three essential themes 1 the conflation of fantasy and reality 2 the prevalence of hybrid forms and 3 a style

that accentuates ornament In these areas diverse cultural artifacts emerge as participants in a collective mode of display As a hermeneutic framework for making these connections I employ theories of the grotesque a concept rooted in the Renaissance reception of Nero's Domus Aurea Around 1480 antiquarians uncovered the subterranean ruins of the structure and in these grottoes they marveled at wall paintings they named grottesche Artists such as Pinturicchio and Raphael emulated these ancient forms to create a new artistic style which over the centuries became broadly associated with the strange and fantastic as it developed into what we now call the grotesque In my work I define the grotesque as a mode of representation that disrupts normative ways of comprehending the world It challenges preconceived notions about the stability of natural forms and provides alternative strategies for representing reality By considering the grotesque I help explain the Neronian predilection for fanciful and sometimes repulsive imagery as a desire to challenge expectations and to expand aesthetic limits
