Long-range Plan United States. undermine transnational rule of law and effective regulation of market failures governance and constitutional failures Protecting the WTO legal and dispute settlement system remains essential for SDGs such as climate change mitigation measures and access to medical supplies and vaccines in global health pandemics Investment law and adjudication must better reconcile governmental duties to protect human rights and decarbonize economies with the property rights of foreign investors The constitutional human rights and environmental litigation in Europe enhances the legal accountability of democratic governments for protecting sustainable development However European economic constitutionalism has been rejected by neoliberalism China's authoritarian state capitalism and many developing countries governments The more that regional economic orders like the China led Belt and Road networks reveal heterogeneity and power politics block UN and WTO reforms the more the US led neoliberal world order risks disintegrating UN and WTO law must promote private public network governance and civil society participation in order to stabilize and depoliticize multilevel governance that protects SDGs and global public goods
