school librarian Mr Rogers has been taken captive by a band of demons known as the Desrai But even with their combined forces can the two save Rogers from the clutches of evil **A Door between Us** Ehsaneh Sadr,2020-09-01 Weddings always have their fair share of drama but this one comes on the heels of the highly controversial 2009 Iranian election and ensuing Green Wave protests When the matriarch of Sarah s family arranged her marriage to Ali it was with the intention of uniting two compatible families However as the 2009 election becomes contentious political differences emerge and Sarah s conservative family tries to call off the wedding Sarah and Ali however have fallen in love and against the wishes of their parents insist on going through with the marriage Sarah s cousin Sadegh is a staunch supporter of the government and a member of the Basij the volunteer militia tasked with arresting protestors and shutting down speech against the regime Meanwhile Ali s sister Azar is an activist a divorce attorney and a passionate Green Wave supporter trying to enact change in a way that many Iranians see as inflammatory When Sarah impulsively shelters a protestor in their car on the drive home from her wedding she sets off a chain of events that can either unmask the government s brutality or ruin them all Sarah Sadegh and Azar s stories weave together in an unflinching humorous and at times terrifying story that demonstrates that even as the world is falling apart around us choices matter *A dialogue on "Free Church door", between the Rev.*

A Proposed New Handbook for the Federal Emergency Management Agency Carsten M. Haaland, 1981 This handbook is proposed to replace the portion of the current Handbook for Radiological Monitoring that deals with protection of people in shelters from radiation from fallout resulting from nuclear war Basic information at a high school level is given on how to detect nuclear radiation how to find and improve the safest places in a shelter the necessity for and how to keep records on individual radiation exposures and how to minimize exposures Several new procedures are introduced some of which are based more on theoretical considerations than on actual experiments These procedures include 1 the method of time averaging radiation readings taken with one instrument in different locations of a large shelter while fallout is coming down and radiation levels are climbing too rapidly for direct comparison of readings to determine the safest location 2 the method of using one's own body to obtain directionality in radiation readings taken with a standard Civil Defense survey meter 3 the method of using mutual shielding to reduce the average radiation exposure to shelter occupants and 4 the ratio method for estimating radiation levels in hazardous areas
