Alina Rubí ,2025-08-22 Astrology is an exact holistic science In Antiquity and throughout the Middle Ages one had to study for many years to become an astrologer As the mother of sciences astrology was considered the foundation of knowledge seven years of astrological study were required before pursuing medicine architecture painting or any other discipline Far from being superstition astrology is the perfect complement to any personal growth practice It offers you the opportunity to understand your life mission why you are here in this reincarnation and what challenges your soul has chosen to face In other words it gives you the map of your life through your natal chart Your birth chart allows you to know yourself at a much deeper level It can help you understand why you struggle to find your ideal partner why your relationships are short lived or confirm whether you made the right decision in an important matter It can shed light on conflicts with family members explain crises in your career or reveal the lessons hidden behind repeated life patterns The natal chart not only tells you the why and the what for of a situation it also guides you toward the how and when these matters will be resolved It marks the turning points the changes your soul is asking you to make and the path toward greater awareness and fulfillment
