Pivot of Power Paul Strangio, Paul 't Hart, James Walter, 2017-08-28 The prime ministership remains the main prize in Australian politics but it is a precarious one Leadership turnover in recent years has seen more prime ministers rise and fall than at any time since the decade after federation What explains this volatility The Pivot of Power is the second volume in a unique blend of collective biography and institutional history that shows the skills limitations and passions of incumbents are only part of the story The ways in which prime ministers thrive and fail are influenced by the resources at their command the evolving nature of the parties they lead the daunting public expectations they face under a relentless media gaze and the challenges that history throws at them Recent changes in these areas have had a destabilising effect and made the role of prime minister more onerous than ever After decades of strong national leadership the office has rarely seemed quite so confounding as it does for its contemporary holders The Pivot of Power explains how this has come about And its rich account of prime ministerial fortune since the mid twentieth century yields historical lessons for overcoming the current malaise

Alan the Red Fox Reid Ross Fitzgerald, Stephen Holt, 2010 Arguably Australia's most influential political journalist Alan The Red Fox Reid covered Australian politics from the 1930s to the 1980s During his career he was both a chronicler of and a player in Australian politics In this book Ross Fitzgerald and Stephen Holt take us into a Machiavellian behind the scenes world of recurrent plots crises and leadership challenges and show how it was possible for a skilled journalist to help shape both public perceptions and actual outcomes of political power plays

Inside the Canberra Press Gallery Rob Chalmers, 2011-10-01 Before television radio and later the internet came to dominate the coverage of Australian politics the Canberra Press Gallery existed in a world far removed from today's 24 hour news cycle spin doctors and carefully scripted sound bites This historical memoir of a career reporting from The Wedding Cake of Old Parliament House offers a rare insider's perspective on both how the gallery once operated and its place in the Australian body politic Using some of the biggest political developments of the past fifty years as a backdrop Inside the Canberra Press Gallery Life in the Wedding Cake of Old Parliament House sheds light on the inner workings of an institution critical to the health of our parliamentary democracy Rob Chalmers 1929-2011 entered the Federal Parliamentary Press Gallery in 1951 as a twenty one year old reporter for the now defunct Sydney Daily Mirror and would retire from political commentary 60 years later an unprecedented career span in Australian political history No parliamentary figure politician bureaucrat or journalist can match Chalmers experience from his first Question Time on 7 March 1951 until desperately ill he reluctantly retired from editing the iconic newsletter Inside Canberra sixty years four months and eighteen days later As well as being considered a shrewd political analyst Chalmers was a much loved member of the gallery and a past president of the National Press Club Rob Chalmers used to boast that he had outlasted 11 prime ministers and a 12th Julia Gillard described him as one of the greats of Australian political journalism upon his passing Rob Chalmers is survived by his wife Gloria and two children from a

previous marriage Susan and Rob jnr      **Nuclear Proliferation and the Psychology of Political Leadership** Kelly O'Reilly, 2014-09-15 This book offers a novel approach to understanding the puzzle of nuclear proliferation by examining how leaders beliefs and perceptions about the international system influence states decisions to acquire nuclear weapons Today there is a persisting dilemma over the spread of nuclear weapons for both practitioners and scholars of international affairs Uncertainty remains whether determined proliferators can be stopped as shown by the cases of North Korea and Iran These instances of proliferation raise questions about regional stability the use of pre emptive military action and the potential for reactive proliferation by neighbouring countries Despite the serious implications surrounding the spread of these weapons proliferation scholarship has thus far failed to solve what has been described as the proliferation puzzle why do some countries choose nuclear weapons while others do not The author argues that understanding basic psychological motivations such as the role of power and perceptions of self and others forms a strategic context which provides answers about a leader s willingness to proliferate Proliferation willingness is a critical yet frequently overlooked part of the proliferation equation Ultimately it is the combination of willingness and proliferation opportunity i e technical and scientific capabilities that determines whether a country goes nuclear By examining several historical instances of proliferation decision making in South Africa India Libya and Australia the book s findings highlight the fundamental role of leaders beliefs in shaping proliferation outcomes This book will be of much interest to students of nuclear proliferation political psychology security studies and IR in general      **Murdoch's Flagship** Denis Cryle, 2008-01-12 Murdoch s Flagship provides the first in depth overview of the Australian mapping its uneven and uncharted progress across its first three decades While the Fairfax and Packer media groups have received detailed historical coverage over the years Rupert Murdoch s News Limited and the Australian have not been given the same systematic attention by historians Denis Cryle draws on a vast amount of secondary print material his own extensive interviews with past and present staff and a detailed reading of the Australian s newspaper files to capture the vitality of the newspaper over three seminal decades      The Biographical Dictionary of the Australian Senate F. **Power Of Speech** James Curran,2014-07-18 The subjects of this book are five fascinating prime ministers Gough Whitlam Malcolm Fraser Bob Hawke Paul Keating and John Howard and how they view Australia Until the 1960s our nation believed itself to be British Then during a decade of momentous change this concept of our national identity collapsed It was buried by the forces of cultural and political renewal by disturbing and exciting developments in Asia and by a dawning recognition that the global era of colonial power was over The result was a crisis of national meaning reflected in public debates about multiculturalism Australia s relationships with its Asian neighbours the dispossession of indigenous Australians and the nation s involvement in war In recent years our political leaders have played a conspicuous role in the controversy In The Power of Speech James Curran explores the end of the idea of British Australia and how successive prime ministers have attempted to assert personal and often competing visions of Australian nationalism in its place This highly original study of prime ministerial rhetoric exposes the sources of our most powerful leaders beliefs about Australia

*How Journalism Uses History* Martin Conboy, 2013-09-13 *How Journalism Uses History* examines the various ways in which journalism uses history and historical sources in order to better understand the relationships between journalists historians and journalism scholars It highlights the ambiguous overlap between the role of the historian and that of the journalist and underlines that there no longer seems to be reason to accept that one begins only where the other ends With Journalism Studies as a developing subject area throughout the world journalism history is becoming a particularly vivacious field As such *How Journalism Uses History* argues that if historical study of this kind is to achieve its full potential there needs to be a fuller and more consistent engagement with other academics studying the past political social and cultural historians in particular but also scholars working in politics sociology literature and linguistics Contributors in this book discuss the core themes which inform history s relationship with journalism from a wide range of geographical and methodological perspectives They aim to create more ambitious conversations about using journalism both as a source for understanding the past and for clarifying ideas about its role as constituent of the public sphere in using discourse and tradition to connect contemporary audiences with history This book was originally published as a special issue of *Journalism Practice*
