Beholding Violence in Medieval and Early Modern Europe Allie Terry-Fritsch, 2017-07-05 Interested in the ways in which medieval and early modern communities have acted as participants observers and interpreters of events and how they ascribed meaning to them the essays in this interdisciplinary collection explore the concept of beholding and the experiences of individual and collective beholders of violence during the period Addressing a range of medieval and early modern art forms including visual images material objects literary texts and performances the contributors examine the complexities of viewing and the production of knowledge within cultural political and theological contexts In considering new methods to examine the process of beholding violence and the beholder s perspective this volume addresses such questions as How does the process of beholding function in different aesthetic conditions Can we speak of such a thing as the period eye or an acculturated gaze of the viewer If so does this particularize the gaze or does it risk universalizing perception How do violence and pleasure intersect within the visual and literary arts How can an understanding of violence in cultural representation serve as means of knowing the past and as means of understanding and potentially altering the present

**Old Italian Masters** William James Stillman, 1892 Classic Wilhelm Lübke, 1878 **The Killing Room** Christobel Kent, 2015-08-15 When private investigator Sandro Cellini is invited to attend a glamorous launch party for a luxury residence overlooking the glittering expanse of Florence he has no idea what he s walking into Behind the

ancient and luxurious facade of Palazzo San Giorgio there lies a series of terrible secrets an old torture chamber hidden for centuries in the bowels of the building and a much more recent malevolence The former head of security for this elite development has just died under suspicious circumstances and Sandro finds himself quite literally stepping into dead man s shoes He soon discovers that other unsavory incidents have tainted the prestigious opening When one of the residents is found murdered in her room events begin to spiral out of control Sandro must work to untangle the complex web of relationships that exists between residents and staff to unmask a deadly killer in this superb new Florentine mystery by Christobel Kent     Rabbi Judah Moscato and the Jewish Intellectual World of Mantua in the 16th-17th Centuries Giuseppe Veltri,Gianfranco Miletto,2012-03-02 Judah ben Joseph Moscato c 1533 1590 was one of the most distinguished rabbis authors and preachers of the Italian Jewish Renaissance This volume is a record of the proceedings of an international conference organized by the Institute of Jewish Studies at Halle Wittenberg Germany and Mantua s State Archives It consists of contributions on Moscato and the intellectual world in Mantua during the 16th and 17th centuries     **Florence** Grant Allen,1906     *Florence* Charles Grant B. Allen,Grant Allen,1897     *Con Che Soavità* Iain Fenlon,Tim Carter,1995 Music in 17th and early 18th century Italy was wonderfully rich and varied in theatrical and secular vocal chamber music alone we saw the rise of the solo song and cantata and the birth and growth of opera all establishing important new structural and expressive paradigms But this was also a complex time of uncertainty and change as old and new interacted in subtle and often surprising ways There is still much to document explore and explain in terms of composers and repertoires and their multi layered contexts This collection of essays by European British and American musicologists seeks to consolidate the recent growth interest in seventeenth century studies It includes discussions of leading composers d India Monteverdi Rovetta Steffani Albinoni Vivaldi and Handel repertoires chamber laments staged balli and operatic mad scenes geographical issues the arrival of Neapolitan opera in Venice institutional contexts and iconography Inspiration for the book was drawn from the poineering research of Nigel Fortune to whom the volume is dedicated on his 70th birthday     *Florence* John Charles Van Dyke,1927     **The Boston Review** ,1861     **Paris** Charles Grant B. Allen,Grant Allen,1903     *Inspiring air: A history of air-related science* Pere Grapí,2019-07-15 Eudiometers were instruments originally devised for checking the goodness of common air Seeking to be more than just a chronological inventory of eudiometers this book presents a unique retrospective of these fascinating apparatuses from the end of the eighteenth century to the mid nineteenth century By paying particular attention to the experimental procedures involved over the course of the test this book aims to understand and explore how eudiometers function to describe the materials used in making them and the different reagents employed in each eudiometrical test Importantly eudiometers were employed within a variety of spheres including human and animal health gas analysis chemical theory plant and animal physiology atmospheric composition chemical compound composition gas lighting chemical revolution and experimental demonstration Finally this book looks to redress the existing imbalance in

the history of chemistry regarding the attention given to theoretical aspects of chemistry in comparison to chemical practice and apparatus The few existing accounts of chemical devices written in the past century have not been sufficiently helpful for the understanding of experimental practice in chemistry Until now no work that deals exclusively with eudiometers and gas analysis from a historical standpoint has been published Thus this book will not only cast new light on the subject but will also contribute to further research on the history of chemical instruments
