**Capitalism and Colonialism: The Making of Modern Canada 1890-1960** Bryan D. Palmer,2025-09-02 This second

volume of Bryan Palmer's history of Canada covers 1890 to 1960. Weaving together themes that include business, labour, politics and social history, this account brings the experiences of Indigenous peoples into the centre of the narrative. Canada experienced extraordinary growth during these decades, notably after the Second World War when many Canadians quickly became far better off. Yet vast inequalities persisted. Indigenous peoples experienced ongoing and often worsening deprivation and ordinary people saw little or no real improvement in their lives. These realities set the stage for the interplay of reform, resistance and reaction that followed after 1960. Palmer examines the continuing role of capitalism and colonialism in structuring Canada in the period between 1890 and 1960, from capital's conflicts and fragile ententes with labour to the struggles of Indigenous Peoples and francophone Canada and the changing role of Canadian capital internationally. Relying on the work of scholars who have produced a vast academic literature on a wide range of topics in Canadian history, Bryan Palmer offers a new history of Canada which reflects the knowledge and values of 21st century Canadians. **Framing**

**Canadian Federalism** Dimitry Anastakis, Penny Bryden, 2009-06-07. *Framing Canadian Federalism* assembles an impressive range of scholars to consider many important issues that relate to federalism and the history of Canada's legal, political and social evolution. Covering themes that include the Supreme Court of Canada, changing policies towards human rights, First Nations as well as the legendary battles between Mitchell Hepburn and W. L. Mackenzie King, this collection illustrates the central role that federalism continues to play in the Canadian polity. Editors Dimitry Anastakis and P. E. Bryden and the volume's contributors demonstrate the pervasive effects that federalism has on Canadian politics, economics, culture and history and provide a detailed framework in which to understand contemporary federalism. Written in honour of John T. Saywell's half century of accomplished and influential scholarly work and teaching, *Framing Canadian Federalism* is a timely and fitting tribute to one of the discipline's foremost thinkers. *The Welfare State in Canada* Allan Moscovitch, Theresa Jennissen, Peter Findlay, 1983-11-16. income distribution and population and other factors that created the ultimate economic depression      *Labour at the Lakehead* Michel S. Beaulieu, 2011-05-07 In the early twentieth century the Canadian Lakehead was known as a breeding ground for revolution a place where harsh conditions in dockyards lumber mills and railway yards drove immigrants into radical labour politics This intensely engaging history reasserts Northwestern Ontario's rightful reputation as a birthplace of leftism in Canada by exposing the conditions that gave rise to an array of left wing organizations including the Communist Party the One Big Union and the Industrial Workers of the World Yet as Michel Beaulieu shows the circumstances and actions of Lakehead labour especially those related to ideology ethnicity and personality were complex they simultaneously empowered and fettered workers in their struggles against the shackles of capitalism Cultural ties helped bring left wing ideas to Canada but as each group developed a distinctive vocabulary of socialism Anglo Celtic workers defended their privileges against Finns Ukrainians and Italians At the Lakehead ethnic difference often outweighed class solidarity at the cost of a stronger labour movement for Canada      *The Making of the Mosaic* Ninette Kelley, M. Trebilcock, 2010-10-02 Immigration policy is a subject of intense political and public debate In this second edition of the widely recognized and authoritative work *The Making of the Mosaic* Ninette Kelley and Michael Trebilcock have thoroughly revised and updated their examination of the ideas interests institutions and rhetoric that have shaped Canada's immigration history Beginning their study in the pre Confederation period the authors interpret major episodes in the evolution of Canadian immigration policy including the massive deportations of the First World War and Depression eras as well as the Japanese Canadian internment camps during World War Two New chapters provide perspective on immigration in a post 9 11 world where security concerns and a demand for temporary foreign workers play a defining role in immigration policy reform A comprehensive and important work *The Making of the Mosaic* clarifies the attitudes underlying each phase and juncture of immigration history providing vital perspective on the central issues of immigration policy that continue to confront us today
