*The Great Embroideries of Bukhara* Michael Franses, 2000-01-01      **The Great Embroideries of Bukhara ,      The Art of Gold Embroidery from Uzbekistan** Suzanne Pennell, 2015-03-25 Since ancient times Samarkand and Bukhara have been thriving centres of craft production due to their location on the main routes of the ancient Silk Road The commercial religious and political experience of these oasis cities had major lasting influences on craft production Gold embroidery was no exception Detailed examination of historical sources related to gold embroidery or zarduzi showed that until the Bolshevik Revolution in 1917 consumption of gold embroidery was restricted to the wealthy middle class and court elites It was most spectacularly employed in displays of power and wealth among the courts of the Emirs before the Russian invasion in 1868 and was produced by ustos or masters in court ateliers Follow zarduzi to the present day      **Socio-Environmental**

**Dynamics along the Historical Silk Road** Liang Emlyn Yang, Hans-Rudolf Bork, Xiuqi Fang, Steffen Mischke, 2019-02-27 This open access book discusses socio environmental interactions in the middle to late Holocene covering specific areas along the ancient Silk Road regions Over twenty chapters provide insight into this topic from various disciplinary angles and perspectives ranging from archaeology paleoclimatology antiquity historical geography agriculture carving art and literacy The Silk Road is a modern concept for an ancient network of trade routes that for centuries facilitated and intensified processes of cultural interaction and goods exchange between West China Central Asia the Middle East and the Mediterranean Coherent patterns and synchronous events in history suggest possible links between social upheaval resource utilization and climate or environment forces along the Silk Road and in a broader area Post graduates in studying will benefit from this work as well as it will stimulate young researchers to further explore the role played by the environment in long term socio cultural changes      *Needlework through History* Catherine Amoroso Leslie, 2007-04-30 Needlework serves functional purposes such as providing warmth but has also communicated individual and social identity spiritual beliefs and aesthetic ideals throughout time and geography Needlework traditions are often associated with rituals and celebrations of life events Often overlooked by historians practicing needlework and creating needlework objects provides insights to the history of everyday life Needlework techniques traveled with merchants and explorers creating a legacy of cross cultural exchange Some techniques are virtually universal and others are limited to a small geographical area Settlers brought traditions which were sometimes re invented as indigenous arts This volume of approximately 75 entries is a comprehensive resource on techniques and cultural traditions for students information professionals and collectors      **Modernity of Tradition** Gabriele Mentges, Lola Shamukhitdinova, 2013 Usually advertising formulas which fix Uzbekistan in a transfigured oriental past of long ago perfect for the travel industry prefer to forget that there is also a modern Uzbekistan in which as some researchers suggest a new Silk Road is beginning to evolve The present volume intends to provide an initial insight into these evolving connections and processes on the one hand to present the textile facets that they encompass and on the other

**Textiles as National Heritage: Identities, Politics and Material Culture** Gabriele Mentges, Lola Shamukhitdinova, 2017 The edited volume discusses the role of textile heritage in relation to the dynamics of nation building cultural identity politics economy and the globalization of markets It was sparked by a research project investigating the role of textiles textile design and contemporary fashion in the post Soviet societies of Central Asia and also includes perspectives on similar developments in Algeria and Peru in order to question dichotomous narrations of modernity relations between textile cultures and heritage building cultural property and the concept of cultural heritage Thus this book intends to stimulate the ongoing debate about textile culture as national heritage or as means of nation branding

*History of civilizations of Central Asia* Adle, Chahryar, Baipakov, Karl M., Habib, Irfan, UNESCO, 2003-12-31 The period treated in this volume is highlighted by the slow retreat of nomadism and the progressive increase of sedentary polities owing to a fundamental change in military technology Furthermore this period certainly saw a growing contrast in the pace of economic and cultural progress between Central Asia and Europe The internal growth of the European economies and the influx of silver from the New World gave Atlantic Europe an increasingly important position in world trade and caused a major shift in inland Asian trade Thus 1850 marks the end of the total sway of pre modern culture as the extension of colonial dominance was accompanied by the influx of modern ideas
