

A close-up, slightly angled view of the blue field of an American flag, showing numerous white five-pointed stars. The flag is positioned on the left side of the frame, with its edge curving towards the bottom left corner. The background is a dark, textured surface, possibly a chalkboard, which occupies the right two-thirds of the image. At the very bottom, a horizontal strip of light-colored wood is visible.

The Great Equalizer:

The Great Equalizer Rick Borsten, 2015-05-12 Rick Borsten's extraordinary first novel tells the story of Benny Horowitz, a young man who terrified of the prospects of life after commencement drops out of college just two weeks before graduation and finds a temporary job working at a halfway house for eight mentally challenged adults whose deviant and inappropriate behavior he is charged with reshaping. It isn't long however before Benny begins to appreciate the uniqueness of each of the residents' personalities and the richness of their worlds and discovers that it is he not they who is being reshaped and reshaped by one resident in particular Nadia Christov, a mysterious 26-year-old artist. It is Nadia's rare ability to see the world with fresh eyes to appreciate the natural wonders surrounding her everywhere and all the time that finally convinces Benny it is she who holds the keys to the greatest of his post-commencement fears. While Benny's story is unfolding, a series of flashbacks traces his unusual family history beginning with his grandfather Joseph who comes to America from Poland in the early 1900s and whose pessimistic vision of death as life's great equalizer is transformed over three generations into one of hope, renewal and wonder. Like Alice Walker's *The Color Purple*, *The Great Equalizer* is a book to cherish for it nourishes the spirit by reminding us of the transformational power of love. *The Great Equalizer* Mark D. Benigni, Barbara A. Haeffner, Lois B. Lehman, 2022-04-11

The Great Equalizer Six Strategies to Make Public Education Work in America delves into the bleak reality of leading a district with a school poised for state takeover and a district with growing inequalities and increasing student needs. Learn how collaboration allowed that same district to become a 1:1 school system when K-12 schools were still dealing with technology roadblocks. Discover how public schools can garner philanthropy and foundation support to lead their districts down the road of excellence. Chapter hooks, key takeaways and guided discussion questions provide a glimpse into the realities of leading public education systems across our nation. By implementing six strategies for success, public education can be innovative and make a difference for all students. Together we can ensure that America's public education system remains the great equalizer. **The Great Equalizer** Mark D. Benigni, Barbara A. Haeffner, Lois B. Lehman, 2022-04-11 *The Great Equalizer* Six Strategies to Make Public Education Work in America delves into the bleak reality of leading a district with a school poised for state takeover and a district with growing inequalities and increasing student needs. By implementing six strategies for success, public education can be innovative and make a difference for all students. Together we can ensure that America's public education system remains the great equalizer. *Public Education* David C. Berliner, Carl Hermanns, 2022 Twenty-eight eminent essayists remind our nation's parents, educators, school board members and politicians that our democracy is in jeopardy and

that our nation's system of free universal public education is also under attack. If that attack succeeds, American democracy itself would be further imperiled. That is because American democracy rests on a belief that the power of our government comes from the people and the diffusion of knowledge and the enlightenment of the people has been a cornerstone of our democracy since the founding of our republic. America's public schools therefore have a special mandate.

Schools and Society Jeanne H. Ballantine, Joan Z. Spade, 2008. Presents the most recent theories, research, terms, concepts, ideas, and histories on educational leadership and school administration as taught in preparation programs and practiced in schools and colleges today.

Still Running James Kerkula, 2014-04. Still Running combines the author's love for running with his greater love for God into an incredible story intended as an encouragement for the reader to run his or her own race in life. This true story is about an African orphan who experienced death at an early age when his mother suddenly died from a two-day illness. Without an adult guardian, he put himself through school and eventually matriculates across the Atlantic where he becomes a crusader against poverty. Incorporating sport metaphors to teach life's lessons, the book is in part an autobiography and an inspirational manual. Its main takeaway is the role of divine intervention versus personal resilience in human pliancy. This book is a tribute to the millions of African children whose childhoods are mired in unimaginable poverty. At least fifty percent of its proceeds go to support the Liberian Education Initiative African School of the Future LEI, a proposed model K-12 education environment focused on college preparatory education, sustainable development, and servant leadership.

Social Problems Maxine P. Atkinson, Kathleen Odell Korgen, 2022-10-18. The Second Edition of *Sociology in Action: Social Problems* is ideal for teachers who want to provide students with an active learning experience that relies less on lecturing and more on discussion, collaboration, self-directed investigation, observation, analysis, and reflection. Maxine P. Atkinson and Kathleen Odell Korgen provide concrete ways to make use of sociological training in the real world by considering sociological solutions to a range of social problems and issues facing society today.

Philosophy and Technology II Carl Mitcham, Alois Huning, 2012-12-06. Until recently, the philosophy and history of science proceeded in a separate way from the philosophy and history of technology, and indeed, with respect to both science and technology, philosophical and historical inquiries were also following their separate ways. Now we see in the past quarter century how the philosophy of science has been profoundly influenced by historical studies of the sciences and no longer concerned so single-mindedly with the analysis of theory and explanation with the relation between hypotheses and experimental observation. Now also we see the traditional historical studies of technology supplemented by philosophical questions and no longer so

plainly focussed upon contexts of application on invention and practical engineering and on the mutually stimulating relations between technology and society Further alas the neat division of intellectual labor those clearly drawn distinctions between science and technology between the theoretical and the applied between discovery and justification between internalist and externalist approaches all have become muddled Partly this is due to internal revolutions within the philosophy and history of science the first result being recognition of their mutual relevance Partly however this state of muddle is due to external factors science at the least in the last half century has become so intimately connected with technology and technological developments have created so many new fields of scientific and philosophical inquiry that any critical reflection on scientific and technological endeavors must henceforth take their interaction into account *Authentic Educating* Robert Leahy, 2009-08-16 *Authentic Educating* describes teaching methods that can be used in every discipline and strategies that work in classrooms from elementary to graduate school Golden Years? Deborah Carr, 2019-01-22 Thanks to advances in technology medicine Social Security and Medicare old age for many Americans is characterized by comfortable retirement good health and fulfilling relationships But there are also millions of people over 65 who struggle with poverty chronic illness unsafe housing social isolation and mistreatment by their caretakers What accounts for these disparities among older adults Sociologist Deborah Carr's *Golden Years* draws insights from multiple disciplines to illuminate the complex ways that socioeconomic status race and gender shape the nearly every aspect of older adults' lives By focusing on an often invisible group of vulnerable elders *Golden Years* reveals that disadvantages accumulate across the life course and can diminish the well-being of many Carr connects research in sociology psychology epidemiology gerontology and other fields to explore the well-being of older adults On many indicators of physical health such as propensity for heart disease or cancer black seniors fare worse than whites due to lifetimes of exposure to stressors such as economic hardships and racial discrimination and diminished access to health care In terms of mental health Carr finds that older women are at higher risk of depression and anxiety than men yet older men are especially vulnerable to suicide a result of complex factors including the rigid masculinity expectations placed on this generation of men Carr finds that older adults' physical and mental health are also closely associated with their social networks and the neighborhoods in which they live Even though strong relationships with spouses families and friends can moderate some of the health declines associated with aging women and especially women of color are more likely than men to live alone and often cannot afford home health care services a combination that can be isolating and even fatal Finally social inequalities affect the process of dying itself with white and affluent seniors in a better position to convey their end-of-life preferences and use hospice or palliative care than their disadvantaged peers Carr cautions that rising economic inequality the lingering impact of the Great Recession and escalating rates of obesity and opioid addiction among other factors may contribute to even greater disparities between the haves and the have-nots in future cohorts of older adults She concludes that policies such as income supplements for the poorest older

adults expanded paid family leave and universal health care could ameliorate or even reverse some disparities A comprehensive analysis of the causes and consequences of later life inequalities Golden Years demonstrates the importance of increased awareness strong public initiatives and creative community based programs in ensuring that all Americans have an opportunity to age well
