Great Walls of Discourse and Other Adventures in Cultural China Haun Saussy,2020-03-23 China and the West us and them the subject and the non subject these and other dualisms furnish China watchers both inside and outside China with a pervasive ready made set of definitions immune to empirical disproof But what does this language of essential difference accomplish The essays in this book are an attempt to cut short the recitation of differences and to answer this question In six interpretive studies of China the author examines the ways in which the networks of assumption and consensus that make communication possible within a discipline affect collective thinking about the object of study Among other subjects these essays offer a historical and historiographical introduction to the problem of comparison and deal with translation religious proselytization semiotics linguistics cultural bilingualism writing systems the career of postmodernism in China and the role of China as an imaginary model for postmodernity in the West Against the reigning simplifications these essays seek to restore the interpretation of China to the complexity and impurity of the historical situations in which it is always caught The chief goal of the essays in this book is not to expose errors in interpreting China but to use these misunderstandings as a basis for devising better methodologies for comparative studies

The Great Free Enterprise Gambit James A. Baar,2000 This book is not a hipper than thou book like Letter to a Christian Nation not exactly although it can be said that this writer wrote for two University of Wisconsin student newspapers He went to Woodstock Illinois and has been to Harvard Illinois He once held a very high position in Washington Illinois in a tree as a tree surgeon This book is not designed to impress the left wing nerds who now dominate Education but first impressions aside it is a scholarly work that

has dug up some eye opening facts about the roots of our culture of Americanism The author is a semi retired Yooper who writes a weekly column for [www RenewAmerica us](http://www.RenewAmerica.us) Qualifications While many pundits seem to think that history began with the Summer of Love 1967 this author overheard more history in first grade in a one roomed school in the 1940s than most people today hear in a lifetime His main point is that An attack on your ROOTS is an attack on YOU Any old tree surgeon could tell you that and one of the other main points of this book is that the Youth Revolution of the 1960s was a copy cat image of the Nihilism movement in Russia in the 1860s and Generation XYZ knows even less about the American Revolution than the Russian one Books now take a back seat to the boob tube Some people actually try to avoid the news like the plague but as Francis Bacon once predicted Books will speak plain when counsellors blanch This book is so plain so different and so definitive that the author s long range goal is to restore some balance to Big Education or whichever happens first to get the ruler of Red China to swim across the Bering Strait with the Olympic torch between his teeth *Littell's Living Age* ,1923

The Living Age ,1923 **Congressional Record** United States. Congress,1980 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **Conservative at the Core** Allan J. Lichtman,2025-09-01 Conservative at the Core unpacks the history rhetoric and policies of the American conservative movement and probes the truth about what conservatism actually represents Allan J Lichtman investigates the foundations and history of conservative thought to identify and reveal the central crisis that lies at the heart of conservative principles and today s politics He explores a century of American conservative politics to demonstrate that professed conservative principles free enterprise limited government fiscal responsibility states rights law and order personal morality and American sovereignty are dispensable notions for public appeal only Instead conservatives have only consistently advanced their version of traditional Christian values and support for private not free enterprise Lichtman provides a sweeping history of the American conservative movement from the end of World War I to the present day He draws on leaders like Calvin Coolidge Herbert Hoover Richard Nixon Ronald Reagan George W Bush Donald J Trump and the conservative Democrats responsible for Jim Crow discrimination in the South Contrary to those who have described Trump as a deviation from professed core principles Conservative at the Core ultimately argues that Trump and his allies represent the culmination of the American conservative tradition consistently upholding and fulfilling conservative nationalist values
